Subject:	Discipline Issues at Safford Requiring Immediate Attention
Attachments:	Magnet School Plan - Safford.Draft 2.pdf

#### Dear Dr. Hawley and Others,

We have been reviewing the school level magnet school plans and were struck by the fact that the attached plan for Safford has a stand-alone strategy section on behavior (at pages 11-12). Of the magnet school plans, so far as we have been able to determine, this is the only school to separately break out and address "behavior" and to seek magnet school funding to address behavior strategies. This underscores to us the severity of the discipline/behavior issues at Safford about which we have been hearing and which we raised at our meetings in Tucson last week.

We therefore write now to reiterate our request that Dr. Peyton promptly visit Safford. Further, given the demographics of that school, we ask that he specifically expand his inquiry to include an assessment of the behavior and discipline issues as they affect the school's Latino population as well as its African-American population. Additionally, we ask that you and Dr. Peyton work with the District so that it can promptly start to remediate the discipline and behavioral issues that plainly exist at that school and that the District not make action relating to that issue subject to next year's magnet school funding given the many areas of the 910(g) budget that expressly address discipline and student behaviors in this budget year.
