MTSS, PBIS and Restorative Practice

While PBIS and Restorative Practices are the District's primary school-wide approaches to classroom management and student behavior, MTSS is the overarching umbrella under which all academic and behavioral interventions and strategies operate. These strategies help define ways for schools to decide how to respond to a child who needs additional support.

TUSD is redefining the roles of our administrators in student behavior and discipline, generally, and in the implementation of PBIS, Restorative Practices, MTSS, and the development of a district wide consistent, supportive and positive school culture and climate.
