The goal of establishing Family Resource Centers for 2014-2015 school year, was to increase family engagement. This was accomplished by offering family workshops and trainings to our families at our Duffy and Wakefield locations.

The data below indicates individual participation of families and services are right on target and an indicator they will continue to grow as the program progresses. For example, services at the Duffy Clothing Bank grew from the 60 students serviced in 2013-14 to 5334 students serviced in 2014-15. In the two months the Wakefield Family Center was open, services substantially grew from 35 students in May of 2015 increasing to 421 students in June of 2015. With the addition of the Palo Verde Family Center (opening end of October 2015) and Wakefield set for the year, increases to our family services are expected to stay on course, continually growing into the 2015-2016 school year.
