

Exhibit H

Email from Richard Foster June 24, 2015

Good Morning Dr. Hawley

I just want to let you know we are good with your list, including transportation. Thank you for all the collaboration through this process.

Richard

I have worked with the District to seek changes in the magnet plan that are responsive to concerns expressed by the plaintiffs and me. The District has agreed to the following:

1. Ochoa will not be a lighthouse school.
2. Categories will be no longer be used.*
3. Magnet funding will not be continued beyond the year in which funding is withdrawn but schools that had been magnet schools will be funded as needed to meet student needs. This can exceed formula funding.
4. My recommendations with respect to integration will take place no later than October of the two school years remaining and recommendations relating to academic performance will be made as soon as data from the previous year becomes available.
5. Transportation will be provided to all students who are involved in activities beyond the school days when individual magnet school plans call for such learning activities.
6. There is no exclusionary option either now or in the future.
7. Goals for individual schools must be at least as high as the current school measures of academic performance.
8. Paraprofessionals will not be used to provide remediation for students who are underachieving.

*There is no need because the goals established by the Court apply to every school and program. Every school must meet those goals.
