The purpose of this plan is to support first-year teachers serving in schools where student achievement is below the District average. This plan will outline the criterion for how schools will be identified, additional support provided for first-year teachers, and the criterion for how the program will be evaluated.

**Identification Process**

Schools:
All TUSD schools will be targeted.

First-year Teachers:
The Director of Professional Development and the TUSD Induction/Mentoring Program Coordinator will identify first year teachers and provide the teacher with a mentor.

**Support Plan**

Given:
Under the TUSD Induction/Mentoring Program, all first-year teachers are assigned a full-time release mentor that mentors them throughout their first year. First Year Teachers are expected to develop and follow a plan of action, which includes creating a schedule with specific times for observation cycles, feedback, weekly collaboration, creating individualized learning plans, analyzing student work and lesson analysis via video recording.

Plan:
For SY 2015-16 the NTIP will follow the USP and “provide new teachers (i.e., teachers in their first two years of teaching) with the foundation to become effective educators”. Due to this the plan for first year teachers at all schools will be to complete the requirements of the TUSD Induction/Mentoring Program.

- scheduled time with mentor for implementing their action plans, and
- PD targeted toward the specific challenges they face at their respective sites (this is embedded into the mentoring process)
Implementation:
All first year teachers will participate in this plan.
