Stand Up & Lead: A Convening of Black and Latino Leaders

January 23-24, 2015

Apply by December 21

Stand Up & Lead: A Convening of Black and Latino Leaders is a summit for Black and Latino leaders across the state of Arizona who are determined to make positive changes in their community by talking through issues of education, race and identity. This 2 day summit aims to help participants think through leadership from an identity-based lens, and brainstorm ways to make impact in their broader communities. While there are significant differences in each community, the summit will focus on the importance of coalition and understanding difference as a means of achieving social justice in the modern world. The event is hosted locally by Teach For America – Phoenix and will focus on identity and politics as they play out in classrooms, as well as education systems more broadly. Summit dates are Friday, January 23 and Saturday, January 24, 2015. Apply online by December 21, 2014.

Have you heard of Project SOAR?

Project SOAR is a 2-unit service-learning course (HED 397B) designed for those committed to providing mentoring for students at under-resourced middle schools in the Tucson community, in an effort to increase the academic achievement for these students. This course provides an introduction to research around learning and developmental

factors as well as cultural, social and environmental factors that affect student academic achievement and the path to higher education.

Although there is an academic component to this upper-division course, a majority of the time (2 hrs/wk) is spent mentoring at a local middle school (we serve 13 middle schools in the Tucson area, most of which are about a 20 min drive from campus) for a total of 25 hours per semester (this includes travel time & prep time). Carpooling is available, students DO NOT have to have a car.

You can enroll in HED 397B directly on UAccess Student link.
