

APPENDIX V – 50

V.G.1.p (1) DESCRIPTION OF AASSD COLLEGE MENTORING and PARTNERSHIPS

In SY18-19, the African American Student Services Department (AASSD) collaborated with several organizations to provide mentoring and connect TUSD students with college students. The AASSD implemented several types of mentoring opportunities in SY 18-19: 1) small group, and 2) large group mentoring workshops. The purpose of the mentoring partnerships were to build positive relationships with organizations to support academic, cultural, and social experiences for students. The purpose of these relationships were twofold: 1) to serve as a conduit for connecting students, families and schools with community resources, and 2) to increase the number of positive role models students are able to connect with, and to learn about careers, leadership skills, and college preparation.

In SY18-19, the AASSD collaborated with Pima Community College, the University of Arizona, and several historical black college and universities (HBCU), District career counselors, members of the community and other organizations to provide support and guidance to African American students through mentoring and other methods.
