EXHIBIT C

Technology Integration Observation

The purpose of this Technology Integration Observation Tool is to determine the use of technology in classrooms to deliver instruction. Personnel designated by the District will record observed teaching and learning with technology and provide qualitative notes where applicable. The District will then analyze the data and work with appropriate teachers and staff to further increase technology use for instruction in the classroom.

Technology Integration Observation

Date _____   School _____ Grade_____ Subject _____

Groupings:	Check All That Apply	Teacher Role	Check All That Apply
Individual		Lecturing	
Pairs/Small groups		Interactive Direction	
Whole Class Lecturing		Facilitate/Coaching	
		Modeling	
		Moderate Discussion	
		Other:	

Please rate the effectiveness of the use of educational technologies during observation period.

Effectiveness	0 = Not observed
	1 = Not Effective
	2 = Somewhat Effective
	3 = Very Effective
