We are having a hard time logging students in. Several students have had to have their passwords changed multiple times, durring the year, and when they (students) go back and try to log back in , their passwords doesn't work again. Help!!!

Are you referring to student logins for a district computer or a specific system, such as Successmaker?

At the beginning of January Technology Services needed to change the password to tualkids. TS has provided your administrator with the new password. Please check with him/her to gain access to the password, or to find out who on your campus you should reach out to for assistance with changing the students' passwords.
