<td>To provide the Board with a presentation regarding: 1) Mexican American Studies (MAS), as the course was taught in TUSD prior to 2012; 2) Mexican American Viewpoint Culturally Relevant Courses (CRC), which are currently taught in TUSD; and, 3) the difference between the two. The Board will consider the information in order to, potentially, take a vote at an upcoming meeting about whether and how to change the Mexican American Viewpoint CRC curriculum so that it is as beneficial to students as possible. In 2017, the Court found that the State of Arizona was not permitted to enforce the law that banned Mexican American Studies in TUSD because it &quot;was enacted and enforced, not for legitimate education purposes, but for (i) an invidious discriminatory racial purpose, and (ii) a politically partisan purpose--to shut down the [TUSD Mexican American Studies program]--in violation of the First and Fourteenth Amendments to the Constitution.&quot; TUSD has provided Mexican American Viewpoint CRC since not long after MAS was banned in 2012. Appendix I: Strategic Plan (Working Draft)

MEXICAN AMERICAN STUDENT SERVICES DEPARTMENT (MASSD)
STRATEGIC PLAN SY 2018-19

MASSD MISSION

As the Mexican American Student Services Department Staff, we advocate for students’ academic achievement and social well-being. This is achieved by collaboratively working with TUSD schools and families by offering direct and auxiliary services, such as tutoring and mentoring.

PURPOSE OF THE STRATEGIC PLAN

The MASSD is committed to improving the academic achievement and educational outcomes of Mexican American/Latino students (inclusive of students identified as ELLs) through a comprehensive asset-based model approach to student services integrated with culturally responsive practices for growth and advocacy. An asset-based model approach embraces and builds upon students’ and their families’ strengths, potential, culture/linguistic background, experiences, knowledge, and skills. Students and parents bring “funds of knowledge” from their community and homes to utilize at every level of the educational experience to further a commitment to equity and improved academic achievement in TUSD. The provision of support services for parents, administrators, and teachers in TUSD is foundational to the efficacy of these research-based practices centered on increasing student success in school and enhancing academic achievement. The Strategic Plan is a working document that will guide this work through the reorganization of the MASSD.
MEXICAN AMERICAN STUDENT SERVICES DEPARTMENT (MASSD)
STRATEGIC PLAN SY 2018-19

AREAS OF SUPPORT

The MASSD provides four areas of support services for Mexican American/Latino students (inclusive of ELL students) to meet the Department’s Mission:

1. Direct support services to students, in coordination with the classroom teacher, school staff, and site administration. These services are categorized into two areas:
   a. Academic support
   b. Behavioral support
2. District-wide support services to TUSD administrators and teachers to dialogue and jointly modify educational approaches from a deficit model to an asset model\(^1\). This support is inclusive of PD coordinated with the CRPID.
3. Integrated support services to parents, in collaboration with District Departments including Family and Community Engagement.
4. Community support services through outreach and collaboration to develop partnerships as resources for students and families.

The MASSD Strategic Plan is an operational document inclusive of goals and objectives strategically designed to meet the Department’s Mission. The first set of goals and objectives address the immediate actions required in the reorganization of the Department (staffing, training, development of support services models, etc.). The second set of goals and objectives address the services provided by MASSD throughout the school year.

\(^1\) Approaching students and families based upon our perceptions of their weaknesses rather than their strengths. (Gorski, 2010)

The Mexican American Student Services Department (MASSD) reorganization plan provides for an integrated comprehensive approach for services utilizing an asset-based model to build systemic, institutional equity for improving academic student achievement and educational outcomes. This reorganization plan further commits District resources to serve the varied needs of Mexican American/Latino students and parents district-wide for increased academic success.

MASSD Mission

As the Mexican American Student Services Department Staff, we advocate for students’ academic achievement and social well-being. This is achieved by collaboratively working with TUSD schools and families by offering direct and auxiliary services, such as tutoring and mentoring.
PART I: MASSD Reorganization Overview

Introduction

Tucson Unified School District (TUSD) student demographics continue to move in the direction of a growing Mexican American/Latino student population, which for years has comprised the largest ethnic student population within the District. The Mexican American Student Services Department (MASSD) was created as an essential component of the Unitary Status Plan (USP), which was stipulated by all of the parties and approved by the US Federal Court on February 19, 2013.1

Since the inception of the MASSD in 2012, the Department has provided advocacy for academic achievement of Mexican American/Latino students with a direct student service and staffing model comparable to other TUSD Student Equity departments. This has manifested in the current use of a deficit model approach by the MASSD, which includes identifying student deficiencies (i.e. low achievement in reading and math test scores, low attendance, behavior issues, etc.). As Paul Gorski states, “deficit ideology is a worldview that explains and justifies outcome inequalities—standardized test scores or levels of educational attainment, for example—by pointing to supposed deficiencies within disenfranchised individuals and communities” (Gorski, 2010). The department puts into place strategies to address these deficiencies through the use of Student Success Specialists at targeted sites working in these specific areas.

In contrast, the new model for reorganization will focus on an asset-based approach shifting to Program Specialists who will concentrate on direct services in targeted areas for students, families, sites and thus provide a broader spectrum of asset-based services. Asset-based ideology embraces and builds upon students’ and their families’ strengths, potential, culture/linguistic background, experiences, knowledge, and skills. Students and parents bring “funds of knowledge” from their community and homes to utilize at every level of the educational experience to further a commitment to equity and improved academic achievement in TUSD.2 The provision of support services for parents, administrators, and teachers in TUSD is foundational to the efficacy of these research-based practices centered on increasing student success in school and enhancing academic achievement.

1 USP section E.8.a.1. states in part: “The District shall continue to fund and sustain Support Services for Latino Student Achievement to improve the academic achievement and educational outcomes of Latino students, including English language learners, using strategies including participation in Achievement Via Individual Determination (AVID) and, approved reading block extension, to reduce disparities for Latino students in academic achievement, high school dropout rates, retention, special education placement, discipline, access to Advanced Learning Experiences (described in Section (V)(A)) and any other areas where disparities may be identified as a result of studies required by this Plan.” The cited USP section encapsulates the overarching intended objective for the work of the MASSD.

This plan was reviewed by an expert panel of scholars invested in the Mexican American/Latino community in Tucson Unified School District and their input was considered and incorporated as appropriate in this plan:

- Dr. Nolan Cabrera - University of Arizona, Associate Professor, College of Education, Educational Policy Studies & Practice
- Dr. Francesca López - University of Arizona, Associate Professor, College of Education, Educational Policy Studies & Practice
- Dr. Andrea Romero - University of Arizona, Professor, College of Agriculture and Life Sciences, Norton School of Family Consumer Science, Family Studies and Human Development-Director-Frances McClelland Institute for Children, Youth, and Families
- Dr. Ada Wilkinson-Lee - University of Arizona, Associate Professor, College of Social & Behavioral Sciences, Mexican American Studies Department

The purpose of the reorganization is to improve the academic achievement and educational outcomes of Mexican American/Latino students through the expansion of support services in TUSD. The reorganization of the MASSD provides qualified staffing for student, parent, teacher, and administrator support district-wide in alignment with the duties and responsibilities outlined in the USP. The integration of a comprehensive asset-based model (López, 2017) approach to student services will increase department efficacy centered on culturally responsive practices for growth and advocacy.

In 2013, the Gibson Consulting Group commissioned by TUSD examined the efficiency of this direct student service model. The Operational Efficiency Audit found that “there is no apparent relationship between the number of TUSD students by ethnicity and the number of Student Equity and Intervention staff that support them” (Gibson, 2014, p. 23). Nevertheless, the basis for the allocation of resources and services to the MASSD has relied on this direct service model.

Graphic 1 details the staffing to student ratios based on the Gibson Operational Efficiency Audit and TUSD 40th Day Enrollment for SY 2017-18. In SY 2017-18, MASSD’s 7 Student Success Specialists committed to serving as many of the 29,049 students as possible with a 4,007 to 1 ratio.
Through ongoing data analysis, the Mendoza Plaintiffs and District leadership have reached a common agreement that a more comprehensive and integrated outcome-based service model will best support students, parents, administrators, and teachers to improve the academic achievement and educational outcomes of Mexican American/Latino students. This model will provide support through targeted areas for district-wide services.

Modifications of the current MASSD service model for Mexican American/Latino students will foster integrity to the intentions of the USP through a transformational reorganization. This determination is based on data analysis and feedback from District Leadership, the Special Master, and the Mendoza Plaintiffs. The recommendations for the MASSD reorganization focus on improved outcomes to meet USP objectives through the initiation of a comprehensive and integrated model to benefit more students district-wide. To this end, TUSD Leadership, the MASSD Director, a member of the Special Master’s Implementation Committee, and a Mendoza Plaintiffs’ representative have collaborated in the development of this MASSD Reorganization Plan.
Theoretical Framework

The MASSD Reorganization Plan incorporates research-based practices using an asset-based systemic approach in its delivery of services. Critical to this approach is the previously explained shift in staffing from Student Success Specialists, positions that do not require a BA/BS or bilingual requirements, to Program Specialists who must hold a BA/BS and demonstrate bilingual (Spanish & English) proficiency. Two of the Program Specialist positions (Academic Empowerment focus area) also require a teacher certification.

Program Specialists are integral to the asset-based model approach, which embraces and builds upon students’ and their families’ strengths, potential, cultural/linguistic background, experiences, knowledge, and skills. Students and parents bring “funds of knowledge” (Moll & Gonzalez, 1992) from their community and homes to utilize at every level of the educational experience. Families identify themselves with the pedagogy and school culture; this connection fosters self-advocacy (Nuri-Robins et. al, 2005). This supports and furthers a commitment to equity and academic achievement in TUSD.

The theoretical framework is strategically developed and applied through the following practices:

- **Focusing on an asset-based approach support model** in developing and executing services aimed at improving the academic and educational outcomes of Mexican American/Latino students, inclusive of students identified as English Language Learners (ELL);
- **Integrating culturally responsive practices** for growth and advocacy through collaboration with the Culturally Responsive Pedagogy & Instruction Department (CRPID);
- **Identifying and responding promptly to systemic patterns** hindering academic success (i.e. absences, behavior, social needs, etc.) based on cultural/linguistic background;
- Utilizing the District’s integrated system of student and school data to monitor progress and respond with required changes to improve academic achievement;
- Collaborating with sites, departments, and leaders to formulate sustainable and systemic remedies;
- Monitoring through a continuous improvement evaluation component to implement needed programmatic changes;
- Utilizing Achievement Via Individual Determination (AVID) strategies and models to support Culturally Relevant Curriculum (CRC) classrooms to reduce/eliminate the opportunity gap and increase college readiness;
- Developing positive, empowering relationships based on respect and affirmation of the cultural/linguistic backgrounds of families through partnerships with District and community resources.
Part II: Reorganization of MASSD

SY 2018-19 Reorganizational Goals

All support services in this plan include meeting of the needs of Mexican American/Latino students identified as ELL. A Strategic Plan is critical to the effectiveness of MASSD Reorganization and is inclusive of goals, objectives, and measurable outcomes. A working document of this plan is available in Appendix I.

The following goals are based on the theoretical framework outlined above. These goals are further developed in the Strategic Plan (see Appendix 1). Many of these goals intersect with the work of District departments including the Culturally Responsive Pedagogy & Instruction Department (CRPID), Language Acquisition Department (LAD), Family and Community Engagement (FACE), etc.

1. Implement the reorganization of the MASSD to reflect asset-based support services integrated with culturally responsive strategies to improve academic student achievement & educational outcomes.

2. Develop a systemic approach of support for administrators and teachers to incorporate asset-based and culturally responsive strategies within all facets of Mexican American/Latino student’s educational experiences in TUSD.

3. Advocate for Mexican American/Latino students’ and parents’ best interests in District decision-making.

4. Expand extensive, integrated, collaborative partnerships at the local, state, and national level to support MASSD goals.

5. Foster Mexican American/Latino parent engagement in collaboration with FACE, site administrators, the CRPID, and District Leadership.

6. Monitor academic success indicators for Mexican American/Latino students district-wide to recommend interventions as needed.

7. Target Culturally Relevant Curriculum (CRC) classrooms to utilize AVID (Advancement Via Individual Determination) strategies to build positive, trusting relationships for students’ academic and social support.

Assessment and Evaluation

A designated Research Project Manager from the District Assessment & Evaluation Department will assist the MASSD Director in the development of an Evaluation Plan to analyze formative and summative assessments to monitor student academic, social, and behavior needs (e.g. site discipline trends, benchmark data, attendance rates, etc.). Previously the department has relied on academic achievement data by school and individual students served. Ongoing monitoring and assessment will
be conducted to continue to determine effectiveness of positions and alignment with job responsibilities.

**MASSD Reorganization Staffing SY 2018-19**

Reorganization calls for an integrated comprehensive support services that move away from a deficit-based centered direct services model with the elimination of Student Success Specialists positions and shifts to an asset-based approach using Program Specialists. Although the number of FTEs are relatively similar in both models, the systemic focus of services and the pedagogical framework on which the reorganization is based has changed. This change will positively impact student achievement and behavior district-wide with a more effective use of allocated resources.

FUTURE MEETING DATES AND AGENDA ITEMS  

10:00 p.m.  
MOTION AND VOTE TO ADJOURN OR EXTEND SPECIAL BOARD MEETING  

ADJOURNMENT  
- One or more Governing Board members will/may participate by telephonic or video communications.  
- Names and details, including available support documents, may be obtained during regular business hours at the TUSD Governing Board Office.  
- Persons with a disability may request a reasonable accommodation, such as a sign language interpreter, by contacting Translations/Interpretations Services at 225-4600. Requests should be made as early as possible to arrange the accommodation.  
- Upon request, TUSD will provide a certified interpreter to interpret Governing Board meetings whenever possible. Please contact Translations/Interpretations Services at 225-4672 at least 72 hours prior to the event. Every effort will be made to honor requests for interpretation services made with less than 72 hours’ notice.  
- If authorized by a majority vote of the members of the Governing Board, any matter on the open meeting agenda may be discussed in executive session for the purpose of obtaining legal advice thereon, pursuant to A.R.S. 38-431.03 (A)(3). The executive session will be held immediately after the vote and will not be open to the public.  
- The order of items on this agenda may be modified during the meeting at the discretion of the Board President or upon a motion to amend the order of business which is approved by a 2/3 vote of the Board.
What We Believe: Least Restrictive Environment

• Tucson Unified adheres to the IDEA law which states that: *all students with disabilities* should be educated in the general education classroom with their typical peers to the greatest extent possible and that removal from the general education classroom should occur only when all other interventions, supports and services have been implemented with fidelity.
Least Restrictive Environment

- 300.14-16 of IDEA requires districts to:
  - Educate children with disabilities with children who are non-disabled
  - Only remove a student from their regular education environment when all supplementary aids and supports are attempted and documented as unsuccessful.
  - A child is not removed solely due to the need of additional modifications to the general education curriculum
  - IEP TEAMS must refer to the Continuum of Services
Continuum of Special Education Services

- A. Inside the regular class 80% or more of the day
- B. Inside the regular classroom less than 79% to 40% of the day
- C. Inside the regular class less than 40% of the day
- D. Served in public or private separate schools, residential placements, or homebound or hospital placements (20 U.S.C. 1416(a)(3)(A))
Continuum of Services

- General Education Classroom - co-taught inclusion with related supports and services
- Self-Contained
- Homebound
- Separate Schools or Day Program
Teacher Certification

• Special Education Certification
  • Birth to Grade 3 Special Education
  • Mild/Moderate K-12 Special Education
  • Moderate/Severe K-12 Special Education
  • Hearing Impaired Pre K-12
  • Visually Impaired Pre K-12
Teacher Requirements

• Teacher of Record - Appropriately Certified and Highly Qualified
  • Special Education Teacher provides Specially Designed Instruction, modifications, supports and services according to the IEP in a resource or self-contained environment.

• Non-Teacher of Record - Appropriately Certified
  • Special Education Teachers provide Specially Designed Instruction, modifications, supports, services and consultation to general education teacher according to the IEP in the general education classroom. The general education teacher is the Teacher of Record.
Inclusive Education
Focus Program in TUSD
What Does Inclusive Education Look Like in TUSD?

• All students attend their neighborhood school or school of choice through the open enrollment process

• General education and special education teachers co-teach (co-plan, co-instruct, co-assess)

• Specially Designed Instruction happens in the general education classroom with consultation and support of the special education teacher

• All students are referred to as “our” students
Guiding Principles:

• All children belong.

• All children learn in different ways.

• It is every child’s right to be included.

• No student has to “earn” the right to participate fully in his/her general education classroom.

• Compensating EXED teachers for writing IEP’s during their provided planning period is not part of the consensus agreement and conflicts with a required job duty in the job description.
When Parents Disagree: Procedural Safeguards

• Procedural Safeguards are offered to parents at the beginning of each annual IEP meeting.
• These documents outline a parent’s rights, roles, and responsibilities throughout the IEP process.
• These documents note contact information for district officials, local, state, and federal agencies that will assist with parent concerns or requests to appeal.
The IEP Team

• The IEP team determines the parameters and category of service assigned to each EXED student according to his/her unique needs.

• No administrator from the district or site can set or change the parameters of service assigned to EXED students.

• No individual teacher, EXED or general education, can set or change the parameters of service assigned to EXED students.
TUSD EXED Sub-Committee

• Meets every year as part of the negotiations process
• Consists of EXED teachers, district leadership, TEA representatives
• Reviews and recommends changes to consensus language based on teacher concerns and for the purpose of improving service to EXED students

**Action:**

**PURPOSE:**
The purpose of this presentation is to share with the Governing Board an overview of Trayben and Associates findings with regard to the state of African American K-12 education in TUSD and recommendations for improvement.

**DESCRIPTION AND JUSTIFICATION:**
In March 2018, through competitive bid process, Trayben and Associates were hired to serve as consultants and prominent experts on African American achievement. The consultants identified research-based practices that have shown to enhance the learning outcomes of African American students, provided recommendations for TUSD to implement, and provided consultation to the District related to the reorganization of the African American Student Services Department (AASSD) to begin in the 2018-2019 school year.

The information item will provide an executive overview of their work, findings, and recommendations for implementation.

PURPOSE:
On October 23, 2017, the Arizona School Board of Education adopted rules in the area of Special Education (R7-2-401). Policy IHB along with the Regulation have been adjusted to conform to the work of the State Board.

The Arizona Department of Education is requiring districts to file a Certification Form that verifies that the governing board has approved policies reflecting the statutory changes noted in the attached Track Changes version of Policy IHB – Exceptional Education Instructional Programs.

The Form certifying adoption of the conforming policies must be submitted to the State Department of Education by January 1, 2019.

STATEMENT OF POLICY:
Recent mandatory revisions to policy are highlighted in yellow in the attached "Track Changes" version of Policy IHB, and include revisions to Paragraphs A,C,D,E,F,G,J and additional discipline provisions (see attached "IHB--Track Changes" sections highlighted in yellow font).

Black font is language currently contained in TUSD's Policy IHB. All red font changes are those recommended to align TUSD's policy to the ASBA model policy. Those red font changes that are further highlighted in yellow include the mandatory revisions required to be adopted by the Board prior to January 1, 2019 (per the Arizona Department of Education).

KEY POINTS ABOUT THE POLICY:
These policy changes, mandated by ADE, are made to mirror language in Federal Regulations, and will not change practice in TUSD.

SPECIAL INSTRUCTIONAL PROGRAMS

A long-range plan will be the basis for providing special education services for students with exceptional needs and education requirements. These services may include specialized programs, personnel, facilities, materials, and equipment needed to promote the individual physical, social, intellectual, and emotional growth of exceptional students.

The Superintendent shall develop procedures that provide educational opportunities for individuals with disabilities and that accomplish District compliance with federal laws including the Individuals with Disabilities Education Act (IDEA), the Arizona revised statutes, and the lawful regulations of the State Board of Education. Such procedures shall include, but not be limited to, the following provisions:

- All children with disabilities aged birth (0) through twenty-one (21) years within the District’s jurisdiction are to be identified, located, and evaluated including children attending religious or private schools who are in need of special education and related services.

- A free appropriate public education (FAPE) shall be available to all children with disabilities aged three (3) through twenty-one (21) years within the District’s jurisdiction, including children advancing from grade to grade, those who have been suspended or expelled from school in accordance with the applicable IDEA rules and regulations, and any child with a disability the District has placed in or referred to a private school or facility. The District may refer to and contract with approved public or private agencies as necessary to ensure the provision of FAPE for children with disabilities. FAPE for an eligible student with a disability shall extend through conclusion of the instructional year during which the student attains the age of twenty-two (22).

- A full individual evaluation encompassing existing and additional data shall be conducted for each child to determine if the child is a child with a disability and the educational needs of the child before the initial provision of special education and related services. A reevaluation of each child shall be conducted at least every third year.
• An individualized education plan (IEP) shall be developed and implemented for each eligible child served by the District and for each eligible child the District places in or refers to a private school or facility. An IEP or an individualized family service plan (IFSP) will be in place for each child with a disability prior to the provision of FAPE.

• To the maximum extent appropriate, opportunities for the least restrictive setting, inclusion in educational exercises with regular program students, and for interaction with the total school environment will be provided to exceptional students, the exception to be only when the student’s condition, with supplementary aids and services, make such regular class education unsatisfactory.

• All required procedural safeguards must be guaranteed to the exceptional students and their parents. The parents will be provided with notices of procedural safeguards in each specified instance and all due process conditions will be satisfied with respect to the provision of a free appropriate public education.

• The District shall follow the established state and federal standards to protect the confidentiality of personally identifiable information at the collection, storage, disclosure, and destruction stages.

• To the extent essential to provide FAPE to children with disabilities aged three (3) through twenty-one (21), extended school year (ESY) services shall be made available and implemented as necessary.

• Criteria for the graduation of exceptional students, including accomplishment in reading, writing and mathematics, shall be as specified in the District policy on graduation requirements. Such standards shall be equivalent to or greater than those established by the State Board of Education.

• No later than March 1 of each year conduct a review of the reasonable and acceptable ratio of students per teacher for each disability category. The applicable ratios shall be specified in a regulation accompanying the District policy on class size.

• The discipline of exceptional students, and unevaluated students suspected of having a qualifying disability, is to be conducted in such a manner as to comply with FAPE and requirements of the IDEA.

The Superintendent is authorized and directed to establish procedures for the development and administration of the necessary programs, and to document District compliance with the law and this policy. Such procedures will be made available to staff members and to parents as necessary to enhance compliance.

POLICY TITLE: Exceptional Education

LEAD DEPARTMENT: Exceptional Education

A long-range plan will be the basis for providing special education services for students with exceptional needs and education requirements. These services may include specialized programs, personnel, facilities, materials, and equipment needed to promote the individual physical, social, intellectual, and emotional growth of exceptional students.

The Superintendent shall develop procedures that provide educational opportunities for individuals with disabilities and accomplish District compliance with federal laws, including the Individuals with Disabilities Education Act (IDEA), the Arizona revised statutes, and the lawful regulations of the State Board of Education. Such procedures shall include, but not be limited to, the following provisions:

• A. The District will ensure that all children with disabilities aged between the age of birth (0) through twenty-one (21) years, within the District’s jurisdiction are identified, located, and evaluated, including children with disabilities who are homeless or wards of the state, and children with disabilities attending religious or private schools or home schools, regardless of the severity of their disability, and who are in need of special education and related services are identified, located, and evaluated.

• B. A free appropriate public education (FAPE) shall be available to all children with disabilities aged three (3) through twenty-one (21) years within the District’s jurisdiction, including children advancing from grade to grade, those who have been suspended or expelled from school in accordance with the applicable IDEA rules and regulations, and any child with a disability the District has placed in or referred to a private school or facility. The District may refer to and contract with approved public or private agencies as necessary to ensure the provision of FAPE for children with disabilities. FAPE for an eligible student with a disability shall extend through conclusion of the instructional year during which the student attains the age of twenty-two (22).

• C. A full and individual initial evaluation encompassing existing and additional data shall be conducted for each child to determine if the child is a child with a disability and the educational needs of the child by the public education agency before the initial provision of special education and related services to a child with a disability in accordance with 34 C.F.R. 300.300–300.311 of the IDEA regulations. A reevaluation
of each child with a disability will be conducted at least by the public education agency in accordance with 34 C.F.R. 300.300–300.311 of the IDEA regulations, every third year.

AnD. Procedures for child identification and referral shall meet the requirements of the IDEA and its regulations, A.R.S. Title 15, chapter 7, and its regulations, and the State Board of Education rules R7-2-401.

E. The District shall ensure that an individualized education program (IEP) shall be developed and implemented for each eligible child served by the District and for each eligible child the District places in or refers to a private school or facility by the District in accordance with 34 C.F.R. 300.320 – 300.325 of the IDEA regulations. An IEP or an individualized family service plan (IFSP) will be in place for each child with a disability prior to the provision of FAPE.

F. To the maximum extent appropriate, opportunities for the least restrictive setting, environment, inclusion in educational exercises with regular program students, and for interaction with the total school environment will be provided to exceptional students, the exception to be only when the student's condition, with supplementary aids and services, make such regular class education unsatisfactory, in accordance with 34 C.F.R. 300.114 – 300.117 of the IDEA regulations.

G. The District shall establish, maintain, and implement procedural safeguards must be guaranteed to the exceptional students and their parents. The parents that meet the requirements of 34 C.F.R. 300.300 – 300.311 of the IDEA regulations. Parents will be provided with notices of procedural safeguards in each specified instance and all due process conditions will be satisfied with respect to the provision of a free appropriate public education.

H. The District will ensure that protection of the established state and federal standards to protect the confidentiality of personally identifiable data, information at the collection, storage, and records collected or maintained by the District will be in accordance with 34 C.F.R. 300.611-300.627 disclosure, and destruction stages.

I. To the extent essential to provide FAPE to children with disabilities aged three and twenty-one (21), extended school year (ESY) services shall be made available and implemented as necessary.

J. Criteria for the graduation of exceptional students, including accomplishment in reading, writing, and mathematics, shall be as specified in the District policy on graduation requirements. Such standards shall be equivalent to or greater than those established by the State Board of Education.

K. Not later than March 1 of each year conduct a review of the reasonable and
acceptable ratio of students per teacher for each disability category. The applicable ratios shall be specified in a regulation accompanying the District policy on class size.

The discipline of exceptional students, and unevaluated students suspected of having a qualifying disability, is to be conducted in such a manner as to comply with FAPE and requirements of the IDEA.

A child with a disability may be disciplined for a violation of the student code of conduct, including removal from his or her current placement to an appropriate interim alternative education setting, another setting, suspension, or expulsion in accordance with IDEA Regulations 34 C.F.R. 300.530 through 300.536.

For the purpose of this policy as it relates to a child with a disability, home school district means the school district in which the person resides who has legal custody of the child as provided in A.R.S. 15-824. If the child is a ward of the state and a specific person does not have legal custody of the child or is a ward of this state and the child is enrolled in an accommodation school pursuant to A.R.S. 15-913, the home school district is the district the child last attended or, if the child has not previously attended a public school in this state, the school district within which the child currently resides.

The Superintendent is authorized and directed to establish procedures for the development and administration of the necessary programs, and to document District compliance with the law and this policy. Such procedures will be made available to staff members and to parents as necessary to enhance compliance.

The Superintendent shall ensure that procedures provide educational opportunities for individuals with disabilities and shall accomplish District compliance with federal laws including the Individuals with Disabilities Education Act (IDEA), the Arizona revised statutes, and the lawful regulations of the State Board of Education. Such procedures shall include, but not be limited to, the following provisions:

A. The District will ensure that all children with disabilities, between the age of birth (0) through twenty-one (21) years, within the boundaries of the District, including children with disabilities who are homeless or wards of the state, and children with disabilities attending private schools or home schools, regardless of the severity of their disability, and who are in need of special education and related services are identified, located, and evaluated.

B. A free appropriate public education (FAPE) shall be available to all children with disabilities aged three (3) through twenty-one (21) years within the District's jurisdiction, including children...
advancing from grade to grade, those who have been suspended or expelled from school in accordance with the applicable IDEA rules and regulations, and any child with a disability the District has placed in or referred to a private school or facility. The District may refer to and contract with approved public or private agencies as necessary to ensure the provision of FAPE for children with disabilities. FAPE for an eligible student with a disability shall extend through conclusion of the instructional year during which the student attains the age of twenty-two (22).

C. A full and individual initial evaluation will be conducted by the public education agency before the initial provision of special education and related services to a child with a disability in accordance with 34 C.F.R. 300.300–300.311 of the IDEA regulations. A reevaluation of each child with a disability will be conducted by the public education agency in accordance with 34 C.F.R. 300.300–300.311 of the IDEA regulations.

D. Procedures for child identification and referral shall meet the requirements of the IDEA and its regulations, A.R.S. Title 15, chapter 7, and its regulations, and the State Board of Education rules R7-2-401.

E. The District shall ensure that an individualized education program (IEP) is developed and implemented for each eligible child served by the District and for each eligible child the District places in or referred to a private school or facility by the District in accordance with 34 C.F.R. 300.320 – 300.325 of the IDEA regulations. SPECIAL INSTRUCTIONAL PROGRAMS

A long-range plan will be the basis for providing special education services for students with exceptional needs and education requirements. These services may include specialized programs, personnel, facilities, materials, and equipment needed to promote the individual physical, social, intellectual, and emotional growth of exceptional students.

The Superintendent shall develop procedures that provide educational opportunities for individuals with disabilities and that accomplish District compliance with federal laws including the Individuals with Disabilities Education Act (IDEA), the Arizona revised statutes, and the lawful regulations of the State Board of Education. Such procedures shall include, but not be limited to, the following provisions:

- All children with disabilities aged birth (0) through twenty-one (21) years within the District’s jurisdiction are to be identified, located, and evaluated including children attending religious or private schools who are in need of special education and related services.

- A full individual evaluation encompassing existing and additional data shall be conducted for each child to determine if the child is a child with a disability and the educational needs of the child before the initial provision of special education and related services. A reevaluation of each child shall be conducted at least every third year.

- All children with disabilities aged birth (0) through twenty-one (21) years within the District’s jurisdiction are to be identified, located, and evaluated including children attending religious or private schools who are in need of special education and related services.

- A free appropriate public education (FAPE) shall be available to all children with disabilities aged three (3) through twenty-one (21) years within the District’s jurisdiction, including children advancing from grade to grade, those who have been suspended or expelled from school in accordance with the applicable IDEA rules and regulations, and any child with a disability the District has placed in or referred to a private school or facility. The District may refer to and contract with approved public or private agencies as necessary to ensure the provision of FAPE for children with disabilities. FAPE for an eligible student with a disability shall extend through conclusion of the instructional year during which the student attains the age of twenty-two (22).

- A full individual evaluation encompassing existing and additional data shall be conducted for each child to determine if the child is a child with a disability and the educational needs of the child before the initial provision of special education and related services. A reevaluation of each child shall be conducted at least every third year.
• An individualized education plan (IEP) shall be developed and implemented for each eligible child served by the District and for each eligible child the District places in or refers to a private school or facility. An IEP or an individualized family service plan (IFSP) will be in place for each child with a disability prior to the provision of FAPE.

• To the maximum extent appropriate, opportunities for the least restrictive setting, inclusion in educational exercises with regular program students, and for interaction with the total school environment will be provided to exceptional students, the exception to be only when the student’s condition, with supplementary aids and services, make such regular class education unsatisfactory.

• All required procedural safeguards must be guaranteed to the exceptional students and their parents. The parents will be provided with notices of procedural safeguards in each specified instance and all due process conditions will be satisfied with respect to the provision of a free appropriate public education.

• The District shall follow the established state and federal standards to protect the confidentiality of personally identifiable information at the collection, storage, disclosure, and destruction stages.

• To the extent essential to provide FAPE to children with disabilities aged three (3) through twenty-one (21), extended school year (ESY) services shall be made available and implemented as necessary.

• Criteria for the graduation of exceptional students, including accomplishment in reading, writing and mathematics, shall be as specified in the District policy on graduation requirements. Such standards shall be equivalent to or greater than those established by the State Board of Education.

• No later than March 1 of each year conduct a review of the reasonable and acceptable ratio of students per teacher for each disability category. The applicable ratios shall be specified in a regulation accompanying the District policy on class size.

• The discipline of exceptional students, and unevaluated students suspected of having a qualifying disability, is to be conducted in such a manner as to comply with FAPE and requirements of the IDEA.

The Superintendent is authorized and directed to establish procedures for the development and administration of the necessary programs, and to document District compliance with the law and this policy. Such procedures will be made available to staff members and to parents as necessary to enhance compliance.

Scope of Services
A long-range plan will be the basis for providing special education services for students with exceptional needs and education requirements. These services may include specialized programs, personnel, facilities, materials, and equipment needed to promote the individual physical, social, intellectual, and emotional growth of exceptional students.

Compliance with the Law
The Superintendent shall ensure that procedures provide educational opportunities for individuals with disabilities and shall accomplish District compliance with federal laws including the Individuals with Disabilities Education Act (IDEA), the Arizona revised statutes, and the lawful regulations of the State Board of Education. Such procedures shall include, but not be limited to, the following provisions:

A. The District will ensure that all children with disabilities, between the age of birth (0) through twenty-one (21) years, within the boundaries of the District, including children with disabilities who are homeless or wards of the state, and children with disabilities attending private schools or home schools, regardless of the severity of their disability, and who are in need of special education and related services are identified, located, and evaluated.

B. A free appropriate public education (FAPE) shall be available to all children with disabilities aged three (3) through twenty-one (21) years within the District's jurisdiction, including children
advancing from grade to grade, those who have been suspended or expelled from school in accordance with the applicable IDEA rules and regulations, and any child with a disability the District has placed in or referred to a private school or facility. The District may refer to and contract with approved public or private agencies as necessary to ensure the provision of FAPE for children with disabilities. FAPE for an eligible student with a disability shall extend through conclusion of the instructional year during which the student attains the age of twenty-two (22).

C. A full and individual initial evaluation will be conducted by the public education agency before the initial provision of special education and related services to a child with a disability in accordance with 34 C.F.R. 300.300–300.311 of the IDEA regulations. A reevaluation of each child with a disability will be conducted by the public education agency in accordance with 34 C.F.R. 300.300–300.311 of the IDEA regulations.

D. Procedures for child identification and referral shall meet the requirements of the IDEA and its regulations, A.R.S. Title 15, chapter 7, and its regulations, and the State Board of Education rules R7-2-401.

E. The District shall ensure that an individualized education program (IEP) is developed and implemented for each eligible child served by the District and for each eligible child the District places in or referred to a private school or facility by the District in accordance with 34 C.F.R. 300.320 – 300.325 of the IDEA regulations. An IEP or an individualized family service plan (IFSP) will be in place for each child with a disability prior to the provision of FAPE.

F. To the maximum extent appropriate, opportunities for the least restrictive environment, inclusion in educational exercises with regular program students, and for interaction with the total school environment will be provided to exceptional students, the exception to be only when the student's condition, with supplementary aids and services, make such regular class education unsatisfactory in accordance with 34 C.F.R. 300.114 – 300.117 of the IDEA regulations.

G. The District shall establish, maintain, and implement procedural safeguards that meet the requirements of 34 C.F.R. 300.300 – 300.311 of the IDEA regulations. Parents will be provided with
notices of procedural safeguards in each specified instance and all due process conditions will be satisfied with respect to the provision of a free appropriate public education.

H. The District will ensure that protection of the confidentiality of any personal identifiable data, information, and records collected or maintained by the District will be in accordance with 34 C.F.R. 300.611-300.627.

I. To the extent essential to provide FAPE to children with disabilities aged three (3) through twenty-one (21), extended school year (ESY) services shall be made available and implemented as necessary.

J. Criteria for the graduation of exceptional students, including accomplishment in reading, writing, and mathematics, shall be as specified in the District policy on graduation requirements. Such standards shall be equivalent to or greater than those established by the State Board of Education.

K. Not later than March 1 of each year conduct a review of the reasonable and acceptable ratio of students per teacher for each disability category. The applicable ratios shall be specified in a regulation accompanying the District policy on class size.

L. The discipline of exceptional students, and unevaluated students suspected of having a qualifying disability, is to be conducted in such a manner as to comply with FAPE and requirements of IDEA.

**Discipline**

A child with a disability may be disciplined for a violation of the student code of conduct, including removal from his or her current placement to an appropriate interim alternative education setting, another setting, suspension, or expulsion in accordance with IDEA Regulations 34 C.F.R. 300.530 through 300.536.

**Home School District**

For the purpose of this policy as it relates to a child with a disability,* home school district* means the school district in which the person resides who has legal custody of the child as provided in A.R.S. 15-824. If the child is a ward of the state and a specific person does not have legal custody of the child or is a ward of this state and the child is enrolled in an accommodation school pursuant to A.R.S. 15-913, the home school district is the district the child last attended or, if the child has not previously attended a public school in this state,
the school district within which the child currently resides.

Provide Notice of Procedures and Document Compliance

The Superintendent is authorized and directed to establish procedures for the development and administration of the necessary programs, and to document District compliance with the law and this policy. Such procedures will be made available to staff members and to parents as necessary to enhance compliance.

FUTURE MEETING DATES AND AGENDA ITEMS (A board member may propose future agenda item(s), with limited discussion. The discussion should center around the purpose of placing the item on the next most appropriate agenda for consideration and action as necessary. Ref: Governing Board Policy BEDB)

10:00 p.m. MOTION AND VOTE TO EXTEND OR ADJOURN REGULAR MEETING

ADJOURNMENT

One or more Governing Board members will/may participate by telephonic or video communications.

Names and details, including available support documents, may be obtained during regular business hours at the TUSD Governing Board Office.

Persons with a disability may request a reasonable accommodation, such as a sign language interpreter, by contacting Translations/Interpretations Services at 225-4600. Requests should be made as early as possible to arrange the accommodation.

Upon request, TUSD will provide a certified interpreter to interpret Governing Board meetings whenever possible. Please contact Translations/Interpretations Services at 225-4672 at least 72 hours prior to the event. Every effort will be made to honor requests for interpretation services made with less than 72 hours’ notice.

Previa petición, TUSD proporcionará un intérprete certificado para interpretar la agenda de las reuniones de la Mesa Directiva o de proporcionar los servicios de interpretación en las reuniones de la Mesa Directiva cuando sea posible. Favor de contactar los Servicios de Traducción/Interpretación al teléfono 225-4672 cuando menos 72 horas antes del evento. Se hará todo lo posible para proporcionar los servicios de interpretación realizados con menos de 72 horas de anticipación.

If authorized by a majority vote of the members of the Governing Board, any matter on the open meeting agenda may be discussed in executive session for the purpose of obtaining legal advice thereon, pursuant to A.R.S. 38-431.03 (A)(3). The executive session will be held immediately after the vote and will not be open to the public.

The order of items on this agenda may be modified during the meeting at the discretion of the Board President or upon a motion to amend the order of business which is approved by a 2/3 vote of the Board.
MEETING OF: December 11, 2018

TITLE: Approval of International Baccalaureate Course Changes for Cholla High School.

ITEM #: 3

Information:
Study: 
Action: X

PURPOSE:
To request Governing Board approval of the following International Baccalaureate courses for Cholla High School:

- IB Mathematics: Applications and Interpretation SL 5,6 replacing IB Math Studies SL 5,6.
- IB Mathematics: Applications and Interpretation SL 7,8 replacing IB Math Studies SL 7,8. Note – IB Math Studies SL 7,8 will remain active for SY 2019-20 to allow students in the current program to finish the established IB progression.
- IB Mathematics: Analysis and Approaches SL 5,6 replacing IB Math SL 5,6
- IB Mathematics: Analysis and Approaches SL 7,8 replacing IB Math SL 7,8. Note – IB Math SL 7,8 will remain active for SY 2019-20 to allow students in the current program to finish the established IB progression.

DESCRIPTION AND JUSTIFICATION:
International Baccalaureate (IB) Central has updated four courses in the math program. The majority of the class content remains the same, with additional concepts added to meet the rigor of a college preparatory course. This update also includes name changes. Therefore, we are submitting the courses to the Board for approval.

BOARD POLICY CONSIDERATIONS:

LEGAL CONSIDERATIONS:

Curriculum Review

Final Report to schools

May 2018
DP Mathematics curriculum review

The mathematics curriculum review is currently in its final stages. The new subject websites, which will contain the guide, teacher support materials, specimen papers and a selection of videos to support the teaching and learning will be published on the Programme Resource Centre in February 2019 ready for first teaching in August 2019 and first assessment in May 2021. Subject specific seminars will be available from February 2019 to support teachers’ professional development.

This document should be read in conjunction with the April 2017 Summary report to teachers which gives an overview of the development of the new subjects and the key changes. This document is intended to give teachers content and assessment detail for the new subjects so that long term planning can begin ahead of the launch of the new course materials in 2019.

The guide itself will contain sections giving additional guidance and clarification. The format of the guide is described in the April 2017 Summary report to teachers.

In the syllabus content SL sections marked with an asterisk (for example SL1.2*) are common to both Mathematics: applications and interpretation and to Mathematics: analysis and approaches. This content represents 60 hours of teaching time.
Prior learning

It is expected that most students embarking on a DP mathematics course will have studied mathematics for at least 10 years. There will be a great variety of topics studied, and differing approaches to teaching and learning. Thus, students will have a wide variety of skills and knowledge when they start their DP mathematics course. Most will have some background in arithmetic, algebra, geometry, trigonometry, probability and statistics. Some will be familiar with an inquiry approach, and may have had an opportunity to complete an extended piece of work in mathematics.

It is expected that mathematics students will be familiar with the following topics before they take the examinations, because examination questions assume knowledge of them. Teachers must therefore ensure that any topics listed here that are unknown to their students at the start of the course are included at an early stage. Teachers should also take into account the existing mathematical knowledge of their students to design an appropriate course of study for mathematics. This list covers the knowledge, together with the syllabus content, that is essential for successful completion of the mathematics course.

**Number and algebra**

- Number systems: natural numbers; integers, \( \mathbb{Z} \); rationals, \( \mathbb{Q} \), and irrationals; real numbers, \( \mathbb{R} \)
- SI (Système International) units for mass, time, length, and their derived units, eg. area, volume and speed
- Rounding, decimal approximations and significant figures, including appreciation of errors
- Definition and elementary treatment of absolute value (modulus), \( |a| \)
- Use of addition, subtraction, multiplication and division using integers, decimals and fractions, including order of operations
- Prime numbers, factors (divisors) and multiples
- Greatest common factor (divisor) and least common multiples (HL only)
- Simple applications of ratio, percentage and proportion
- Manipulation of algebraic expressions, including factorization and expansion
- Rearranging formulae
- Calculating the numerical value of expressions by substitution
- Evaluating exponential expressions with simple positive exponents
- Evaluating exponential expressions with rational exponents (HL only)
- Use of inequalities, \( <, \leq, >, \geq \), intervals on the real number line
- Simplification of simple expressions involving roots (surds or radicals)
- Rationalizing the denominator (HL only)
- Expression of numbers in the form \( a \times 10^k, 1 \leq a < 10, k \in \mathbb{Z} \)
- Familiarity with commonly accepted world currencies
- Solution of linear equations and inequalities
- Solution of quadratic equations and inequalities with rational coefficients (HL only)
- Solving systems of linear equations in two variables
- Concept and basic notation of sets. Operations on sets: union and intersection
- Addition and subtraction of algebraic fractions (HL only).

**Functions**
- Graphing linear and quadratic functions using technology
- Mappings of the elements of one set to another. Illustration by means of sets of ordered pairs, tables, diagrams and graphs

**Geometry and trigonometry**
- Pythagoras' theorem and its converse
- Mid-point of a line segment and the distance between two points in the Cartesian plane
- Geometric concepts: point, line, plane, angle
- Angle measurement in degrees, compass directions
- Three-figure bearings
- The triangle sum theorem
- Right-angle trigonometry, including simple applications for solving triangles
- Simple geometric transformations: translation, reflection, rotation, enlargement
- The circle, its centre and radius, area and circumference. The terms diameter, arc, sector, chord, tangent and segment
- Perimeter and area of plane figures. Properties of triangles and quadrilaterals, including parallelograms, rhombuses, rectangles, squares, kites and trapezoids; compound shapes
- Familiarity with three-dimensional shapes (prisms, pyramids, spheres, cylinders and cones)
- Volumes and surface areas of cuboids, prisms, cylinders, and compound three-dimensional shapes

**Statistics and probability**
- The collection of data and its representation in bar charts, pie charts, pictograms, and line graphs
- Obtaining simple statistics from discrete data, including mean, median, mode, range
- Calculating probabilities of simple events
- Venn diagrams for sorting data
- Tree diagrams

**Calculus**
- Speed = \( \frac{\text{distance}}{\text{time}} \)

Investigative, problem-solving and modelling skills development leading to an individual exploration. The exploration is a piece of written work that involves investigating an area of mathematics.

Mathematics: applications and interpretation
Syllabus content

Topic 1: Number and algebra
SL content - suggested teaching hours: 16
SL 1.1* Operations with numbers in the form \( a \cdot 10^k \) where \( 1 \leq a < 10 \) and \( k \) is an integer.
SL 1.2* Arithmetic sequences and series; use of the formulae for the \( n \)th term and the sum of the first \( n \) terms of the sequence; use of sigma notation for sums of arithmetic sequences; applications; analysis, interpretation and prediction where a model is not perfectly arithmetic in real life.
SL 1.3* Geometric sequences and series; use of the formulae for the \( n \)th term and the sum of the first \( n \) terms of the sequence; use of sigma notation for the sums of geometric sequences; applications such as spread of disease, salary increase and decrease, population growth.
SL 1.4* Financial applications of geometric sequences and series including compound interest, annual depreciation.
SL 1.5* Laws of exponents with integer exponents. Introduction to logarithms with base 10 and e; numerical evaluation of logarithms using technology.

SL 1.6 Approximation; decimal places, significant figures; upper and lower bounds of rounded numbers; percentage errors; estimation.

SL 1.7 Amortization and annuities using technology.

SL 1.8 Use of technology to solve systems of linear equations in up to 3 variables, and polynomial equations

AHL content - suggested teaching hours: 13

AHL 1.9 Laws of logarithms, with base equal to 10 or e.

AHL 1.10 Simplifying expressions, both numerically and algebraically, involving rational exponents.

AHL 1.11 The sum of infinite geometric sequences.

AHL 1.12 Complex numbers: the number \( i \) such that \( i^2 = -1 \); Cartesian form: \( z = a + bi \); the terms real part, imaginary part, conjugate, modulus and argument; calculate sums, differences, products, quotients, by hand and with technology; calculating powers of complex numbers, in Cartesian form, with technology; the complex plane; using and drawing Argand diagrams; complex numbers as solutions to quadratic equations of the form \( ax^2 + bx + c = 0, \ a \neq 0 \), with real coefficients where \( b^2 - 4ac < 0 \).

AHL 1.13 Modulus–argument (polar) form, \( z = r(\cos \theta + i\sin \theta) = r \text{cis} \theta \) and exponential form, \( z = re^{i\theta} \); conversion between Cartesian, polar and exponential forms, by hand and with technology; calculate products, quotients and integer powers in polar or exponential/Euler forms; adding sinusoidal functions with the same frequencies but different phase shifts; for example, two AC voltages sources are connected in a circuit. If \( V_1 = 10 \cos(40t) \) and \( V_2 = 20 \cos(40t + 10) \) find an expression for the total voltage in the form \( V = A \cos(40t + B) \); geometric interpretation of complex numbers.

AHL 1.14 Definition of a matrix: the terms element, row, column and order for \( m \times n \) matrices; algebra of matrices: equality; addition; subtraction; multiplication by a scalar for \( m \times n \) matrices; multiplication of matrices; properties of matrix multiplication: associativity, distributivity and non-commutativity; identity and zero matrices; determinants and inverses of \( n \times n \) matrices with technology, and by hand for \( 2 \times 2 \) matrices; system of linear equations written in the form \( Ax = b \); solution of the systems of equations using inverse matrix.

AHL 1.15 Eigenvalues and eigenvectors; characteristic polynomial of \( 2 \times 2 \) matrices; diagonalization of \( 2 \times 2 \) matrices restricted to the case where there are distinct real eigenvalues; applications to powers of \( 2 \times 2 \) matrices for example population movement, predator/prey models.
Topic 2: Functions
SL content - Suggested teaching hours: 31
SL 2.1* The different forms of the equation of a straight line; gradient; intercepts; parallel and perpendicular lines.
SL 2.2* Concept of a function, domain, range and graph; function notation; the concept of a function as a mathematical model; informal concept that an inverse function where inverse function as a reflection in the line $y = x$; the notation $f^{-1}(x)$.
SL 2.3* The graph of a function; its equation $y = f(x)$; creating a sketch from information given or a context, including transferring a graph from screen to paper; using technology to graph functions including their sums and differences.
SL 2.4* Determine key features of graphs; finding the point of intersection of two curves or lines using technology.
SL 2.5 Modelling with the following functions:
- Linear models $f(x) = mx + c$. Including piecewise linear models
- Quadratic models; identification of axis of symmetry, vertex, zeros and roots, intercepts on the $x$-axis and $y$-axis.
- Exponential growth and decay models $f(x) = ka^x + c$, $f(x) = ka^{-x} + c$ (for $a > 0$), $f(x) = ke^{x} + c$; equation of a horizontal asymptote.
- Direct/inverse variation: $f(x) = ax^n$, $n \in \mathbb{Z}$, the $y$-axis as a vertical asymptote when $n < 0$.
- Cubic models $f(x) = ax^3 + bx^2 + cx + d$
- Sinusoidal models of the form $f(x) = a \sin(bx) + d$, $f(x) = a \cos(bx) + d$. At SL students will not be expected to translate between $\sin x$ and $\cos x$, and will only be required to predict or find amplitude ($a$), period $\left(\frac{360}{b}\right)$, or equation of the principal axis ($y = d$).

SL 2.6 Modelling skills: Use the modelling process described in the “mathematical modelling” section of the guide to create, fit and use the theoretical models in section SL2.5 and their graphs; develop and fit the model given a context, recognize and choose an appropriate model and possible parameters; determine a reasonable domain for a model.

Find the parameters of a model: by setting up and solving equations simultaneously (using technology), by consideration of initial conditions or by substitution of points into a given function.

Test and reflect upon the model: comment on the appropriateness and reasonableness of a model.

Justify the choice of a particular model: based on the shape of the data, properties of the curve and/or on the context of the situation.

Use the model: reading, interpreting and making predictions based on the model.
AHL content - suggested teaching hours: 11
AHL 2.7 Composite functions in context; the notation \((f \circ g)(x) = f(g(x))\); finding an inverse function including domain restriction.
AHL 2.8 Transformations of graphs; translations of the form \(y = f(x) + b\) and \(y = f(x - a)\); reflections in the \(x\) and \(y\) axes; vertical stretch with scale factor \(p\), horizontal stretch with scale factor \(\frac{1}{q}\); composite transformations.
AHL 2.9 In addition to the models covered in the SL content the AHL content extends this to include modelling with the following functions: exponential models to calculate half-life; natural logarithmic models of the form \(f(x) = a + b \ln x\), sinusoidal models where \(f(x) = a \sin(b(x - c)) + d\), logistic models of the form \(f(x) = \frac{L}{1 + Ce^{-kx}}\); \(L, k, C > 0\), examples of logistic modelling include population on an island, bacteria in a petri dish or the increase in height of a person or seedling; piecewise models.
AHL 2.10 Scaling very large or small numbers using logarithms; linearizing data using logarithms to determine if the data has an exponential or a power relationship using best-fit straight lines to determine parameters; interpretation of log-log and semi-log graphs.

Topic 3: Geometry and trigonometry
SL content - Suggested teaching hours: 18
SL 3.1* The distance between two points in three-dimensional space, and their midpoint; volume and surface area of three-dimensional solids including right-pyramid, right cone, sphere, hemisphere and combinations of these solids; the size of an angle between two intersecting lines or between a line and a plane.
SL 3.2* Use of sine, cosine and tangent ratios to find the sides and angles of right-angled triangles; the sine rule, not including the ambiguous case; the cosine rule; area of a triangle as \(\frac{1}{2}ab \sin C\).
SL 3.3* Applications of right and non-right angled trigonometry, including Pythagoras' theorem. Contexts may include use of bearings; angles of elevation and depression; construction of labelled diagrams from written statements.
SL 3.4 The circle: length of an arc; area of a sector.
SL 3.5 Equations of perpendicular bisectors.
SL 3.6 Voronoi diagrams; sites, vertices, edge, cells; addition of a site to an existing Voronoi diagram; nearest neighbor interpolation; applications including the "toxic waste dump" problem.

AHL Content - Suggested teaching hours: 28
AHL 3.7 The definition of a radian and conversion between degrees and radians; using radians to calculate area of sector, length of arc.
AHL 3.8 The definitions of $\cos \theta$ and $\sin \theta$ in terms of the unit circle; the Pythagorean identity $\cos^2 \theta + \sin^2 \theta = 1$; definition of $\tan \theta$ as $\frac{\sin \theta}{\cos \theta}$; extension of the sine rule to the ambiguous case; graphical methods of solving trigonometric equations in a finite interval.

AHL 3.9 Geometric transformations of points in two dimensions using matrices: reflections, horizontal and vertical stretches, enlargements, translations and rotations; compositions of these transformations; geometric interpretation of the determinant of a transformation matrix.

AHL 3.10 Concept of a vector and a scalar; representation of vectors using directed line segments; unit vectors; base vectors $i, j, k$; components of a vector; column representation; the zero vector $0$, the vector $-v$; position vectors; rescaling and normalizing vectors, for example, finding the velocity of a particle with speed $7 \text{ m s}^{-1}$ in the direction $3i + 4j$.

AHL 3.11 Vector equation of a line in two and three dimensions $\mathbf{r} = \mathbf{a} + \lambda \mathbf{b}$.

AHL 3.12 Vector applications to kinematics; finding positions, intersections, describing paths, finding times and distances when two objects are closest to each other; modelling linear motion with constant velocity in two and three dimensions.

Motion with variable velocity in two dimensions, for example:

$$\begin{bmatrix} v_x \\ v_y \end{bmatrix} = \begin{bmatrix} 7 \\ 6 - 4t \end{bmatrix}$$

AHL 3.13 Definition and calculation of the scalar product of two vectors; the angle between two vectors; the acute angle between two lines; definition and calculation of the vector product of two vectors; geometric interpretation of $|\mathbf{v} \times \mathbf{w}|$; components of vectors.

AHL 3.14 Graph theory: Graphs, vertices, edges, adjacent vertices, adjacent edges, degree of a vertex; simple graphs; complete graphs; weighted graphs; directed graphs; indegree and outdegree of the vertices of a directed graph; subgraphs; trees.

AHL 3.15 Adjacency matrices; walks; number of $k$-length walks (or less than $k$-length walks) between two vertices; weighted adjacency tables; construction of the transition matrix for strongly-connected, undirected or directed graphs.

AHL 3.16 Tree and cycle algorithms with undirected graphs; walks, trails, paths, circuits, cycles; Eulerian trails and circuits; Hamiltonian paths and cycles; minimum spanning tree (MST) graph algorithms; Kruskal’s and Prim’s algorithms for finding minimum spanning trees; use of matrix method for Prim’s algorithm; Chinese postman problem; Travelling salesman problem; nearest neighbour algorithm for determining an upper bound for the travelling salesman problem; deleted vertex algorithm for determining a lower bound for the travelling salesman problem.

Topic 4: Probability and statistics

SL content - suggested teaching hours: 36

SL 4.1 Concepts of population, sample, random sample, discrete and continuous data; reliability of data sources and bias in sampling; interpretation of outliers (where outlier defined as a data item which is more than $1.5 \times$ interquartile range (IQR) from the nearest
quartile); sampling techniques: simple random, convenience, systematic, quota and stratified.

SL 4.2* Presentation of data (discrete and continuous); frequency histograms with equal class intervals; cumulative frequency; cumulative frequency graphs; use to find median, quartiles, percentiles, range and interquartile range (IQR); production and understanding of box and whisker diagrams; use of box and whisker diagrams to compare two distributions, using symmetry, median, interquartile range or range; determining whether data may be normally distributed by consideration of the symmetry of the box and whiskers.

SL 4.3* Measures of central tendency (mean, median and mode); estimation of mean from grouped data; modal class; measures of dispersion (interquartile range, standard deviation and variance); effect of constant changes on the original data; quartiles of discrete data.

SL 4.4* Linear correlation of bivariate data; Pearson's product-moment correlation coefficient, \( r \); scatter diagrams; lines of best fit, by eye, passing through the mean point; equation of the regression line of \( y \) on \( x \); use of the equation of the regression line for prediction purposes; interpret the meaning of the parameters, \( a \) and \( b \), in a linear regression \( y = ax + b \).

SL 4.5* Concepts of trial, outcome, equally likely outcomes, relative frequency, sample space \((U)\) and event; the probability of an event \( A \), \( P(A) = \frac{n(A)}{n(U)} \); the complementary events \( A \) and \( A' \) (not \( A \)); expected number of occurrences.

SL 4.6* Use of Venn diagrams, tree diagrams, sample space diagrams and tables of outcomes to calculate probabilities; combined events \( P(A \cup B) = P(A) + P(B) - P(A \cap B) \); mutually exclusive events \( P(A \cap B) = 0 \); conditional probability \( P(A|B) = \frac{P(A \cap B)}{P(B)} \); independent events \( P(A \cap B) = P(A)P(B) \). Problems can be solved with the aid of a Venn diagram, tree diagram, sample space diagram or table of outcomes without explicit use of formulae.

SL 4.7* Concept of discrete random variables and their probability distributions; expected value (mean), \( E(X) \) for discrete data; applications.

SL 4.8* Binomial distribution; situations where the binomial distribution is an appropriate model; mean and variance of the binomial distribution.

SL 4.9* The normal distribution and curve; properties of the normal distribution; diagrammatic representation; normal probability calculations; inverse normal calculations.

SL 4.10 Spearman's rank correlation coefficient, \( r_s \); awareness of the appropriateness and limitations of Pearson's product moment correlation coefficient and Spearman's rank correlation coefficient, and the effect of outliers on each.

SL 4.11 Formulation of null and alternative hypotheses, \( H_0 \) and \( H_1 \); significance levels; \( p \)-values; expected and observed frequencies; the \( \chi^2 \) test for independence: contingency tables, degrees of freedom, critical value; the \( \chi^2 \) goodness of fit test; the t-test (at SL, samples will be unpaired and population variance unknown); use of the \( p \)-value to compare the means of two populations; using one-tailed and two-tailed tests.
AHL content - suggested teaching hours: 16

AHL 4.12 Design of valid data collection methods, such as surveys and questionnaires; selecting relevant variables from many variables; choosing relevant and appropriate data to analyse; categorizing numerical data in a $\chi^2$ table and justifying the choice of categorization; choosing an appropriate number of degrees of freedom when estimating parameters from data when carrying out the $\chi^2$ goodness of fit test; definition of reliability and validity; reliability tests: test-retest, parallel forms; validity test types: content, criterion-related.

AHL 4.13 Non-linear regression; evaluation of least squares regression curves using technology; sum of squared residuals ($SS_{res}$) as a measure of fit for a model; the coefficient of determination ($R^2$); evaluation of $R^2$ using technology.

AHL 4.14 Linear transformation of a single random variable; expected value of linear combinations of $n$ random variables; variance of linear combinations of $n$ independent random variables; $\bar{x}$ as an unbiased estimate of $\mu$; $s^2_{x-1}$ as an unbiased estimate of $\sigma^2$.

AHL 4.15 A linear combination of $n$ independent normal random variables is normally distributed. In particular, $X \sim N(\mu, \sigma^2) \Rightarrow \bar{X} \sim N\left(\mu, \frac{\sigma^2}{n}\right)$; the central limit theorem.

AHL 4.16 Confidence intervals for the mean of a normal population. Use of the normal distribution when $\sigma$ is known and the $t$-distribution when $\sigma$ is unknown, regardless of sample size.

AHL 4.17 Poisson distribution, its mean and variance; sum of two independent Poisson distributions has a Poisson distribution.

AHL 4.18 Critical values and critical regions; test for population mean for normal distribution; test for proportion using binomial distribution; test for population mean using Poisson distribution; use of technology to test the hypothesis that the population product moment correlation coefficient ($\rho$) is 0 for bivariate normal distributions; type I and II errors including calculations of their probabilities, applied to normal (with known variance), Poisson and binomial distributions.

AHL 4.19 Transition matrices; powers of transition matrices; regular Markov chains; initial state probability matrices; calculation of steady state and long-term probabilities by repeated multiplication of the transition matrix or by solving a system of linear equations.

Topic 5: Calculus

SL content - suggested teaching hours: 19

SL 5.1* Introduction to the concept of a limit; derivative interpreted as gradient function and as rate of change.

SL 5.2* Increasing and decreasing functions: graphical interpretation of $f'(x) > 0, f'(x) = 0, f'(x) < 0$
SL 5.3 Derivative of functions of the form \( f(x) = ax^n + bx^{n-1} + \ldots, \ n \in \mathbb{Z} \)

SL 5.4 Tangents and normals at a given point, and their equations.

SL 5.5 Introduction to integration as anti-differentiation of functions of the form
\[ f(x) = ax^n + bx^{n-1} + \ldots, \quad \text{where} \quad n \in \mathbb{Z}, \ n \neq -1 ; \]
definite integrals using technology; areas between a curve \( y = f(x) \) and the x-axis, where \( f(x) > 0 \); anti-differentiation with a boundary condition to determine the constant term.

SL 5.6 Values of \( x \) where the gradient of a curve is zero; solution of \( f''(x) = 0 \); local maximum and minimum points.

SL 5.7 Optimization problems in context. Examples: Maximizing profit, minimizing cost, maximizing volume for a given surface area. In SL examinations, questions on kinematics will not be set.

SL 5.8 Approximating areas using the trapezoidal rule.

AHL content - suggested teaching hours: 22

AHL 5.9 The derivatives of \( \sin x, \cos x, \tan x, e^x, \ln x, x^n \) where \( n \in \mathbb{Q} \); the chain rule, product rule and quotient rules; related rates of change.

AHL 5.10 The second derivative; use of second derivative test to distinguish between a maximum and a minimum point.

AHL 5.11 Definite and indefinite integration of \( x^n \) where \( n \in \mathbb{Q} \), including \( n = -1, \sin x, \cos x, \frac{1}{\cos^2 x} \) and \( e^x \); integration by inspection, or substitution of the form \( \int f(g(x))g'(x)dx \).

AHL 5.12 Area of the region enclosed by a curve and the x-axis or y-axis in a given interval; volumes of revolution about the x-axis or y-axis.

AHL 5.13 Kinematic problems involving displacement \( s \), velocity \( v \) and acceleration \( a \).

AHL 5.14 Setting up a model/differential equation from a context; solving by separation of variables.

AHL 5.15 Slope fields and their diagrams.

AHL 5.16 Euler's method for finding the approximate solution to first order differential equations. Numerical solution of \( \frac{dy}{dx} = f(x, y) \); numerical solution of the coupled system
\[ \frac{dx}{dt} = f_1(x, y, t) \text{ and } \frac{dy}{dt} = f_2(x, y, t) \; ; \]
contexts including predator-prey models.

AHL 5.17 Phase portraits for the solutions of coupled differential equations of the form
\[ \frac{dx}{dt} = ax + by \quad \text{and} \quad \frac{dy}{dt} = cx + dy \; ; \]
qualitative analysis of future paths for distinct, real, complex and imaginary eigenvalues; sketching trajectories and using phase portraits to identify key features such as equilibrium points, stable populations and saddle points.

AHL 5.18 Solutions of \( \frac{d^2x}{dt^2} = f(x, \frac{dx}{dt}, t) \) by Euler's method.

Mathematics: analysis and approaches

Syllabus content

**Topic 1: Number and algebra**

SL content - Suggested teaching hours: 19

SL 1.1* Operations with numbers in the form $a \cdot 10^k$ where $1 \leq a < 10$ and $k$ is an integer.

SL 1.2* Arithmetic sequences and series; use of the formulae for the $n$th term and the sum of the first $n$ terms of the sequence; use of sigma notation for sums of arithmetic sequences; applications; analysis, interpretation and prediction where a model is not perfectly arithmetic in real life.

SL 1.3* Geometric sequences and series; use of the formulae for the $n$th term and the sum of the first $n$ terms of the sequence; use of sigma notation for the sums of geometric sequences; applications such as spread of disease, salary increase and decrease, population growth.
SL 1.4* Financial applications of geometric sequences and series including compound interest, annual depreciation.
SL 1.5* Laws of exponents with integer exponents. Introduction to logarithms with base 10 and e; numerical evaluation of logarithms using technology.
SL 1.6 Simple deductive proof, numerical and algebraic; how to lay out a left-hand side to right-hand side proof; the symbols and notation for equality and identity.
SL 1.7 Laws of exponents with rational exponents; laws of logarithms; change of base of a logarithm; solving exponential equations, including using logarithms.
SL 1.8 Sum of infinite convergent geometric sequences.
SL 1.9 The binomial theorem; expansion of \((a+b)^n\), \(n \in \mathbb{N}\); use of Pascal’s triangle and \(^nC_r\).

AHL content - Suggested teaching hours: 20
AHL 1.10 Counting principles, including permutations and combinations; extension of the binomial theorem to fractional and negative indices, \(a + b)^n\), \(n \in \mathbb{Q}\).
AHL 1.11 Partial fractions; maximum of two distinct linear terms in the denominator, with degree of numerator less than the degree of the denominator.
AHL 1.12 Complex numbers: the number \(i\), where \(i^2 = -1\); Cartesian form \(z = a + bi\); the terms real part, imaginary part, conjugate, modulus and argument; the complex plane.
AHL 1.13 Modulus-argument (polar) form: \(z = r \cos \theta + ir \sin \theta\); Euler form: \(z = re^{i\theta}\); sums, products and quotients in Cartesian, polar or Euler forms and their geometric interpretation.
AHL 1.14 Complex conjugate roots of quadratic and polynomial equations with real coefficients; De Moivre’s theorem and its extension to rational exponents; powers and roots of complex numbers.
AHL 1.15 Proof by mathematical induction; proof by contradiction; use of a counterexample to show that a statement is not always true.
AHL 1.16 Solutions of systems of linear equations (a maximum of three equations in three unknowns), including cases where there is a unique solution, an infinite number of solutions or no solution(s).

Topic 2: Functions
SL content - suggested teaching hours: 21
SL 2.1* The different forms of the equation of a straight line; gradient; intercepts; parallel and perpendicular lines.
SL 2.2* Concept of a function, domain, range and graph; function notation; the concept of a function as a mathematical model; informal concept that an inverse function where inverse function as a reflection in the line \(y = x\); the notation \(f^{-1}(x)\).
SL 2.3* The graph of a function; its equation \(y = f(x)\); creating a sketch from information given or a context, including transferring a graph from screen to paper; using technology to graph functions including their sums and differences.
SL 2.4* Determine key features of graphs; finding the point of intersection of two curves or lines using technology.

SL 2.5 Composite functions; identity function; finding the inverse function $f^{-1}(x)$.

SL 2.6 The quadratic function $f(x) = ax^2 + bx + c$: its graph, $y$-intercept $(0, c)$; axis of symmetry; the form $f(x) = a(x - p)(x - q)$, $x$-intercepts $(p, 0)$ and $(q, 0)$; the form $f(x) = a(x - h)^2 + k$, vertex $(h, k)$.

SL 2.7 Solution of quadratic equations and inequalities; using factorization, completing the square (vertex form), and the quadratic formula; the discriminant $D = b^2 - 4ac$ and the nature of the roots, that is, two distinct real roots, two equal real roots, no real roots.

SL 2.8 The reciprocal function $f(x) = \frac{1}{x}$, $x \neq 0$: its graph and self-inverse nature; rational functions of the form $f(x) = \frac{ax + b}{cx + d}$ and their graphs; equations of vertical and horizontal asymptotes.

SL 2.9 Exponential functions and their graphs ($f(x) = a^x$, $a > 0$, $f(x) = e^x$); logarithmic functions and their graphs ($f(x) = \log_a x$, $x > 0$, $f(x) = \ln x$, $x > 0$).

SL 2.10 Solving equations, both graphically and analytically; use of technology to solve a variety of equations, including those where there is no appropriate analytic approach; applications of graphing skills and solving equations that relate to real-life situations.

SL 2.11 Transformations of graphs; translations: $y = f(x) + b$; $y = f(x - a)$; reflections (in both axes): $y = -f(x)$; $y = f(-x)$; vertical stretch with scale factor $p$: $y = pf(x)$; horizontal stretch with scale factor $\frac{1}{q}$: $y = f(qx)$; composite transformations.

AHL content – suggested teaching hours: 11

AHL 2.12 Polynomial functions, their graphs and equations; zeros, roots and factors; the factor and remainder theorems; sum and product of the roots of polynomial equations.

AHL 2.13 Rational functions of the form $f(x) = \frac{ax + b}{cx^2 + dx + e}$ and $f(x) = \frac{ax^2 + bx + c}{dx + e}$.

AHL 2.14 Odd and even functions; finding the inverse function $f^{-1}(x)$, including domain restriction; self-inverse functions.

AHL 2.15 Solutions of $g(x)^3$, $f(x)$, both graphically and analytically.

AHL 2.16 The graphs of the functions, $y = |f(x)|$ and $y = f(|x|)$.

$y = \frac{1}{f(x)}$, $y = f(ax + b)$, $y = [f(x)]^2$: solution of modulus equations and inequalities.

Topic 3: Geometry and trigonometry

SL content – suggested teaching hours: 25

SL 3.1* The distance between two points in three-dimensional space, and their midpoint; volume and surface area of three-dimensional solids including right-pyramid, right cone,
sphere, hemisphere and combinations of these solids; the size of an angle between two intersecting lines or between a line and a plane.

SL 3.2* Use of sine, cosine and tangent ratios to find the sides and angles of right-angled triangles; the sine rule, not including the ambiguous case; the cosine rule; area of a triangle as \( \frac{1}{2}ab\sin C \).

SL 3.3* Applications of right and non-right angled trigonometry, including Pythagoras’ theorem. Contexts may include use of bearings; angles of elevation and depression; construction of labelled diagrams from written statements.

SL 3.4 The circle: radian measure of angles; length of an arc; area of a sector.

SL 3.5 Definition of \( \cos \theta \), \( \sin \theta \) in terms of the unit circle; definition of \( \tan \theta \) as \( \frac{\sin \theta}{\cos \theta} \); exact values of trigonometric ratios of \( \frac{\pi}{6}, \frac{\pi}{4}, \frac{\pi}{3}, \frac{\pi}{2} \) and their multiples; extension of the sine rule to the ambiguous case.

SL 3.6 The Pythagorean identity \( \cos^2 \theta + \sin^2 \theta = 1 \); double angle identities for sine and cosine; the relationship between trigonometric ratios.

SL 3.7 The circular functions \( \sin x \), \( \cos x \) and \( \tan x \); amplitude, their periodic nature, and their graphs; composite functions of the form \( f(x) = a\sin(b(x+c)) + d \); transformations; real-life contexts.

SL 3.8 Solving trigonometric equations in a finite interval, both graphically and analytically; equations leading to quadratic equations in \( \sin x \), \( \cos x \) or \( \tan x \).

AHL content – suggested teaching hours: 26

AHL 3.9 Definition of the reciprocal trigonometrical ratios \( \sec \theta \), \( \csc \theta \) and \( \cot \theta \);

Pythagorean identities: \( 1 + \tan^2 \theta = \sec^2 \theta \); \( 1 + \cot^2 \theta = \csc^2 \theta \); the inverse functions \( f(x) = \arcsin x \), \( f(x) = \arccos x \), \( f(x) = \arctan x \); their domains and ranges; their graphs.

AHL 3.10 Compound angle identities; double angle identity for \( \tan \).

AHL 3.11 Relationships between trigonometric functions and the symmetry properties of their graphs.

AHL 3.12 Concept of a vector; position vectors; displacement vectors; representation of vectors using directed line segments; base vectors \( \mathbf{i}, \mathbf{j}, \mathbf{k} \); components of a vector; algebraic and geometric approaches to the following: the sum and difference of two vectors, the zero vector \( \mathbf{0} \), the vector \( -\mathbf{v} \), multiplication by a scalar, \( k\mathbf{v} \), parallel vectors, magnitude of a vector, \( ||\mathbf{v}|| \); unit vectors, \( \frac{\mathbf{v}}{||\mathbf{v}||} \) position vectors \( \overrightarrow{OA} = \mathbf{a} \), \( \overrightarrow{OB} = \mathbf{b} \), displacement vector \( \overrightarrow{AB} = \mathbf{b} - \mathbf{a} \); proofs of geometrical properties using vectors.
The definition of the scalar product of two vectors. Applications of the properties of the scalar product; the angle between two vectors; perpendicular vectors; parallel vectors.

Vector equation of a line in two and three dimensions: \( \mathbf{r} = \mathbf{a} + \lambda \mathbf{b} \); parametric form:
\[
\begin{align*}
x &= x_0 + \lambda l, \\
y &= y_0 + \lambda m, \\
z &= z_0 + \lambda n
\end{align*}
\]
Cartesian form:
\[
\frac{x - x_0}{l} = \frac{y - y_0}{m} = \frac{z - z_0}{n};
\]
the angle between two lines; simple applications to kinematics.

Coincident, parallel, intersecting and skew lines, distinguishing between these cases; points of intersection.

The definition of the vector product of two vectors; properties of the vector product; geometric interpretation of \( \mathbf{v} \times \mathbf{w} \).

Vector equations of a plane: \( \mathbf{r} = \mathbf{a} + \mathbf{tb} + \mathbf{mc} \); \( \mathbf{r} \cdot \mathbf{n} = \mathbf{a} \cdot \mathbf{n} \), where \( \mathbf{n} \) is a normal to the plane and \( \mathbf{a} \) is the position vector of a point on the plane; Cartesian equation of a plane \( ax + by + cz = d \).

Intersections of: a line with a plane, two planes, three planes; angle between: a line and a plane, two planes.

---

**Topic 4: Statistics and probability**

SL content – suggested teaching hours: 27

**SL 4.1** Concepts of population, sample, random sample, discrete and continuous data; reliability of data sources and bias in sampling; interpretation of outliers (where outlier defined as a data item which is more than 1.5 \( \times \) interquartile range (IQR) from the nearest quartile); sampling techniques: simple random, convenience, systematic, quota and stratified.

**SL 4.2** Presentation of data (discrete and continuous); frequency histograms with equal class intervals; cumulative frequency; cumulative frequency graphs; use to find median, quartiles, percentiles, range and interquartile range (IQR); production and understanding of box and whisker diagrams; use of box and whisker diagrams to compare two distributions, using symmetry, median, interquartile range or range; determining whether data may be normally distributed by consideration of the symmetry of the box and whiskers.

**SL 4.3** Measures of central tendency (mean, median and mode); estimation of mean from grouped data; modal class; measures of dispersion (interquartile range, standard deviation and variance); effect of constant changes on the original data; quartiles of discrete data.

**SL 4.4** Linear correlation of bivariate data; Pearson’s product-moment correlation coefficient, \( r \); scatter diagrams; lines of best fit, by eye, passing through the mean point; equation of the regression line of \( y \) on \( x \); use of the equation of the regression line for prediction purposes; interpret the meaning of the parameters, \( a \) and \( b \), in a linear regression \( y = ax + b \).
SL 4.5* Concepts of trial, outcome, equally likely outcomes, relative frequency, sample space \((U)\) and event; the probability of an event \(A\), \(P(A) = \frac{n(A)}{n(U)}\); the complementary events \(A\) and \(A'\) (not \(A\)); expected number of occurrences.

SL 4.6* Use of Venn diagrams, tree diagrams, sample space diagrams and tables of outcomes to calculate probabilities; combined events \(P(A \cup B) = P(A) + P(B) - P(A \cap B)\); mutually exclusive events \(P(A \cap B) = 0\); conditional probability \(P(A|B) = \frac{P(A \cap B)}{P(B)}\); independent events \(P(A \cap B) = P(A)P(B)\). Problems can be solved with the aid of a Venn diagram, tree diagram, sample space diagram or table of outcomes without explicit use of formulae.

SL 4.7* Concept of discrete random variables and their probability distributions; expected value \((\text{mean})\), \(E(X)\) for discrete data; applications.

SL 4.8* Binomial distribution; situations where the binomial distribution is an appropriate model; mean and variance of the binomial distribution.

SL 4.9* The normal distribution and curve; properties of the normal distribution; diagrammatic representation; normal probability calculations; inverse normal calculations.

SL 4.10 Equation of the regression line of \(x\) on \(y\); use of the equation for prediction purposes.

SL 4.11 Formal definition and use of the formulae: \(P(A|B) = \frac{P(A \cap B)}{P(B)}\) for conditional probabilities, and \(P(A|B) = P(A) = P(A|B')\) for independent events; testing for independence.

SL 4.12 Standardization of normal variables \((z\)-values\); inverse normal calculations where mean and standard deviation are unknown.

AHL content - suggested teaching hours: 6

AHL 4.13 Use of Bayes’ theorem for a maximum of three events.

AHL 4.14 Variance of a discrete random variable; continuous random variables and their probability density functions, including piecewise functions; mode and median of continuous random variables; mean, variance and standard deviation of both discrete and continuous random variables; use of the notation \(E(X), E(X^2), \text{Var}(X)\), where \(\text{Var}(X) = E(X^2) - [E(X)]^2\) and related formulae; the effect of linear transformations of \(X\).

**Topic 5: Calculus**

SL content - suggested teaching hours: 28

SL 5.1* Introduction to the concept of a limit; derivative interpreted as gradient function and as rate of change.

SL 5.2* Increasing and decreasing functions: graphical interpretation of \(f'(x) > 0\), \(f'(x) = 0\), \(f'(x) < 0\)

SL 5.3* Derivative of functions of the form \(f(x) = ax^n + bx^{n-1} + \ldots\), \(n \in \mathbb{Z}\).

SL 5.4* Tangents and normals at a given point, and their equations.
SL 5.5* Introduction to integration as anti-differentiation of functions of the form
\[ f(x) = ax^n + bx^{n-1} + \ldots, \]
where \( n \in \mathbb{Z}, n \neq -1 \); definite integrals using technology; areas
between a curve \( y = f(x) \) and the x-axis, where \( f'(x) > 0 \); anti-differentiation with a
boundary condition to determine the constant term.

SL 5.6 Derivative of \( x^n \), \( \sin x \), \( \cos x \), \( e^x \) and \( \ln x \); differentiation of a sum and a
multiple of these functions; the chain rule for composite functions; the product and
quotient rules.

SL 5.7 The second derivative; graphical behaviour of functions, including the relationship
between the graphs of \( f \), \( f' \) and \( f'' \).

SL 5.8 Local maximum and minimum points; testing for maximum and minimum;
omimization; points of inflexion with zero and non-zero gradients.

SL 5.9 Kinematic problems involving displacement \( s \), velocity \( v \), acceleration \( a \) and total
distance travelled.

SL 5.10 Indefinite integral of \( x^n \), \( \sin x \), \( \cos x \), \( \frac{1}{x} \) and \( e^x \); the composites of any of
these with the linear function \( ax + b \); integration by inspection (reverse chain rule) or by
substitution for expressions of the form: \( \int k g(x)f(g(x))dx \).

SL 5.11 Definite integrals, including analytical approach; areas between a curve \( y = f(x) \)
and the x-axis, where \( f'(x) \) can be positive or negative, without the use of technology;
areas between curves

AHL content - suggested teaching hours: 27

AHL 5.12 Informal understanding of continuity and differentiability of a function at a point;
understanding of limits (convergence and divergence); definition of derivative from first
principles \( f'(x) = \lim_{h \to 0} \frac{f(x+h)-f(x)}{h} \); higher derivatives.

AHL 5.13 The evaluation of limits of the form \( \lim_{x \to \infty} \frac{f(x)}{g(x)} \) and \( \lim_{x \to 0} \frac{f(x)}{g(x)} \) using l'Hôpital's
rule; repeated use of l'Hôpital's rule.

AHL 5.14 Implicit differentiation; related rates of change; optimisation problems.

AHL 5.15 Derivatives of \( \tan x \), \( \sec x \), \( \csc x \), \( \cot x \), \( a^x \), \( \log_a x \), \( \arcsin x \), \( \arccos x \), \( \arctan x \); indefinite integrals of the derivatives of any of these functions; the composites of any of
these with a linear function; use of partial fractions to rearrange the integrand.

AHL 5.16 Integration by substitution; integration by parts; repeated integration by parts.

AHL 5.17 Area of the region enclosed by a curve and the x-axis or y-axis in a given interval; volumes
of revolution about the x-axis or y-axis.
AHL 5.18 First order differential equations; numerical solution of \( \frac{dy}{dx} = f(x,y) \) using Euler's method; by separation of variables; homogeneous differential equations \( \frac{dy}{dx} = f\left(\frac{y}{x}\right) \) using the substitution \( y = vx \); solution of \( y' + P(x)y = Q(x) \), using the integrating factor.

AHL 5.19 Maclaurin series to obtain expansions for \( e^x \), \( \sin x \), \( \cos x \), \( \ln(1+x) \), \( (1+x)^p \), \( p \in \mathbb{Q} \); use of simple substitution, products, integration and differentiation to obtain other series; Maclaurin series developed from differential equations.

**Mathematical exploration**

Internal assessment in mathematics is an individual exploration. This is a piece of written work that involves investigating an area of mathematics. (20 marks)
All the above should be considered as a work in progress and may or may not reflect the material which will finally appear in the guides.

Acknowledgements and thanks

The mathematics syllabuses were designed by a team of education professionals which included teachers, examiners, paper-setters and workshop leaders representing different regions, different languages, and different teaching and learning contexts. IB staff members from Assessment, Assessment Research and the Learning and Teaching divisions completed the team. We would like to extend our gratitude to all of them for their invaluable contribution, their professionalism and their conscientiousness.

We would also like to thank schools and teachers who participated in assessment trials and gave valuable feedback helping the review team to perfect the assessment components.

Finally, we would also like to thank the universities and university academics with whom we consulted throughout the process for their very valuable input, and the IB Recognition and Communication divisions for facilitating our communication with universities and the wider IB community.

REQUIRED DOCUMENTS

1. COURSE DESCRIPTION - New/updated course description to be included in the school catalog and/or handbook.

This course is year one of the two-year Mathematics Analysis course. This course is designed for students who already possess three years of math background at the high school level (Algebra I, Geometry, Algebra II). Students will study number and algebra; functions; geometry and trigonometry; statistics and probability and calculus. Students must complete an IB internal assessment which involves a mathematical investigation, modeling task and written report. Students must also prepare for and take the IB May exams: Paper One and Paper Two. The difference between Analysis and Application courses are the level of depth covered within each unit.

2. COURSE SYLLABUS - Essential questions, objectives, desired outcomes, assessments, timeline - time spent on each section: http://husd1.org/husdforms/documents/CUR1001CourseSyllabus.pdf

3. JUSTIFICATION FOR NEW COURSE - Provide standards alignment information.

IB conducts a review of all curriculum every 7 years. The new proposed math continuum is based upon a comprehensive review of current standards along with the needs of a college bound student. Attached is the curriculum review provided by IB. It articulates the extensive process and review conducted in order to provide a rigorous and relevant math course.

Mathematics: Analysis and Approaches SL 5,6 Unit Plan

Topic: Geometry and Trigonometry – Suggested teaching hours: 25

1. The distance between two points in three-dimensional space, and their midpoint; volume and surface area of three-dimensional solids including right-pyramid, right cone, sphere, hemisphere and combination of these solids; the size of an angle between two intersecting lines or between a line and a plane.

2. Use of sine, cosine, and tangent ratios, to find the sides and angles of right-angled triangles; the sine rule, not including the ambiguous case; the cosine rule; area of a triangle and ½ ab sinC.

3. Applications of right and non-right angled trigonometry, including Pythagoras’ theorem. Contexts may include use of bearings; angles of elevation and depression; construction of labelled diagrams from written statements.

4. The circle: radian measure of angles; length of an arc; area of a sector.

5. Definition of cosθ, sinθ, in terms of the unit circle; definition of tanθ as sinθ/cosθ; exact values of trigonometric ratios of 0, π/6, π/4, π/3, π/2 and their multiples; extension of the sine rule to the ambiguous case.

6. The Pythagorean identity sin²θ + cos²θ = 1; double angle identities for sine and cosine; the relationship between trigonometric ratios.

7. The circular functions sinx, cosx, and tanx; amplitude, their periodic nature, and their graphs; composite functions of the form f(x) = a sin(b(x-c))+d; transformations; real-life contexts.

8. Solving trigonometric equations in a finite interval, both graphically and analytically; equations leading to quadratic equations in sinx, cosx, or tanx.

Mathematics: Analysis and Approaches SL 7,8 Unit Plan

Topic: Calculus – Suggested teaching hours: 28

1. Introduction to the concept of a limit; derivative interpreted as gradient function and as rate of change.

2. Increasing and decreasing functions: graphical interpretation of \( f'(x) > 0, f'(x) = 0, f'(x) < 0 \).

3. Derivative of functions of the form \( f(x) = ax^n + bx^{n-1} + \cdots, n \in \mathbb{Z} \).

4. Tangents and normal at a given point, and their equations.

5. Introduction to integration as anti-differentiation of functions of the form \( f(x) = ax^n + bx^{n-1} + \cdots, n \in \mathbb{Z}, n \neq -1 \); definite integrals using technology; areas between a curve \( y = f(x) \) and the x-axis, where \( f(x) > 0 \); anti-differentiation with a boundary condition to determine the constant term.

6. Derivative of \( x^n \) where \( n \in \mathbb{Q} \), \( \sin x \), \( \cos x \), \( e^x \), and \( \ln x \); differentiation of a sum and a multiple of these functions; the chain rule for composite functions; the product and quotient rules.

7. The second derivative; graphical behavior of functions, including the relationship between the graphs of \( f \), \( f' \), and \( f'' \).

8. Local maximum and minimum points; testing for maximum and minimum; optimization; points of inflexion with zero and non-zero gradients.

9. Kinematic problems involving displacement \( s \), velocity \( v \), acceleration \( a \) and total distance travelled.

10. Indefinite integral of \( x^n \) where \( n \in \mathbb{Q} \), \( \sin x \), \( \cos x \), \( \frac{1}{x} \), and \( e^x \); the composites of any of these with the linear function \( ax + b \); integration by inspection (reverse chain rule) or by substitution for expressions of the form \( kg'(x)f(g(x))dx \).

11. Definite Integrals, including analytical approach; areas between a curve \( y = f(x) \) and the x-axis, where \( f(x) \) can be positive or negative, without the use of technology; area between curves.

ADJOURNMENT

- One or more Governing Board members will/may participate by telephonic or video communications.
- Names and details, including available support documents, may be obtained during regular business hours at the TUSD Governing Board Office.
- Persons with a disability may request a reasonable accommodation, such as a sign language interpreter, by contacting Translations/Interpretations Services at 225-4600. Requests should be made as early as possible to arrange the accommodation.
- Upon request, TUSD will provide a certified interpreter to interpret Governing Board meetings whenever possible. Please contact Translations/Interpretations Services at 225-4672 at least 72 hours prior to the event. Every effort will be made to honor requests for interpretation services made with less than 72 hours’ notice.
- Previa petición, TUSD proporcionará un intérprete certificado para interpretar la agenda de las reuniones de la Mesa Directiva o de proporcionar los servicios de interpretación en las reuniones de la Mesa Directiva cuando sea posible. Favor de contactar los Servicios de Traducción/Interpretación al teléfono 225-4672 cuando menos 72 horas antes del evento. Se hará todo lo posible para proporcionar los servicios de interpretación realizados con menos de 72 horas de anticipación.
- If authorized by a majority vote of the members of the Governing Board, any matter on the open meeting agenda may be discussed in executive session for the purpose of obtaining legal advice thereon, pursuant to A.R.S. 38-431.03 (A)(3). The executive session will be held immediately after the vote and will not be open to the public.
- The order of items on this agenda may be modified during the meeting at the discretion of the Board President or upon a motion to amend the order of business which is approved by a vote of the Board.
MEETING OF: February 26, 2019

TITLE: Mexican American Studies/Mexican American Viewpoint Culturally Relevant Courses (CRC) - Requested by Board Clerk Ms. Rachael Sedgwick

ITEM #: 16

Information:

Study: X

Action:

PURPOSE:
To provide the Board with a presentation regarding: 1) Mexican American Studies (MAS), as the course was taught in TUSD prior to 2012; 2) Mexican American Viewpoint Culturally Relevant Courses (CRC), which are currently taught in TUSD; and, 3) the difference between the two. The Board will consider the information in order to, potentially, take a vote at an upcoming meeting about whether and how to change the Mexican American Viewpoint CRC curriculum so that it is as beneficial to students as possible.

DESCRIPTION AND JUSTIFICATION:
In 2017, the Court found that the State of Arizona was not permitted to enforce the law that banned Mexican American Studies in TUSD because it "was enacted and enforced, not for legitimate education purposes, but for (i) an invidious discriminatory racial purpose, and (ii) a politically partisan purpose—to shut down the [TUSD Mexican American Studies program]—in violation of the First and Fourteenth Amendments to the Constitution." TUSD has provided Mexican American Viewpoint CRC since not long after MAS was banned in 2012. In light of the Court ruling, however, community members have requested that TUSD "bring back MAS." This is an opportunity for the Board and community to understand the differences between MAS and Mexican American Viewpoint CRC, and for the Board to decide whether it needs to vote to change the curriculum to provide an additional benefit to students.

Governing Board Presentation February 26, 2019
APPENDIX V – 87  (Part 2 of 2)
To review...

Previous Governing Board presentation consisted of...

- A timeline of USP evolution requiring the development of MAS, MASS and CRPI
- A definition of relevant terms
- A summary of CRPI expansion and course offerings
- District-wide PD responsibilities for CRPI and areas of focus
- Collaboration with student services
PURPOSE
The purpose of this agenda item is for the board and the community to receive a presentation noting the major programmatic and curricular differences between Culturally Relevant Courses and the Mexican American Studies courses.

DESCRIPTION & JUSTIFICATION
Specifically, the presentation will outline the curricular focus areas of Culturally Relevant Courses in English Language Arts and Social Studies and compare these focus areas with the former Mexican American Studies courses. Lastly, the report will focus on the role of Mexican American Student Services in the district and how it supports culturally relevant course work and student achievement for Mexican American students.

Differences...

Overview of MAS Courses
1999-2010

- No TUSD curriculum department
- No TUSD curriculum documents
- MAS Scope and Sequence determined by each teacher
- Curriculum developed independent of district assessments
- Comprehensive units of study
- Embedded district standards in units
- Developed without stigma of ARS-15-112
- All teachers volunteered - No mandated expansion of courses
- Year-long Senior Government course
- Staff consisted of content experts with MAS backgrounds
- MAS teachers shared an intrinsic motivation
- Pedagogy based on Indigenous epistemology
Overview of CRC Courses
Est. 2013-14

- Developed under extreme scrutiny for violation of ARS 15-112
- Underwent curricular review by ADE via monthly submission and ADE monitoring
- Alignment to state and district:
  - Curriculum maps aligned to district benchmark assessment and state standardized assessments
  - CRC Scope and Sequence aligned to Non-CRC
- Curriculum documents reviewed and revised yearly by CRPI
- Teachers produce curriculum for CRC
- CRPI instrumental in shaping TUSD curriculum--Anti-bias framework
- Varying levels of teacher background knowledge in ethnic studies content, culturally responsive pedagogy & theoretical underpinnings
- Semester-long Senior Government courses
- CR Staff has expertise with MAS and/or AA studies
- CRC Pedagogy based on TUSD MAS best practices

TITLE: Re-Integration of Mexican American Studies Back into Tucson Unified School District - Requested by Board Members Adelita Grijalva and Kristel Foster

ITEM #: 9

Information:
Study:
Action: X

PURPOSE:
Now that the Board understands the ramifications of the Federal ruling in regards to ARS 15-112, this action item is to direct staff to communicate this same information to Dr. Hawley, the Fisher-Mendoza Plaintiffs and the Director of Culturally Relevant Pedagogy and Instruction so that curriculum design and professional development planning from this day forward is no longer hindered under the previous restrictions outlined in ARS 15-112

DESCRIPTION AND JUSTIFICATION:
Multiple studies show that the former Mexican American Studies Department in Tucson Unified School District established a very successful ethnic studies program that raised student interest and achievement. We also know that currently our Culturally Relevant courses are engaging our learners and preparing students for academic success as well.

With this vote, the Board is assuring the community that whatever elements that existed previously under MAS, that have not been permitted under ARS 15-112, may now be incorporated to better reach the socio-cultural needs and academic success of our Tucson Unified School District students.

BOARD AGENDA ITEM CONTINUATION SHEET
Purpose: The purpose of this agenda item is to provide the Board with a presentation regarding: 1) Mexican American Studies (MAS), as the course was taught in TUSD prior to 2012; 2) Mexican American Viewpoint Culturally Relevant Courses (CRC), which are currently taught in TUSD; and, 3) the difference between the two. The Board will consider the information in order to, potentially, take a vote at an upcoming meeting about whether and how to change the Mexican American Viewpoint CRC curriculum so that it is as beneficial to students as possible.

Description/Justification: In 2017, the Court found that the State of Arizona was not permitted to enforce the law that banned Mexican American Studies in TUSD because it "was enacted and enforced, not for legitimate education purposes, but for (i) an invidious discriminatory racial purpose, and (ii) a politically partisan purpose—to shut down the (TUSD Mexican American Studies program)—in violation of the First and Fourteenth Amendments to the Constitution." TUSD has provided Mexican American Viewpoint CRC since not long after MAS was banned in 2012. In light of the Court ruling, however, community members have requested that TUSD "bring back MAS". This is an opportunity for the Board and community to understand the differences between MAS and Mexican American Viewpoint CRC, and for the Board to decide whether it needs to vote to change the curriculum to provide an additional benefit to students.

Governing Board Presentation March 12, 2019
To review...

Previous Governing Board presentation consisted of...

- A timeline of USP evolution requiring the development of MAS, MASS and CRPI
- A definition of relevant terms
- A summary of CRPI expansion and course offerings
- District-wide PD responsibilities for CRPI and areas of focus
- Collaboration with student services
PURPOSE
The purpose of this agenda item is for the board and the community to receive a presentation noting the major programmatic and curricular differences between Culturally Relevant Courses and the Mexican American Studies courses.

DESCRIPTION & JUSTIFICATION
Specifically, the presentation will outline the curricular focus areas of Culturally Relevant Courses in English Language Arts and Social Studies and compare these focus areas with the former Mexican American Studies courses. Lastly, the report will focus on the role of Mexican American Student Services in the district and how it supports culturally relevant course work and student achievement for Mexican American students.
Comparisons...

Overview of MAS

Differences...

Overview of MAS Courses
1999-2010

- No TUSD curriculum department
- No TUSD curriculum documents
- MAS Scope and Sequence determined by each teacher
- Curriculum developed independent of district assessments
- Comprehensive units of study
- Embedded district standards in units
- Developed without stigma of ARS-15-112
- All teachers volunteered - No mandated expansion of courses
- Year-long Senior Government course
- Staff consisted of content experts with MAS backgrounds
- MAS teachers shared an intrinsic motivation
- Pedagogy based on Indigenous epistemology
Overview of CRC Courses
Est. 2013-14

• Developed under extreme scrutiny for violation of ARS 15-112
• Underwent curricular review by ADE via monthly submission and ADE monitoring
• Alignment to state and district:
  • Curriculum maps aligned to district benchmark assessment and state standardized assessments
  • CRC Scope and Sequence aligned to Non-CRC
• Curriculum documents reviewed and revised yearly by CRPI
• Teachers produce curriculum for CRC
• CRPI instrumental in shaping TUSD curriculum--Anti-bias framework
• Varying levels of teacher background knowledge in ethnic studies content, culturally responsive pedagogy & theoretical underpinnings
• Semester-long Senior Government courses
• CR Staff has expertise with MAS and/or AA studies
• CRC Pedagogy based on TUSD MAS best practices

Meeting: Apr 30, 2019 - AGENDA FOR SPECIAL BOARD MEETING
Category: INFORMATION ITEM(S)
Subject: Site Based Steps to Success in Middle Schools and High Schools
Type: Information

PURPOSE: The purpose of this agenda item is to update the Board on this year’s initiative to assign quarterly steps to success home visit assignments for all at-risk and absentee students in middle schools and high schools.

DESCRIPTION/JUSTIFICATION: The presentation will detail the efforts made on a quarterly basis for each middle and high school to make contact with credit deficient and truant students. The presentation will also note the resources and support provided by the district to assist sites, as well as information regarding the success of this year’s efforts. Site-based steps to success efforts on the part of schools are designed to compliment the twice yearly district-wide Steps to Success Program.

Site based Steps to Success for 18-19: A Progress Report
Site based Steps to Success

The Steps to Success initiative is a partnership between Tucson Unified School District and the City of Tucson Office of the Mayor to seek out and retrieve students who have dropped out of Tucson Unified School District. Through home visits, this partnership has allowed educational staff, city officials, and community members to visit with students and their families and encourage them to come back and finish their high school education.

Since July 2014, we've held five walks to retrieve identified students in grades seven through twelve. We specifically seek out students who, according the Arizona Department of Education, are classified as educational "Status Unknown." We attempt to contact each family with a message of community support and academic assistance, in hopes the student will return to school. To date, 384 students have been enrolled through Steps to Success, and 64 students have graduated.

This school year we have moved the focus from the District to individual schools targeting their students with academic or attendance issues.

Transition to Middle School causes student disengagement and stagnant student learning, discipline concerns, and ultimately increased likelihood of high school dropout.

Student transitions are associated with a decline in student performance.

Moving between schools adversely impacts students.

Middle School students more vulnerable to poor long-term outcomes because of physical, emotional, and intellectual changes they experience.
Segmented middle school schedule does not allow for individualized student attention or personal student teacher relationships.

- Weiss & Kipnes (2006)

Staffing practices of middle schools are plagued by lower rates of retention, less experience, & lower rates of certification than at elementary or high schools.

School transitions are associated with lower self-esteem and behavioral problems.
