

University of Arizona

Project Familia

**APPLY NOW!**

The FAMILIA team is proudly working with **Pueblo High School**, **Catalina High School** and **Rincon High School** for the first cohort of the Los Gatos program! As part of the program, the high schools will receive \$5,000 per semester that can be used on expenses related to activities and materials that support college-going culture and support for teachers to become credentialed by the Higher Learning Commission to teach dual enrollment courses, specifically pre-calculus mathematics courses. By preparing Hispanic and minority students in pre-calculus, this project will increase the likelihood that students persist through STEM coursework in college and obtain a STEM degree.

Learn more about the Los Gatos Hispanic Serving Pathway program by emailing [coe-familia@arizona.edu](mailto:coe-familia@arizona.edu).
