

**APPENDIX X - 3**

**X.F.1.a NARAs Submitted in SY2020-21**

The District continued to provide the Special Master with a notice and a request for approval (NARA) of actions that affected student assignment and/or its physical plant, including a Desegregation Impact Analysis. In SY2020-21, the District submitted the following DIAs/NARAs:

**1. Request to add Portable Classrooms at Bloom ES, Hughes ES, and Borman K-8**

In September and October 2020, the District submitted notices and requests to add double-wide portables at Bloom Elementary, Hughes Elementary, and Borman K-8 schools. In late October, the Court approved all three requests through Order 2550.

**2. Request for a One-Year Modification to UHS Admissions and GATE Testing Processes**

In January 2021, the District filed a NARA regarding one-year changes to the UHS admissions and GATE testing processes necessitated by the COVID pandemic. The Special Master filed a report and recommendation (R&R) supporting the one-year changes, and indicating that the plaintiffs did not object to the request. In late January, the Court adopted the R&R through Order 2562.
