Re: ALE Department Report on Expanded HS AP Courses in 2014-15.

From: Michael Konrad, Interim Director of Advanced Learning Experiences

Date: May 19th 2015

In 2013-14, there were 215 sections of classes for which there was a distinct AP exam. Some sequences, like AP Microeconomics and AP Macroeconomics, are run in the fall and spring semesters for the same students though they have distinct exams.

For 2014-15, there were 246 sections, representing an increase of 31 courses.
