Q1. My child attends:

<b>Answer Choices</b>	<b>Responses</b>
Elementary School	1460
Kinder-8 School	348
Middle School	274
High School	594
Alternative School	15

Q2. Please select your child's elementary school.

<b>Answer Choices</b>	<b>Responses</b>
Banks Elementary School	83
Blenman Elementary School	5
Bloom Elementary School	18
Bonillas Elementary School	15
Borton Elementary School	38
Carrillo Elementary School	48
Cavett Elementary School	32
Collier Elementary School	10
Cragin Elementary School	29
Davidson Elementary School	19
Davis Elementary School	78
Dunham Elementary School	17
Erickson Elementary School	15
Ford Elementary School	5
Fruchthendler Elementary School	35
Gale Elementary School	40
Grijalva Elementary School	10
Henry Elementary School	34
Holladay Elementary School	9
Howell Elementary School	50
Hudlow Elementary School	9
Johnson Elementary School	3
Kellond Elementary School	13
Limeweaver Elementary School	65
Lynn/Urquides Elementary School	18

Maldonado Elementary School	115
Manzo Elementary School	7
Marshall Elementary School	49
Miller Elementary School	141
Mission View Elementary School	3
Myers/Ganoung Elementary School	14
Ochoa Elementary School	6
Oyama Elementary School	11
Robison Elementary School	13
Sam Hughes Elementary School	41
Sewell Elementary School	7
Soleng Tom Elementary School	36
Steel Elementary School	10
Tolson Elementary School	8
Tully Elementary School	101
Van Buskirk Elementary School	14
Vesey Elementary School	37
Warren Elementary School	4
Wheeler Elementary School	29
White Elementary School	72
Whitmore Elementary School	25
Wright Elementary School	19

Q3. Please select your child's K-8 school.

<b>Answer Choices</b>	<b>Responses</b>
Booth-Fickett K-8 School	9
Borman K-8 School	34
C.E. Rose K-8 School	13
Dietz K-8 School	10
Drachman Montessori K-8 School	13
Hollinger K-8 School	28
Lawrence 3-8 School	1
Mary Belle McCorkle Academy	9
Miles Exploratory Learning Center	40
Morgan Maxwell K-8 School	22
Pueblo Gardens K-8 School	10
Roberts-Naylor K-8 School	39
Robins K-8 School	96
Roskruge Bilingual K-8 Magnet School	15
Safford K-8 School	9

Q4. Please select your child's middle school.

<b>Answer Choices</b>	<b>Responses</b>
Alice Vail Middle School	15
Dodge Traditional Magnet School	48
Doolen Middle School	30

Hispanic	1390
White	1142
African American	234
Asian	113
American Indian or Alaskan Native	197
Native Hawaiian or Pacific Islands	51

Q28. Comments:

Im very pleased to have my child in this school

Collier Elementary is an outstanding school!

Our principals are rude. administration is a joke and always looking for excuses

Staff and also teachers are friendly, welcoming. Grijalva school feels like HOME.

My child is new to this school and I feel it is like a prison. Paper work is brought outside to parents as parents are not allowed inside the school.

I’m thankful that my children have the opportunity to attend Lineweaver. The staff is amazing and it’s a great community.

I love Lynn Urquides’ way!

15 minute conference seemed rushed maybe 5-10 more min would ensure we can discuss all concerns

Sabino high school es la mejor escuela, desde maestros hast personal de limpieza Excelente A

I am very pleased with the out come of the new administration, they are doing a great Job On this school

The lack of handicap transportation is very inconvenient and the lack of proper/adequate handicap parking is extremely frustrating. Also the hours of operation is extremely frustrating with the amount of traffic btwn 730am-815am and trying to get through the traffic and get your kid to school on time. I live 10-15 minutes from the school but it takes 30-40 minutes to finally pull into the parking lot.

We're new to Lineweaver. It's an amazing school with wonderful staff and a huge variety of extracurricular activities for which we are very grateful.

The school has good communication with me.

I have not heard anything about the PTA or any events this year for families with the exception of the Meet the Teacher event. I was disappointed that Magee did not offer a Curriculum Night, and instead just did Meet the Teacher where I did not learn much about my child's classrooms or teacher.

I would like if they school had a little more landscaping/ plants and trees. Also I would like the school to go back to selling Miller Shirts.

Lineweaver is a fantastic school!

I would like to sign up for PTO

if i had the option i would take her out of this school.. from the air conditioning not working, to being unorganized, dont see how you expect children to thrive when the adults in the school do not have it together.. my child has said its like being in prison.. you have an event to clean up the school? thats the janitors job not the children.. i have more to say but ill stop at that, no need to bring up a pandemic..

I strongly feel the the school is under staffed and is unable to provide the safety and necessary monitoring of students

I think the staff need to not talk to the students as if they are a bother or just negative. Negative communication radios negative behavior even more.

Some of your teachers are rude and give grades based on if they like them or not even when all homework is done m

Numerous fights at Santa Rita highschool and open marijuana use after school in parking lot on a daily basis! Saw a white girl give a black boy a joint then kids like crazy over 10 going into a red suv taking puffs and running off. Friday and days before off days are worse for open drug use! No cameras in parking lot or police presence around school. Kids run school not teachers!

The only thing I believe this school should work on is enforcing the dress code. When I pick up my child I see kids wearing sports bras as tops to school and worse.

The majority of communication I receive is to participate in events far from home (not at our school) and when police are there due to incidents, which seems to be often. And to communicate about the football team and season. Not much else.

Needs school bus

Student safety at this school needs to be addressed.

Straight A student received a D because the teacher did not grade papers in a timely manner for progress report. This is devastating to a student who strives for good grades. Unacceptable.

Student safety and marijuana use need to be addressed at this school.

pto needs to be cleaned up with everyone new 🙄 pto president is rude. If you go against staff then you are labeled as someone who is not accepted. Being a positive person is not accepted at this school.

I truly appreciate the amazing staff that is always willing to communicate with me in concerns or issues my child may be facing!!! I truly feel that this is helping prepare my student for his future! Thank you!

communication home varies by teacher. I have two students at this school. I hear much more from one teacher than the other.

I wish they can bring back the MAKE Fashion. Also, have more assemblies and other events where parents can see the kids perform

N/a

I love that our new school this year (LW) offers many opportunities for parents to be involved and for kids to have many choices for extracurricular activities! Thank you!

The school front office staff take their time in acknowledge me and sometimes I feel ignore. Also, it takes forever for them to answer a phone call.

Drachman is child centered. I feel it's the best school in Tucson.

Very good school, glad we enrolled my son there

Ninguno

None

They should have after school activities like sports

A+ school great school and staff!

I WISH MY SONS TEACHER WOULD REACH OUT TO ME AS A PARENT IF MY CHILD NEEDS IMPROVMENT IN ANYTHING OR IS HAVINF BEHAVIOR PROBELMS SO THEY CAN BE RESOLVED

This quarter I have experienced less communication in general from one of my children's teacher, so not sure what's happening, classroom newsletters would help this.

Thank you !!

Ms.Barraza and the Miller Elementary staff are awesome!

I am concerned about campus safety. I am hearing about a lot of fights going on there.

We like our school and it's smaller student body.

Thank you for this opportunity to Honor Santa Rita H.S. Culinary teacher Mrs. Haeflinger this is an extraordinary teacher always looking forward to help kids to be successful..thank you very much.everything she does it's very well appreciated.

That is so sad the cheer and football team couldn't attend their first homecoming

My child has been bullied but when he tries to tell his teacher she says unless someone os hurt you are tattle telling and thats not accepted. Tusd doesnt have a good reputation for stopping bullying and im seeing it first hand this year!

Mrs.Wright is amazing!

The administration is OUTSTANDING here at RHS! So proud to be here. We are extremely pleased with this high school. Thank you for all you do! Teachers are amazing! My daughter is extremely happy! THANK YOU!!

I would love more situations where the principal makes herself available to meet and greet the parents, opportunities for her to interact with the children. Open herself up to knowing the parents as well as the children.

I don't think the principal is a good fit for our school.

The teacher are wonderful but one of the office staff is extremely rude. She has long hair and sits left of the front door

None at this time. Thank you

Need security

Dodge is a wonderful community and has wonderful teachers, staff, and students!

Dodge Middle school has some of the best educators in TUSD! The students- are iffy. Too bad parents can't teach their kids manners and respect. As a parent, I feel bad for the educators, you have a little douche bag student you can't reprimand them, because then the parents scream lawsuit. Teachers

are put in awful situations like that.

Dodge is a great middle school. Our family looks forward to the next 2 years there.

I never receive school emails from TUSD

There is one race it's human. Get educated decolonize this question is not accurate it's 2022 get a clue white supremacy is only in your heads lol

Timely bus services (arriving at school shortly before classes begin!!) is needed!

White elementary has gone down with communication and the new principal is very unorganized as well as the PTO it's all word of mouth there is no organization or after protocols my son's 4th grade teacher admitted to not understanding math and is reviewing 2nd grade math which is a concern to my son's progress and success in his learning

We love Tully tiger staff!!

Tully is a wonderful school I am very happy on my granddaughter's success and the teachers and staff are wonderful

Thank you so much

N/A

N/A

Tully is a wonderful school the staff and teachers are wonderful on the success of the students

Horrible principal. Does not care about the families' concerns. It's her way and only her way. She won't listen to concerns of staff or parents

N/A

would appreciate more timely notice for meetings, one day notice is not enough for working parents i.e. volleyball mtg on Thursday, notice sent out Tuesday after 5pm = less than 24 hour notice for work

Need before and after school care at Miller for working parents.

TUSD is horrible

I want to be sure that middle school is a safe place for my children to be. Students who are caught fighting with others or bullying should be reprimanded. Too much leniency and lack of follow through makes consequences for behavior seem totally random.

Need better Assistant Principals that are not biased.

Me gustaría que en área de preschool anexaran más tiempo ya que al ingresar a la primaria el cambio de 6 hr estar en salón de clases afecta emocionalmente

nothing

Need more staff employees

Believe the principal and assistant principal should handle school situations in a more timely manner.

None

Muy excelente todo agradecida estoy

N/A

This survey lacks appropriate questions and options for neither agree or disagree need to be added, the racial question can't be answered if one is bi-racial.

Na

The lack of communication at this school is appalling. The teachers are impossible to get in contact with and can't be bothered with returning emails. My children seem to come home every other day and talk about very personal information about teachers. The teachers also love to over share. They

talk about their personal lives and divorce's as an excuse to take it out on the kids.

The school can do better at communicating with parents about their child's behavior and ways to help keep the child on track while at school.

Great school

No Complaints!!!!!!!

No comments.

I wish we got paper report cards as I forget to get on parentvue to see them. And, I wish the comments in the report card would reflect the lower grade choices they sometimes get.

Leadership at school this year has been inconsistent.

Best pre k ever with Ms Varelas

Mr Van Schie does a pretty great job distributing information. At this time, my contact with the teachers has been minimal but slightly underwhelming, I admit.

Principal is completely unavailable, staff are rude over the phone, poor communication about time changes for pick up and stuff like that

The principal needs to take more seriously what parents are communicating with him. I have not seen any changes in my son's classroom regarding lack of communication. He also needs to respond in a timely manner when parents reach out. If he wants to build a community of partnership responding to calls or emails within 24 hours is the best way. He currently is taking three days to respond. Our children's state of mind is important to us as parents it should also be important to the principal.

I have two kids at Borton and one teacher is very helpful but the other doesn't provide anything about what they are doing unless it is at a conference. This is different from any other teacher so I wish she would provide updates more regularly as that is the expectation set from attending Borton.

No homework at our school, so some of these don't apply! I like the no homework policy, which I know is supported by data that it is not particularly effective at the gradeschool level, especially as long as students are reading at home.

I love the school my son is at and I feel like his academic needs and other interests are addressed. He is getting a good education and he likes being at his school.

Bonillas is a great elementary school! I just wished they stopped making our kids walk with their hands behind their backs. I feel it's unnecessary, they are not prisoners.

I love my children's teachers this year. They are absolutely above and beyond amazing. That being said most of the staff at this school is lacking and seem like they hate their job. The children at this school are missing out a lot because there is nothing ever planned for them to do i.e. fund raising, field trips, fall carnivals or festivals, no special events like movie nights or anything to make school fun. It's hard to be on any kind of pta because the few "staff" that run it or participate are rude and don't like anyone's input so everything lacks and we get stuck with the same boring routine of every year's events on repeat. So sad

Thanks Banks Elm for being a awesome school

I am currently the PTA/PTO president at Valencia Middle School.

Siempre he sido muy bien recibida al igual que mis hijos

My child really loves her school and I would like to bring her younger sister next year to the school daycare.

School needs a lot more programs and help for kids with special needs. My son will be left behind if he does not get the one on one help Ms. Brent's is refusing, which was documented in his diagnosis/treatment plan that was submitted by his off campus neuropsychologist office.

I am very happy with my son's teacher & the school in general

none

Everything's great

Love this school

None

None

Please consider having 6th grade at Banks. It would help out a lot of families. Thank you!

Love our Banks teachers and staff!

Thank you for all your hard work .

I am a little concerned about the size and dynamic of the 3rd grade class. Ms. Carillo is doing an incredible job, but I've been hearing about the struggles in the class. I wish I had the time to volunteer in her class to help

No comment at this time. Thank you

No comments

Excellent resources for special needs families

I'm very happy that my kiddo enjoys coming to wheeler since the change of districts.

sayed

I like Maldonado school my kids love it. The staff is always there trying to help the kids.

I really like the school. They always are helping my kids all the staff is really nice. And my kids are happy to go to this school, they learning a lot.

Please have more cops at the school

No comments

My child goes to a wonderful school the staff is amazing

Nos gustaría más información en redes sociales.

None

Estoy muy contenta con toda la educación y la seguridad que les dan a nuestros niños

24

The people in the office NEVER answer the phone!!

I feel kids with a IEP should have a quarterly meeting I also feel that teachers should be made aware of autism diagnosis so they understand the children do not learn the same way as other students I know right to privacy but the children are just learning to advocate for themselves and may not always want to speak up .

Muchas Gracias

Cholla needs to evaluate the business office administrator seems to busy staff and intimidate students. I have not had the change to follow up with my students concern regarding lap top charger and the business office administrator intimidates students and staff

Lynn / Urquides has a wonderful staff. Love them and will help than anyway that I can.

In the 4 years with my child. I've found myself calling the school for information some of the times it sounded like the information was fluid.. My child has an iep. Some of the teachers would send messages which we appreciate but he would hear something over announcements and say 2 or 3 key words which had me calling for information. Some emails would come and others wouldn't. The

website is not updated with events or deadlines just district. Very frustrating. I am grateful for some of the teachers who grew to know our child and the disability. Cholla needs better communication other than just and call on the same day.

Put 6th-8th and Lynn Urquides! Great school and leadership?

Admiro y respeto a todo el personal de Maldonado Elementary 😊 an sido de gran apoyo para mis hijos, me ayudan mucho en el manejo de la diabetes tipo 1 de mi pequeño, son como MI FAMILIA.

I love this school staff. Thanks to the school district for all the opportunities we have

Ms. Alverado is an excellent teacher!

Janeth Navarro

Unclear communication from school has been the biggest issue this year and my child's teacher telling their class that "middle schoolers are jerks who just want to play on their phones all day" - completely inappropriate.

I'm happy with everything and grateful for the staff

Amazing school

This is Nicholas first year at Gridley Middle School and I have been very impressed with the involvement of all teachers and staff.

Need new principal

MY SONS TEACHER COULD WORK ON BEING COMMUNICATIVE WITH PARENTS. KEEP US UPDATED ON OUR CHILDRENS BEHAVIORS AND WHERE OUR CHILDREN LACK IN AND NEED HELP WITH

N/A

N/A

School is dirty

school and floors dirty

#1 school

We are so happy with TUVA! Great teachers and staff. Thank you!

School building and grounds are not inviting.

Non

The school need to have free lunches for students

Howell rocks

UHS has been a huge disappointment. There is no support from upper grades to lower grades, the homework load is too heavy and the students are stressed out.

This is a test; done by Rigel, Amy's son.

Thank you

Keep up the great work

I would like for additional resources to be available after school, our children could benefit from tutoring and reading help.

multiracial

Front office staff not very friendly(unhappy or angry). Teachers are great.

Very pleased with Robin's and the facility. Ms. Thomas works very hard to cultivate a strong sense of community, kindness and safety at Robins and that is extremely evident. We love her!

No PTO there the last few years

My daughter is on an IEP and has excellent service providers. I sit on the school's site council and feel my opinion is valued! My daughter's teacher Mr. Albert Sanchez is excellent in his instructional delivery, professionalism and goes above and beyond to help meet student needs. He volunteers his planning time to provide homework help for his students and celebrates their accomplishments as they respond to instruction. My daughter has made significant improvements this year and I attribute them to the cultural identity and agency that he is helping my daughter to gain as a learner!

Overall a great school. Pushing each student to achieve their best potential helps my child to work on excelling.

Gale is an amazing school with a wonderful neighborhood feel. The teachers and staff are A++. I glad to have my children attending the same wonderful school that I attended as a child. ♡Gale♡

Good elementary school. I don't really need my hand held on items pertaining to my child. My child knows what is expected from him and if he requires assistance, he knows who to go to at the school.

We love Gale Elementary, our child is thriving and really enjoys going to school. I feel confident that my child is safe and surrounded in a positive environment. The Principal, Teachers, and all the staff are just wonderful, they are so engaged with the students and create a warm, welcoming, and positive environment for students to learn and grow.

None at this time.

My daughter is very happy at Robins. Her teacher is absolutely amazing. I had no idea that teachers are this good.

Spooky reading night was so much fun for the kids

It's not a welcoming place. The office lady (munday) questions you and gives horrible Attitude. Mis.price is a joke she doesn't ever give you an answer and she horrible at communicating, she only cares about certain kids and is rude to her volunteers that come and help. Craigin needs newer staff that hasn't been there for 30 years they need to fresh staff who don't judge you or talk bad about you or our kids

Soleng Tom is one of the best TUSD school in my opinion. Mr Dotson and his caring teachers makes this school what it is today. My daughter is in Kindergarten and she already has learned so much..I appreciate all the teachers and Staff.

I believe the school should provide testing besides the gate program to see where a child is in learning. Since my child will get done 1st with work thn be board. And he reads better then what the school says. Since he doesn't want to show how well he reads Since other kids are slower

Thank you

NA

Miller elementry is a great school my kids had made much progress 😊

Sabino PTSA nearly doubled in size to 155. Parents and students are getting involved to celebrate our seniors with a Grad Night sponsored by PTSA. Spirit wear sales are booming and school pride is rising once more! Go Cats!

I feel the school classes should be more challenging and there should be more extracurriculars offered. This is the first school I have ever heard of or been to that doesn't even offer JROTC. Teachers can be difficult to get a response from as well as getting them to grade my child's homework assignments.

Secrist severely lacks in communication to parents. Important/event information is often sent last minute. It's hard to get information from the school regarding extra curr. Website/Social media is never up to date and missing current year info.

\*

I am disappointed with the behaviour of some of the teachers. Some are great and some are terrible. The ones who are awful overshadow the good.

Veronica Archer

At an open house tried to communicate but was shut down.

My son has an IEP that includes meeting with a Counselor. None of those sessions have been conducted thus far this academic year. I inquired during parent-teacher conference about the status and was told that was being worked on. We're more than halfway through the semester. Students need to be supported in a more responsive manner. I understand some time being needed at the beginning. We're past that at this point.

Gridley is a great Middle School.

My daughter has done great at Gridley! She loves it!

RE: item 4. I get group emails nothing specific to issues with my child. Sometimes they are unclear and seem to be sent after the assignments are already past due. RE: item 5. I have everyone's email but I am often not responded to by teachers nor administrators. I do wish teachers posted all assignments in their Class website section of ParentVue. This quarter I am seeing some assignments showing up in the grade book section. The inconsistency makes it hard on a single dad who's working two and three jobs however. RE item 7, progress reports, or other issues are not communicated at all or not in a timely manner. 11, 12, 13 I think perhaps this is offered but just not communicated well. For instance I have not received a 21st Century calendar so I have no idea what's being offered on what days. I emailed the principal about this today. In regard to parent teacher conferences I reached out to my child's teachers and only got positive responses or NO response so as far as I can tell that meant no conference was required. Otherwise I would have organized my schedule to meet with the teacher(s) in person. That is no easy feat either. 21 is something I wish I could participate in but I have no time to do so

#6. For the most part this is true, but we have seen an instance when we should have contacted the teacher but our child was convinced that it would make matter worse. The class was honors English.

I wish that parent teacher conferences offered a time slot instead of just open conferences.

School needs more discipline in classrooms.

I would appreciate more communication about student events instead of finding out while I'm in the pickup line

It would be helpful to schedule development days or grading days Mondays or Fridays it seems like they always land on days right in the middle of the week it would be nice if these were limited to start or end of week for parents to just plan for extended weekends

My child has had issues with other children hitting, with sadness and strongly disliking school. He has communicated this, his teacher has been difficult to reach and has shared none of this with me.

I feel like I rarely see school staff give out positive comments or attitude to the children and that is something important if you want children to be comfortable about telling you something that can be affecting their lives negatively. Children need to have good relationships with school staff so that they can trust them.

I am a proud parent of Gridley Middle School. I appreciate their fast action in any matter that may need be discussed. The 6th Grade teachers are absolutely amazing and I appreciate each and everyone of them, they truly care about their students and it definitely shows Thank you!

Great staff! Great sense of community! I wish it went up to 8th grade!

I try to speak with a certain teacher. He promises he work work w my student and I'm the end doesn't. Very frustrating and unprofessional and I'm caring He makes my student not care

Bormans fantastic!

I have tried to be involved but I have been bullied and treated badly. I have heard members of the PTA speak rudely about other parents and teachers.

Teacher gives inconvenient and unprofessional notice of things that are happening in the classroom or cancellations.

I have had contacted the 6th gr school counselor , about bullying , and I still haven't recived a call back. My daughter that is being bullied went to talk to the 6th gr counselor, and counselor told my daughter, she received my message, but still hasn't responded. I left vice principal a voice mail, on Friday, and I haven't received a call from him. My daughter, comes home lately and the 2 people that are harrasing her are still making my child, sad, and even make her cry. My daughter has told teachers, and has been told they will talk to the bullies, but my daughter don't see teacher talk to them. I have reviewed the student handbook, and I have read thatbullying is not tolerated. I fell disappointed that my child is asking for help. And nothing is being done.

My experience with my child's teacher has been wonderful, I would give her only top reviews. My experience with other school staff has been subpar with very rare exceptions. I don't feel any sense of community with the school and I don't think I get any information unless I know exactly what to ask for. I feel like I'm missing out on a lot because the information is only available if you know who or what EXACTLY to ask.

An after school program would help so much!!

you need another box for race/ethnicity

I want to be involved but everything is at times that working parents can not make it to.

My child is a special needs student. She is unable to describe me what assignments she is working on. I don't feel that Im able to property oversee or explain assignments to her.

I'm truly thankful and appreciate Borman K-8 School

PTA meetings are only available at one time, making it difficult for working parents to attend

Overall from the last three years now at Gridley, the communication has decreased and the support from the school has diminished. Not only do students feel uncomfortable, when they do bring issues up to the administrators they feel they are targeted going forward and they do not feel supported.

There has been a disconnect with the teachers this year. Last year you met with all the teachers at the same time this year if you eat to participate in conferences the parent must schedule with each teacher individually. How can you meet with 6 teachers individually over 2 days. There should also be an easier way to obtain missed work Duran absence. You already have an I'll child and now you have to email all 6 teachers and ask for any make up work. It took me 2 months to obtain requested documents from school counselor and them when I did receive what I asked for it was from 4 years ago and not the most recent as requested. .

I really love Robins K8, the principal, teachers and staff make us feel like we are at home and care deeply for our child's learning and success.

Kevin Amidan and the entire staff at Sabino are amazing at creating a great environment for our kids to learn and grow. It is a great high school

If we really care about education we wouldn't allow athletes to participate in sports with a D letter grade.

I am unable to make all mtgs, etc due to work constraints but do not feel my child's education suffers because of it

great school, teachers and principal

none

We're happy at Dunham

N/A

Cragin elementary staff is rude don't work with any child's needs

Not sure how my child is going to be able to read in English and pass AASA with the way instruction is currently.

Great school, my son loves going to school.

Thank you for asking for our input.

Principal is rude and does not care about the families feeling welcomed.

The homework expectation is ridiculous. It has created so much anxiety for my child and myself. It is lazy, repetitive worksheets year after year. It is like "beating it out" of the children at this point. Homework should be reading logs, book reports or projects that are engaging. Again, this amount of pointless homework is creating so many challenges and barriers for my child. It is a yearly/weekly struggle that is overwhelming.

The principal is not being as communicative as Shawna Rodriguez. We are left in the dark when it comes to figuring out what is going on. We also have no clue who the principal is, there was no letter sent to parents or students before or during the start of the school year.

Vesey Elementary has been a pleasant surprise

We'd love to see more opportunities for families and kids together to navigate the college application process

Parent Vue is not updated regularly and some teachers take forever to grade. Several classes we have no idea where our student stands as far as grades as they are not updated until close to progress reports or quarterly grade. Thus the student doesn't have time to working on improving their grade. It has been happening all 3 years and has not improved.

Tucson High has had a difficult time kickstarting a PTA and parent involvement. I attended the first meeting and I was one of 2 parents there. The second meeting on Zoom, I was the only parent. There should be more outreach to get parents involved, which is difficult post-Covid at high school level. I am involved in sports booster club, but I'd like to be more involved in the actual school. No advertising for Site Council.

Very good school my son had a horrible experience at his last school ...another of bullying and he says this school pueblo gardens is a very good school

Great school and GREAT TEACHERS

Howell has great teachers! Like Mrs. Patterson!

Please add an " I don't know" or not applicable to all number 3 and 6 I didn't want to answer as I felt were NA answers

My son has really enjoyed his high school years, the friendships he has made, the teachers he has met and the activities offered. Tennis has always been something we have never been happy about, considering they hardly get any funding. Now on his Senior year, the principal Ms. Martinez is not communicative, I have tried emailing her and I had to call her and speak to her over the phone to get information regarding my child's missing teacher. There is no transparency and at least some form of communication of what is happening in school with teachers/staff. I understand it is a privacy issue but might argument is that kids are not informed that the district is aware and instead are left with no adequate substitute. I have a younger child, who will be starting High School next year and he really wanted to follow in his big brother's footsteps, that will no longer be an option.

Marshall is a great school! I enjoy sending my son to Marshall every morning as much as he likes being there. Dr. Loya and all the staff and teachers have been nothing short of amazing in providing my son with the education and life skills he needs to succeed. Looking forward to the next 3 years as the proud parent of a Marshall Mustang!

Marshall elementary school is the best!

It's difficult to get in touch with some teachers and very difficult to get in touch with advisors. I also find the schools website difficult to navigate. My son was in a class where the teacher was having trouble maintaining control and I had a very difficult time finding the right administrator/person to contact.

Nominations for Ms. Yock for going above and beyond the call of duty.

Tucson High needs to do better with communication. Ms. Rodriguez (the former principal) sent out phone messages at least once a week. The new principal reaches out to parents monthly (if we are lucky). Parents need more updates about schedule changes, extra curricular activities, career and academic workshops, school wide events, and testing. Thank you!

Several believe that the staff and teachers are amazing which we all agree on however the principal could use a little more compassion, understanding and tactfulness when dealing with parents and the teachers and staff as well.

n/a

I would not recommend this school

I have two children that attend Marshall Elementary that have been at this school from Pre-K to 5th. Great Teacher! I absolutely love the love and logic teaching strategies that they stand by! Thank you for all you do at Marshall!!

N/a

The school and staff are horrible with contacting parents with any concerns.

Teachers have all been great your office staff on the other hand has not. I've tried getting a hold of the principal on multiple occasions to no avail. I seem to always be cut off at the pass by Ms, Nickerson whom has yet to resolve my most recent concern. That took place approximately two weeks ago on 10/28/22.

The teachers and staff do not answer questions in a timely manner unless administration is involved. Some teachers are hesitant to meet with parents outside of the allocated conference timestating they do not have time in their busy schedule.

Thank you sabino

Sabino is using Canvas(?) I am unable as a parent to access it, so I am unable to see what my students are missing and what has been graded. The district should never have started a new program for teachers and students without making sure the parent side is open and functioning. These students are still minors.

Na

Sabino teachers and staff are amazing.

Also a teacher so having opportunities outside my own TUSD schedule and commitments is tricky~  
none

I wish college counseling and services were more personalized top the students and started as early as freshman year with follow up each year and one-on-one opportunities as seniors.

On some things i disagreed because my daughter grades are going down i emailed to see how i can help her and its been two months since then and no one emailed me back the math teacher didn't

even have the chance to email me. The math teacher is also very sarcastic with students my daughter wanted to make up a test and once her bus was a little late so my daughter didn't come to the exact time the teacher wants kids to be at his class for conference period and she couldn't make up her test just because she was a little late and when she got the chance to finally do it, it was marked late in my opinion it isn't fair because that was something out of our control.

the Miller school staff is amazing and i am sad it is my sons last year. thank you all for the many years of memories. we can literally count on your team whenever we need to.

I think that confrence period should be held during the school day. Students who need it won't get to school early when it is optional. If it was held during the school day it would be utilized by more children. It also makes it very difficult for parents when school starts at different times on different days. Especially when city buses are not an option at Sabino.

Love this school and its faculty! A military family and my daughter loves this school. Her 3rd highschool and this is the first to make her feel valued and good at school.

We need more mental health options

Miller does a very good job at informing us on any news with our child

It is difficult to interface regarding my son's abilities and IEP accommodations with every teacher each semester of high school.

Many of the teachers are not helpful to their students, take considerable time before answering email, and have little regard for students thoughts and opinions.

I can never get a response when I email or call the attendance or front office. You cant leave a message either, fix this please!!

The school doesn't offer enough programs both academically and extracurricular. The last school we came from had close to 100 more programs they offered to students. My kids were disappointed they won't have the same opportunities as they had at their last designated high school. Also your system for notifying parents on Tardy's and absences is flawed. If my child is tardy, you call and tell me she was absent in one or more class so then I have to stop working to login to Parentvue to figure it out. Why cant you call and the message be your child was tardy in period #? or your child was absent in period # it just makes no sense.

I love that my son's school is a perfect fit for him and to meet his needs!!! He is always excited to go to school which makes life easier for me!! His school encourages him to be the best version of himself...as a parent what more can I ask for!!!

Wish teacher planning/training days were in a Monday or Friday as opposed to the middle of the week

Wish teacher planning/training was on a Monday or Friday as opposed to the middle of the week. The middle of thee week throws the kids off their schedule and Monday or Friday is easier for parents as well as for planning vacation or appts

Everybody is friendly and appreciative I appreciate Miller and all the staff it's A+ School .I

**WE NEED MORE EXTRUCTION.**

We are very satisfied with our school, but one area I see for improvement is around homework. Often times the instructions for the homework are not particularly clear so even though I'm helping my child I'm not sure if I'm instructing them correctly on how to complete the assignments. Also, more information on the the general literacy development and math development approaches would be useful. I feel like the way these subjects are taught has changed a lot since I was in school, so a bit more information would help me support my child in a way that aligns with how they are being taught in the classroom.

Sabino has so much more potential. Some front office staff are terribly rude to students/parents. New Principal is fantastic, though. Hope to see more improvements soon.

The courses could be more challenging. My child did more difficult homework when she was in kinder.

We appreciate the IEP support at Sabino

Thank you to the very responsive Principal and dedication of the staff.

We love Sr. Barcelo. He is the most wonderful teacher for our son.

Find info provided on late notice, need more info on working with bilingual school at home more details and tools, still waiting for tutoring services, work is very advanced level consider basics were minimal during pandemic school my student does like her school and teachers

Homework is an essential part of learning and strengthening what is learned at school. Thankfully, this year my students teachers all provide them with homework packets. However last year we had a teacher that did not send any homework or projects and we were in the dark about what our child was learning and where he was falling behind. As much as teacher hate to grade homework, that's not an excuse not to require homework.

There is minimal communication about my child from the school. I barely know anything about what my child is doing or expected to do.

We love Banks and all the staff there. My children have attended Banks for the last 4 years and I have had nothing but positive interactions with all staff and teachers. My kids love their school as well!

I wish more effort were being made (maybe effort is being made?) at the school to truly incorporate Freshman into clubs or community building outside classroom. My freshman is eager to transition to online school, and I know if he had a stronger community base at school, he would be happier attending in person school.

I think the teachers and staff at Davis are phenomenal. For health reasons I haven't been able to participate in PTA or other events as much as I would like, but I certainly feel welcome and encouraged to do so.

My son is in 6th grade and gets bullied every single day and NOT ONE person has done anything about it and I've spoken to them more than 4 times

The new Tuesday/Thursday schedule with 8:00-9:00 "conference" days has been very inconvenient for myself and my child. I work various shifts usually starting at 7 or 8 AM in the mornings. My child does not participate in this conference time, as it is optional. She would rather catch up on sleep, as I am sure most children at this school do, this is of no benefit to her. I am the only person that can take her to and from school, the bus schedule has not been off set to accommodate this new time. My daughter and I refuse to have her sit around for over 1.5 hours waiting for school to start. This is likely an inconvenience not only for me, but for other parents and students as well. My daughter will benefit from being in school from 8-3:15 every day, even early release days are not beneficial for the students. Please make changes to the schedule!

good school

Some late notice on events and resources

It is a great school

Good reading program

American

I don't receive a lot of information informing me on my children's education every now and then they will send some type of email but it doesn't pertain to what my children are doing or are involved

As PTO President at Marshall, I can say that our parent/family involvement is amazing! This can be seen in our test scores, events, and A rating of Marshall.

Love Bloom all da way . They are the best

My child do t receive homework like I would like I accidentally answered

Need to restart job programs that were shut down during the pandemic. For 10 11 and 12 grade students.

Very Happy with the school mostly but wish I had more resources of learning to work with my child at home like programs, work packets and workbooks or materials to help aid with learning. I have received a few in the past but not lately.

I've asked about a tutor for my child several times since he is failing in math but I cannot get the help we need!

The older lady in the front office needs to be a little more welcoming. They're the first ones people interact with.

Tucson High needs more supervision of students.

So long as the curriculum does not veer off from actual education will be satisfied with this school. Also would like to note that any student's repetitive bad behavior should not be tolerated. The teacher's should have support needed to maintain safe learning environments.

My child just began matriculation 4 days ago

My son loves UHS!

The only teacher I will complain about is Mr. Tarbow, he is very condescending. He thinks he is more knowledgeable than anyone else, treats kids like he does not have to respect students but they have to respect

Thank you

Too bad white ethnicity is not considered minority for my child to get program help- from reduced lunches to college

I am completely satisfied with staff and the education my child receives

Am happy to have our kids attending this school

All the staff I have met in school has been very nice and helpful!

University high school deserves more funding to upgrade facilities and it deserves a campus I was on

None

I wish school let out earlier for them to have real time with family, having only a few hours isn't enough

I am pleased with Henry Elementary and how they have supported my daughter's learning. The staff is excellent and I'm thrilled to be involved with her schooling. Thank you!

If they allowed parents to be more involved that would be great. It feels like a prison trying to do things without having to fill forms or ask for permission

I was provided data and information regarding my daughter's progress at our first middle school IEP meeting last month.

Need help for his homework online I don't understand everything and didn't provide me an interpreter for conference what going on Please contact me 5204471844

Bien.

School does a good job but some teachers don't provide enough notice on when tests are

It was a VERY rough start with the new principle. Things seem to be leveling out. I hope that trend

continues.

The 6th grade team last year was very active and communicated. This year there is minimal communication and engagement events are not widely communicated beyond the website. I feel a lot of apathy from administration. My children succeed based on home supports. Math has been a strength.

ludachris60@yahoo.com

Some of the questions could have used an "I'm not sure" option, specific to resources. I haven't explored them but tried to go off of what at least comes to me via email and voice mail recordings

Sabino is doing a great job. I am very happy with my child's education.

I messaged the VP slated for my child to request a different counselor for my daughter because the one slated has the impression we were inconveniencing her at class sign up and just did not give a welcoming vibe. I would have emailed the head of the consent department, but she was it. I never heard from the VP. Teachers send out emails on a semi regular basis. I have constant communication with my son's teacher. Like I said in my other comment, an option is needed for neither agrees nor disagree as some of them I didn't really have an answer for.

No test data

Office workers should be courteous and friendly. No smiles no greeting ~ like you are interrupting.

I have been very happy with my child's education. He has excelled in all subjects in class. His kindergarten teacher has been awesome.

School has failed to inform me of several important issues regarding my child(ren), as well as, failed to inform me of decisions regarding my child in a timely manner prior to decision being made. As a result, I no longer have confidence in the competence of the staff. I am also concerned with the safety of my children and do not have confidence in the staff to keep them from being targeted and treated with dignity and respect, as they should. Everyday I feel I'm dropping them off into the Lion's Den.

The school is basically on lock down and very unwelcoming to parents except when there is a special occasion.

The school campus outside is FILTHY. there is so much garbage, over grown weeds and other things. It's embarrassing as parent and even embarrassed my first grader.

I hope everything continues the way it is now

The questions in this survey are not great. The teachers at my children's school are fantastic. The administrative staff is hit and miss (mostly miss). The principal is arrogant and doesn't return any emails (literally within the space of 2 minutes, he said he has over 400 unread emails, but email him if you have any questions.)

No comentarios.

The Principal seems to need support

N/A

This does not make enough room to write a great comment

Sabino's campus needs upkeep. Maint workers are not around. Athletic fields are rundown and some of the worst I have seen among other high schools. Student to teacher ratio is poor.

This is our 1st yr at Henry..not a lot of written communication about anything. I was part of PTA at the last elementary but at Henry I don't know if anyone is involved.

Carrillo K- 5, ha sido una excelente escuela para mis hijas. Los maestros y el personal son excelentes.el

Marshall does a good job at communicating with its families.

School administration is slow to respond to questions and concerns, if they reply at all, and are often

dismissive or argumentative. Communication from the school is late and filled with errors. The recent addition of mental health curriculum seems ill planned and does not provide adequate time and support to be effective.

I appreciate the efforts TUSD put into improving my child's education. Thank you!

Staff could improve on how they talk and interact with the kids i have witnessed very negative comments being made to students as they are leaving for the day. My belief is that when i child is respected and encouraged they react in the same nature rather than acring out . Communication has gotten better over the last year from how it was before I can say the school is heading in the right direction but Still have areas that need improvement

Not all teachers offered conferences

Nothing

We love Pueblo Gardens!

All good

A huge obstacle for my family is lack of adequate transportation options for my child to get to school. The hubs do not work and I'm not confident that TUSD is doing all it can to hire more drivers so that my children can be picked up closer to home.

I would like to have more communication from my son's teachers because I get constant communication from my daughter's teacher (she is in Ms. Ezzo's class)

Great school, great basketball program,

The school should work on tightening up building accessibility. When I drop off my son Ill press the button and the door is then opened but not once have I ever been been stopped for identification. Also other times children who are running late hold the door open allowing anyone to walk in. The children should also be taught a few lessons on safety protocols. Making sure they understand that they shouldn't be holding the door open for anyone but only allowing themselves in. Any adult coming to the door during school hours should have to buzz to get in and identity should always be verified as well as their purpose for being there. Any and every safety measure should be taken at all times to ensure the safety of our children.

I love Carrillo, I believe it's a great school for any young child to attend!

we need pto at our school, principal doesn't see interesting in doing one

Been saying this for years now even before Covid , if the school can provide some sort of child care services in the early morning for parents since parents have to be to work at 7:30, way before 8. Most parents are willing to pay for child care in the mornings.

Una buena escuela es Mayer

I work at my daughters school so my answers reflect differently because I know her teachers. I have an advantage that lots of parents don't.

Fruchthendler is a great school! The teachers, staff, and PTA are amazing people who care deeply about the culture of kindness, as well as academic excellence.

The principal needs to do something about how dirty the school is and minimize the fights at the school. The monitors need to be more involved and ensure the students aren't fighting. The monitors need to walk around by the portables to ensure the kids aren't loitering around them.

Thank you for the family nights

I think award assemblies should be implemented

More communication about what is going on at the school has been requested. Nothing has changed, parents are not aware of the activities, events, in school projects, art, music, etc.

Cafecitos are a strong assist to Borton; I would like to see more leadership coming from parents from the community rather than from the staff/admin. More of a parent led group, similar to PTA.

TUSD, and by extension my son/daughter school as well, is run by anti-American fascistic bullies. Okay, enough name calling...if you really cared about kids why do you allow pornographic materials in the classrooms and libraries, at all grade levels? Why do you teach critical race theory? So many examples of your wickedness and hypocrisy, too little time. Besides, you probably don't even read these comments anyway.

Really love my child's school. BUT title9 has some issues that I hope can Be addressed soon

Thank you for this wonderful,learning new experiences,ups an Downs but always ready to start again for this an beyond to all the staff at Palo Verde high magnet school for all the help, encourage,support, wisdom sharing this last 5yrs from Principal,teachers,front office, cafeteria, custodian ,monitor etc..this is our last year my daughter Graduation it's this year..Thank you.i will still support my community school.TUSD..HURRAY.....

I don't think the new principal is creating a safe environment. My child's math teacher will not meet outside of her planning times. But Sunday, the counselor, is stellar! They help me and my child find help, resources, and answers.

Estoy en una escuela de inglés, pero igual me gustaría que hubiera más personal que hable español, es difícil poder tener una buena conversación sobre los temas importantes de mi hija, no es lo mismo hablar tratando de entender el idioma que hablar 100 % y entenderlo todo, mi hija está atrasada y eh pedido tanto tutorías o más ayuda para ella y no veo mejoría

Sad that my senior couldn't take a single senior class in his senior year due to the counselor not fully helping us understand the situation last year. It was too late his last year when finally another councilor could take the time and explain things better this year, but it was too late by then because the damage/situation of classes were done. No, I don't need anyone to contact me about my comment. It'll be over in May.

Whitmore is awesome!

multiracial

We are extremely pleased with the opportunities our daughter has had at Dunham School, both educationally and physically. Our daughter is challenged in the classroom and loves it! She also enjoyed being able to represent her school by joining the X-country team.

Sabino is an excellent high school. We are pleased with our son's education. Thank you.

I have never met a staff that is so involved with helping. The best decision I could have ever made was moving my son to Dunum.

I don't know how to request a p/t conference but my son is struggling and I wish I had one last quarter. Idk how to help him, he gets so angry when I try.

You need to add "other" to your race catagory

Peoples' race is important only to racists. It appears race is important to TUSD. What does that say about TUSD? Also English is the official language. Start forcing these illegal aliens out and teach in English only! Your holding back the rest of the kids pandering to noncitizens.

Love the communication we have received whenever we have a question or concern. Biggest concern is that we get no information, notes, or updates from the school OT. No contact whatsoever this year, I have had NO idea what my child is working on in OT at all this school year. No notes were left by the OT at PT conference either. Most special needs parents would appreciate that information.

High school should be the students responsibility so this is why so many "disagrees"

The homework packets should come with resources for the parents to understand the material.

Additionally, some of the homework packets come with little to no explanation on what is expected.

I think the school guidance counselors should meet and communicate more regularly with parents and students. They only reach out when there are issues with failing grades. Students that are "average students" are just ignored.

I love our school. I would like to see some homework for my first grader - an activity handout a night that is not graded would be helpful to try and get him in the mindset of school time at home.

My girls have been at Davidson since Kindergarten and I'm very happy with the school.

The school is doing good overall, I wish I was a proponent on how the cafeteria and lunch distribution occurs because sometimes the line is long and my daughter decides to not eat because she doesn't want to stand for so long, so I think they can improve on the process.

THANK YOU FOR ALL YOU DO FOR MY STUDENT

SCHOOL NEEDS TO WORK ON THEIR COMMUNICATION WITH STUDENTS AND LEARN ABOUT HOW THEY LEARN ESPECIALLY THOSE STUDENTS WHO MISSED THEIR 1ST YEAR OF HIGH SCHOOL DUE TO COVID-19 THEIR STYLE OF LEARNING IS MUCH DIFFERENT DUE TO THIS!!!!!!!!!!!!

NA

Thank you for taking your time to teach our children

A lot of the questions here do not seem applicable to HS students,; for example, the questions about receiving info about how my child learns. To UHS's credit, I do receive lots of information about moving on to college. I only wish UHS had more counselors available; the high number of students assigned to them makes communicating with counselors tricky. As for communication with teachers, at a HS level, I can't seek teachers to discuss concerns without taking my child's opinion into consideration. From her, I hear complaints about busy work, disorganized class lectures, and unclear directions/timeline for assignments. My child is the one who feels that if she or I bring things up to teachers, her grades will suffer. I feel like my hands are tied. When I have emailed teachers with requests for information, they have always been prompt to reply. However, when it comes to any sort of conflicting situations, I just don't feel like I can reach out to try to hear the teacher's side of my child's complaint. What is UHS doing to encourage students to speak up and advocate for themselves? It's a useful skill to have in preparation for college.

TUSD family engagement team does a great job at creating community events along with TUSD NASS. My son's school does lack in communicating events and sporting events at school. My son's teacher does communicate regularly through Class Dojo and responds to any questions very quickly.

I hope my kid graduates on time. I just want all of this to be over. You can tell everyone is burnt out. My kid is failing and only one teacher has made an attempt at contact. My kid is anxious and depressed. She has a 504, but no teachers use it. We're tired of advocating with the school and are just focusing on loving her and getting her support outside of school.

My daughter transferred from Bloom Elementary to Erickson Elementary so I haven't had a conference with her new teacher this year

Wish they had more parent involvement activities

I feel like the academic/administration structure of Tucson High is not able to keep up with the size of the student body. It is so large that the teachers do not seem capable of having relationships with the students/families. For instance, my student has had F's and I have not been made aware of this by the school/teachers. The only way I find out is when I log into ParentVue (nothing from the school, no communication, no assistance, etc). I even have to check ParentVue for the report card (it seems like if TUSD sends 1 piece of mail/yr to the home it should be the report card - this should be a mandatory mailing). Poor school communication! Appears to be poor effort from the school! (I doubt this is the

intention, but this is how it feels).

The student resource specialist and family resource specialist at Doolen has been phenomenal at helping to find resources, supporting my family during the most difficult time in our lives, and providing assistance in any and every way during this extremely stressful period in my life. They are truly special ladies!

We are very happy with Bloom Elementary and the staff there. Cafeteria food could be much better though.

Thank you

I would like for award assemblies to take place again. To recognize and encourage students

As I noted in my comment in question 23 (Barriers preventing Parents from being involved with their Child's education), Borton's policy of no homework had made it difficult for me as a parent to help my daughter feel competent in her math studies. While she does currently perform at grade level, I have no ability to follow her progress and help facilitate understanding on a daily basis. Overall, we really like the school including the culture, teachers, administration, and support staff.

I really like Tolson, I would like to give a special thank you to the teacher Ms. Hicks, Mr. Canchola, Ms. Soto, Ms. Meke, for going above and beyond in the classroom. The office staff and and Mr. Wilson who are always welcoming to the students when they come into the school. And, finally Ms. Pena for always checking in on my daughters progress and making sure that have the services they need. Ms. Pena helped us with additional services for my daughter who has sickle cell.

Better communication needed for lunchtime procedures

If you question the principle Osollo In regards to your child's development or environment at school, she blacklist you and shuns you. I haven't seen this level of Control and superiority since Hitler

I disagreed on many of these, because I get the notifications from the district, not from the individual school. So while I am well informed about things that are going on in the district, that information comes directly from the district, not from the school. I think it's unrealistic to expect the school to advise parents about districtwide things. Also, my student is very high achieving, so many of these things did not apply. I was unable to Mark did not apply. So I marked disagree. The survey has major faults.

Love this school, teachers and staff! I think it would be great if the communications to/with parents was more regular and/or streamlined. For example, some things come via email, some on Class Dojo, some through WhatsApp, some in emails. It's hard to know where the information is going to come from, and then hard to find it again when you need it.

Very pleased with Miller teachers and resources

Henry is great!

In regards to no teacher conference .... it was my fault i didnt attend. i forgot about the time but his teachers were available to meet with if i hard logged into Zoom. My doing not the schools.

Thank you

I have updated my contact information but still do not get any messages or phone calls regarding my child.

My child's teacher has not been receptive to requests for additional resources to help my student even though we ask her a week in advance. Her learning environment is terrible- there were mosquitos in her class a couple months ago and no ac for way too long in the extreme heat. I don't feel this is a great school for my student this year.

The teacher asked me what time would work best for the P/T conference. I wrote back saying pick whenever, I don't have anything on my schedule. I never heard back. But my son had an IEP meeting a

few weeks later.

My son is in preK and special needs and no meeting yet on progress or therapies.

My son has attended Manzo since pre-kinder and we have always felt welcomed and heard. If we had questions the teachers and office staff had answers. If my son needed help they would take time out of their busy schedules to address my son academic difficulties. Mr. La Turco's outgoing personality makes him very approachable with the students, teachers, and parents. Manzo is tight knit community with a big heart.

There needs to be more bus drivers and bus stops. It's like I live in a third world country. It's sad.

Liaison is the best!!!

The professional learning day really needs to be held Mondays or Fridays. Having it in the middle of the week messes up family household routines, and also causes childcare issues. Please consider this change.

I trust that Sahuaro High School is doing the best it can to educate its students and sometimes goes beyond the call of duty. I very much appreciate the leadership of Dr. Estrella and the availability of teachers. Special THANKS to Lynne Cassetta.

Excellent school and the best program my son has been in since he started pre-k with tusd.

No comments. Muchas Gracias!

The teachers are usually quite good at . The office staff not quite so muc, but it has improved a little bit..

Communication last year about academic troubles was not great. Has definitely improved this year

I have two children at this school and it feels like two completely different experiences. With my older child, the teacher is very engaged and communicative about academic progress, expectations, and other happenings. She sends home regular newsletters and is very responsive in emails or Class Dojo. The other teacher barely responds to emails, does not communicate with parents via a newsletter, and is not clear about learning goals or progress - to the point that it almost seems like she is unsure of it herself. It is very disheartening and frustrating as a parent. The school communicates about some school events, which is beneficial. Recently, though, parents have been given the impression that they are not welcome on campus. Parents were told they are no longer welcome to walk their children to class and participation in PTO and site council or other places for involvement have been mentioned occasionally but are very downplayed, other traditional school events have been axed, and some parents have been told directly that they are too present at the school. I understand there was an incident with a parent at a high school last year and I appreciate attempts to keep all students safe. However, this is an elementary school that traditionally has a high level of community and parent involvement. I am not alone in feeling like parents are being excluded from school involvement this year.

There have been times where the office staff and other staff members have been rude in their demeanor towards me and have said unnecessary comments.

See above.

We love Whitmore! The principal is the best. Mrs. Williams is an amazing teacher.

Principal is hard to get in touch with and does not respond to email

I feel happy with my child's education at Sam Hughes.

We, like many, are a two working parent household and would appreciate bell schedules and extended day offerings, even if at additional cost from current, that didn't disrupt the work day. Currently our school dismisses at 2:45 MTThF and 1:45 on Wed. Teacher PD is extremely important

and we are very supportive of our teachers and their professional development, but the bell schedule is very difficult for working parents.

Some teachers seem to pick on students in front of their class and are rude. My kid says that they are disrespectful and also use bad language including the N..... word in front of the class. I don't know what that has to do with math or English.

I am a proud parent of Marshall elementary. I appreciate the staff and teachers there compassion for the students is immaculate and they're willingness to work with each student individually and learn their personalities, it is much appreciated!

It's a wonderful school!

I appreciate the survey. And this was helpful. Thank you

I'm a fulltime mother and fulltime job, so nothing can keep me from being in my kids education because of work, volunteering and being involved are hindered. But I appreciate everyone at Roberts Naylor K-8, you are all amazing, thank you

Thank you

None

Sam Hughes is a great school and I feel valued as well as my child. K-5 have been great memories and prepared my child for the next level

I appreciate the school and TUSD District for the Kidco Program. It has been a great help for single father like myself who works full time and don't have childcare. It saved me from a lot of stress and hardship.

I appreciate the school and TUSD District for the Kidco Program. It has been a great help for single father like myself who works full time and don't have childcare. It saved me from a lot of stress and hardship. Thank you to both my Girls teachers. Mrs. Zlyks and Mrs. Reddix. Thank for such amazing work towards my daughters. They have a long way in their education since they were placed in your class.

Mrs Robertson has been amazing for me and my preschooler. I couldn't ask for a better teacher for him. Thank you!

I would like more support with having my child receive academic interventions.

I LOVE my son's school. I love the fact that they are so attentive to every worry or questions I have!

I do wish Sam Hughes had more afterschool "clubs" and tutoring. I miss when we had community schools in 2019.

I believe that the school shouldn't make people with criminal records feel ostracized and alienated because you run background checks on volunteers. I don't want the school to not allow me to volunteer with and for my own child.

Miles is an amazing school and community!

n/a

Overall we have had a good experience with the GATE program at Doolen. The communication with office staff can be challenging as they often do not answer the phone. The last time I called the person who answered seemed annoyed that I had interrupted her morning.
