USING CLARITY

- ❑ Student is referred to MTSS with an ELA problem.
- ❑ Here is how you will use Clarity for MTSS meetings and for Interventions that you will assign to the student.

SERVICES PAUSED

- ❑ One Services Paused Referral for every one MTSS student.
- ❑ This is where meeting notes are kept for individual students from your MTSS Meeting. You will add a new session every time you discuss this student.
- ❑ New Sessions create a running record of the discussions you have about the student.
- ❑ This will take the place of all MTSS forms, spreadsheets, and minutes.

RECEIVING SERVICES

- During MTSS meetings, once the Services Paused referral is created, you can submit and duplicate to immediately assign the intervention. The intervention referral is called “Receiving Services.”
- You will need to determine if this is an ELA or Math intervention.
- Receiving Services is where you document what interventions the student is participating in. New Sessions are added to document the frequency of the intervention.

WORK FLOW.....

Workflow needs to intentional

a. (Concern) Referral

b. List two Tier 1 interventions

c. Team meeting

d. Intervention= new referral (receiving services)

e. Follow-up

DAZED AND CONFUSED???
