

## VII.E.1.d (2) Family Engagement Parent Survey Results SY2023-24

**2488 Responses**

**0 Skipped**

Q1. My child attends:

<b>Answer Choices</b>	<b>Responses</b>
Elementary School	1041
Kinder-8 School	316
Middle School	320
High School	757
Alternative School	54

Q2. Please select your child's elementary school.

<b>Answer Choices</b>	<b>Responses</b>
Banks Elementary School	52
Blenman Elementary School	13
Bloom Elementary School	18
Bonillas Elementary School	31
Borton Elementary School	21
Carrillo Elementary School	21
Cavett Elementary School	10
Collier Elementary School	7
Cragin Elementary School	10
Davidson Elementary School	14
Davis Elementary School	45
Dunham Elementary School	16
Erickson Elementary School	5
Ford Elementary School	24
Fruchthendler Elementary School	47
Gale Elementary School	43
Grijalva Elementary School	10
Henry Elementary School	18
Holladay Elementary School	11
Howell Elementary School	23
Hudlow Elementary School	8
Johnson Elementary School	16
Kellond Elementary School	27
Lineweaver Elementary School	43
Lynn/Urquides Elementary School	23

Maldonado Elementary School	4
Manzo Elementary School	19
Marshall Elementary School	31
Miller Elementary School	13
Mission View Elementary School	24
Myers/Ganoung Elementary School	33
Ochoa Elementary School	5
Oyama Elementary School	49
Robison Elementary School	29
Sam Hughes Elementary School	40
Sewell Elementary School	7
Soleng Tom Elementary School	12
Steel Elementary School	6
Tolson Elementary School	7
Tully Elementary School	44
Van Buskirk Elementary School	11
Vesey Elementary School	18
Warren Elementary School	8
Wheeler Elementary School	25
White Elementary School	67
Whitmore Elementary School	21
Wright Elementary School	12

Q3. Please select your child's K-8 school.

<b>Answer Choices</b>	<b>Responses</b>
Booth-Fickett K-8 School	19
Borman K-8 School	21
C.E. Rose K-8 School	12
Dietz K-8 School	5
Drachman Montessori K-8 School	14
Hollinger K-8 School	20
Lawrence 3-8 School	27
Mary Belle McCorkle Academy	41
Miles Exploratory Learning Center	28
Morgan Maxwell K-8 School	19
Pueblo Gardens K-8 School	6
Roberts-Naylor K-8 School	35
Robins K-8 School	39
Roskruge Bilingual K-8 Magnet School	25
Safford K-8 School	5

Q4. Please select your child's middle school.

<b>Answer Choices</b>	<b>Responses</b>
Alice Vail Middle School	27
Dodge Traditional Magnet School	65
Doolen Middle School	35
Gridley Middle School	39
Magee Middle School	7
Mansfield Middle School	64
Pistor Middle School	14
Secrist Middle School	31
Utterback Middle School	7
Valencia Middle School	18
Wakefield Middle School	13

Q5. Please select your child's high school.

<b>Answer Choices</b>	<b>Responses</b>
Catalina High School	52
Cholla High School	87
Innovation Tech High School	34
Palo Verde High School	9
Pueblo High School	62
Rincon High School	31
Sabino High School	169
Sahuaro High School	60
Santa Rita High School	18
Tucson High School Magnet	156
University High School	90

Q6. Please select your child's alternative school

<b>Answer Choices</b>	<b>Responses</b>
Project Moore	0
Teenage Parent High School (TAP)	0
TUVA	50
Mary Meredith	0
Other	4

Q7. I feel welcome and valued as a partner in my child's education at this school.

Hispanic	1255
White	1061
African American	260
Asian	114
American Indian or Alaskan Native	182
Native Hawaiian or Pacific Islands	45

Q28. Comments:

I love having my kids in White Elementary and the staff
Bun trabajo TUSD
None
THS offers great resources. They are lacking security and more control of students. Kids feel unsafe and it's not a good learning environment. Just look at the bathrooms, this atmosphere discourages children.
tucson high has barely any engagement with parents. parents don't feel supported or that the administration wants us to engage or be involved. it's a shame. tvis used to be a good school.
There are no textbooks. My child would benefit from textbooks.
Coming from Rincon, Sahuaro is a night and day difference. All together much more professional and welcoming from every single person I have encountered. Sally the school nurse even called after the weekend to make sure my kid was doing well!
My son still does not have a textbook for his AP Environmental Science class. Many students also started the year without a working computer. This seems to be more of a district level issue.
For parents new to Saguaro (freshman or new to school) better orientation about how homework, assignments are communicated to the kids. Status of temporary teachers such as 11th grade English. Our student is an exchange student. She asked the counselor if she could meet the other exchange student and she never replied. By chance, they finally met. I feel like this school is so big, kids are only #s. Everyone is too busy to do the small things that sometimes make the most difference.

All staff at Bloom, especially my dtrs teacher, Ms. Haney, have been excellent. I wish people in Tucson would vote to support schools because Bloom lacks so much in the way of infrastructure- the field is awful, there is NO gym space to do PE when it's hot and insufficient shade outside. Teachers are underpaid while administration, specifically Mr. Trujillo, is paid a base salary of \$230k, a 14!!! % increase, asking with other perks. When is the last time teachers got a 14% increase? This is short sighted and greedy. Perhaps administration could forgo their pay raises and give that \$ to the teachers instead.

Sahuaro has been an amazing school.

We did not have an English teacher several weeks into 1st qt

Make sure all seniors have information for college acceptance procedures available

There seems to be very little happening outside of the principal newsletter. The PTA is led by someone who doesn't even have a child here. Emails I've sent to the principal and admins have never been responded to. Unsure if this is because they are overwhelmed and under-resourced by TUSD or simply disinterested.

Not satisfied with the principal. She is not communicative and allowed my child to be bullied and physically assaulted. She does not have a good reputation among parents and the community.

Me gustaría que los maestros informaran a los padres sobre los temas que están aprendiendo en clase para así saber cómo ayudar en casa a nuestros hijos ya que no tienen tareas lo que como padre dificulta saber qué están aprendiendo en clase.

The school looks and feels very welcoming. I can see the changes made and it makes me happy

Using an app like Class Dojo is an overwhelming and difficult app for parents to use to keep up with their child's academic progress. There are too many announcements to keep push notifications on, so people turn them off and miss important information.

Some questions could have uncertain as a response

Don't care for the new principal. She is rude and had an attitude in her tone when I've spoken with her. SHE IS NOT WELCOMING... Unprofessional. Front desk staff Kathy and Stephanie, Nurse Kelly. All wonderful women very helpful, informative, and welcoming.

I would appreciate info for each grade level about what academic concepts will be taught each year and what skills/ emotional milestones we can expect at each age level. Ms. Runge did a great job sharing work samples, test results, etc. at our parent-teacher conferences. Thank you!

I wish the principal of Secrist Middle Scho would respond to contact attempts. I have had several attempts to contact her go without any response or follow up. The office staff and academic interventionist are both very communicative and easy to get a hold of.

There needs to be better communication as far as joining pta and school activities.

We love Robinson elementary and the staff and principal is amazing here!

I would love the opportunity to be more involved in my child's school. The opportunities are just not there.

We had a situation with another student. We did not intend for the student to get into trouble and would have much rather heard the child and family received counseling and resources to help the child.

Need better access to parentview

My child is in exceptional education and some of these questions are not particularly applicable, but overall our teacher and school have been great and incredibly engaged

The school does not provide school activities for the kids and when we pay they cancel the field trip. The principal and staff are rude to children and parents. The principle does not have any incentives for the kids there is no school spirit. the safety for our kids is a concern there is a lot of fights in class

and after school. Sports there no options for kids expect one sport basketball.

Personal

I am frustrated by the school/teachers marking him absent when he has never been absent yet this year, it is always due to mistakes on school part, scheduling him in 2 classes at once, not changing it after knowing; late school bus, still marks him absent, I am tired of calling and maybe getting through and even when talking to someone his attendance records is not accurately reflected

Me gusta mucho Oyama para mis hijos

Need more support for dual language, is hard to try to learn when you are Hispanic with two language.

Most all of them

I wish there were opportunities for positive recognition of students, such as Student of the Quarter PBIS assemblies, honor role, etc...

Thanks for everyone's hard work and patience with our kids :)

I would like to see more engagement from the principal and vice principal with parents. There's a lack of communication and lack of activities that can get family engaged I. Unfortunately, this school has become very boring. To encourage students to do better there should be ceremonies to praise them but instead they only have bull dogs best. So, students making improvement, studying, trying hard to improve their grades get nothing! They dont even have father daughter dance or mother son dance like many other schools do. Very disappointed with the lack of engagement with the community (students/parents)

Ms. Tapia and Mrs. Robles are awesome!

I feel I can come to Lawrence School and ask for assistance for my 3 kids and I will be directed where I need to go and to whom I need to speak. Thank you.

My son unfortunately has not had a consistent teacher this year.

No comments

The principal or assistant principal doesn't engage with families. There seems to be no school spirit at the school.

Excelente personal

Everything at this school is great maybe just starting a PTA or PTO at this school for more support.

I have a good communications with both of my sons teachers. They were also made aware that they can contact me with any issues they may have with my sons (3rd and 4th grader).

This is only our 6th year with Ms. Bokasky at Sam Hughes and we continue to be very happy with the quality education and care Ms. Bokasky fosters. We have had excellent teachers and feel so lucky to have Mr. Cueto this year. My son says he is the best teacher ever!

There are several spots within your survey that you could add other and comment section. For question 22, I chose other because the main barrier is the autonomous teaching styles and lack of rigor through not assigning homework. I am a product of TUSD and my experience was always having homework. With the Covid gap, it's a surprise we don't have more rigor or daily reading logs or daily math facts or daily anything. Kids are not encouraged to learn and teachers lean too much on digital programs to teach instead of old school paper pencil discovery learning. "Involve me, and I will learn" have a child do IXL, Apex and I ready as their only way to teach does not benefit the child.

Autonomous teaching destroy the learning for children. Montessori is supposed to be different. I was disappointed to observe the lack of Montessori style by the teacher. The principal is amazing! Dr.

Celaya is wonderful, but autonomous teaching takes away from the Montessori model.

I am very grateful to all the staff at Davis as they are truthfully caring people. I know they only want the best for our children

Excellent staff!!!!

I have been very happy with the school because my daughter teacher have been communicated with me about my daughter process and I hope it continued that way.

None

A lot of these questions were not applicable to me since my high school child takes charge of her education now and communication with teachers. Therefore I marked disagree because it doesn't apply to me. However, the school does an excellent job at communicating and working with my child.

El personal siempre busca laManera de ayudar en mi idioma

Na

It has come to my attention that there is a sprouting racism in my school community. Also, the parents are showing pride in a negative way that is resulting into their kids bullying other kids. I wish that the school can promote awareness against bullying and for teachers to remind parents that they should behave properly in front of their children because it is not good for children to be seeing and hearing poor social attitude from the adults. An example is that some guardians who pick up their children smell like marijuana, and it is very uncomfortable because a lot of adults and children can smell it too. I don't think that should be normalized because the school is an institution for children to be learning, and not a place for adults to be parading improper things like that. I would like to also comment that some teachers seem to be displaying racism and discrimination after offering a hand to shake hands with, the teacher refuse to shake hands, and had shown that kind of attitude with their fellow teachers as well. We cannot entrust that kind of teacher to be teaching our children even if they are an excellent teacher because they already have that kind of negativity in them.

Some questions are not applicable to HS, or seemingly negative answers simply reflect that parent involvement is not needed for good reasons - things work fine without it, e.g. #14

Very happy at Fruchthendler!

Great school!

Great school!

It would be nice if we received information about meetings/trainings earlier. I just got notice that my daughter is supposed to attend a one hour training for student athletes mid-morning on Wednesday (just a few days from now). While it is professional development day for teachers, I have to work and cannot drop off and pick up my child mid-morning. Also, there is a great Japan trip being planned for summer 2025. Parents were given less than one week's notice to attend a mandatory in-person meeting about the trip (which is nearly 2 years from now). I continue to have to scramble to figure out how to participate or have my child participate in these meetings/events with little notice. Thus, much further lead time for these things would be great.

We are lucky there is Higher Grounds at Doolen. Otherwise, I would not be aware of many things.

The only thing I wish this school would do better at is notifying me when something serious happens at school with my child. I've had to deal with my son getting hurt by another student and not finding out until I picked him up from school and him being really hurt. Also the principal not answering or returning my concerns. Communication from office and disciplinary action could be better.

For the conference parent/teacher, i did not know that I was supposed to book the teacher via email. When i showed up to school,it was embarrassing for me.

I'm very happy with all staff

If your child is white they have less advantages

I would like to be more involved but I'm the sole provider for my family and I work a lot.

Kids receive too much homework

Big Time Good Time Oyama is Good

My son is doing very well and is very comfortable with his teacher's

Teacher is excellent. Admin not supportive.

I love THMS and am so happy we sent our child there for high school.

I have emailed instructors about my child's grades or any issues they have with him in their classes and most of the time no one emails me back. I understand that they are busy and have other students but when I did meet them they all said to call or email them about any concerns I may have about my child. When I do no one responds. When I get report cards the grades are not good and that's the reason for the emails to find out what is going on with the grades. Just more communication and following up when parents call or email them about concerns about the student's grades.

Na

The only problem I have is that we are having to look at two different apps to look at what assignments they need done or have missed. And both apps have different results or the teacher is not updating both apps. I'm always on my daughter about missing assignments and she says she did it already and she's getting lectured about missing assignments. I would love for the apps to be updated daily. Thank you!!

Mrs. Delgado in Preschool is a jewel and a great example of what teachers should thrive to be.

My child has done an excellent job since she started your school and I feel like I've seen a huge improvement from the terrible charter school that she transferred from and how she acts now in Cart at the Ship. Providing such a safe and secure environment and such a fun place for her to learn where she is disappearing

The English teacher and Choir teacher are great at sending information weekly! I haven't heard much from science or math or the other elective courses at all.

Mrs. Tester needs a clone! She is an amazing asset to Catalina!

Los maestros y maestras de mis hijos son muy buenos con ellos! Muy motivantes! Mis hijos tienen mucho afecto con algunos maestros

Numerous attempts to speak with the principal and she doesn't seem to care about her students well being. Many issues with teachers yelling at special kids and no further actions have been taken. The principal purposely ignores parents and having to contact the district just to get answers for MY CHILD.

Administration is too quick to defend staff, teachers and coaches. The common everyday excuse is that it is the person's first year. This is not an excuse.

This school is the absolute worst I have ever come in contact with. This school is more worried about calling parents over attendance when my child was on a field trip! But can't send young woman home for wearing inappropriate clothing where their butts are hanging out along with other body parts it's unacceptable

Wonderful school.

Early release on Wednesday does not work. Use that extra hour to be released at end of school year or extra time off during holiday time.

Thank-you!

Extremely satisfied with Sam Hughes! They are the best and communicate very well!

I am very pleased with Henry Elementary and their consistent dedication to making sure my daughter is educated and supported. As a parent, I feel valued and integral to her success. Henry Elementary also has a fantastic sense of community and belonging. I'm very glad to be a part of my daughter's success and to have the support that we do through it.

I believe there are too many student fights in school, not sure if there are enough monitors. Also, the

use of cell phones. Why are they acceptable in class? I think they should be a strict rule on that. Teachers complaint but nothing is done about it.

There are not resources and services for children who are dyslexic - My child received EIP and reading services at the school - but not additional information on how to test, assist her in learning or finding community resources.

Norton is awesome and deserves an A! Shout out to Jenna Evans for being amazing!

Me gustaría algún taller para papás con hijos con Trastorno de Déficit de Atención

The communication between the teachers and parents is horrible! The teachers never get back to you when contacted are never available. What's the use of having class dojo or an email if you don't check then or answer back! And front office never knows anything either!

School staff are friendly and always welcoming

Creo que habría más ayuda de parte de los padres si la escuela involucrara más a los padres de otras nacionalidades con información en su propio idioma ya que toda la información que se envía es solo en inglés, eso haría que los padres en casa nos involucráramos más en las tareas de nuestros hijos y así junto con la escuela y los maestros hacer un mejor equipo para asegurar el éxito escolar de los alumnos!!!

Looking at leaving school due to teacher agenda and lack of sports.

The school year starts way too early. It limits summer options and unique activities.

Very happy with the curriculum and staff. Professional and very communicative

Ms Romero doesn't communicate very well asked for testing to be done for my child 2 months not been done Erickson needs some major help

I have concerns about the Principal's abilities to foster a culture of safety, respect, and consistency.

We truly feel the downfall of this school is the principal. The staff that is under her truly are incredible. Somehow Ms Chandler always seems to forget to send out e mail, call parents and update information for families. She's Receptive to advice and won't accept her downfall even though it affects the children and their family. She also seems to be less inclined to help the lower income families.

I always wonder why the school never offers school clubs like student council, sports and fieldtrips, or book club they have the money they just waste money on the Ramada in the front there's not a point to have that one there. I have never seen no one use it or how about the one in the back they should've put it to cover the playground. I feel that kids are really behind in math. It's really old school, the math that they teach.

TUSD is a joke. Transportation takes forever, schools are rundown with incompetent teachers that punish victims and not bullies.

We love our school Family at White Elementary School. The staff is always open and willing to help in any way possible.

Thank you for all you do

This survey is not well thought out. Please consider talking to an expert to get the most out of these types of surveys. Please also make sure that the response categories offered makes sense. Feedback on these surveys will also be appreciated.

Blenman is amazing, I would like to be more involved in any PTO, just do not have the time

The administration at Dodge has been supportive and engaging from day one. I would strongly recommend this school to anyone looking at Middle Schools in TUSD. The Parent organization by comparison seems less organized, but given my interaction with these groups at previous schools I do not believe this is in any way associated with the School Administration. Parent organizations (in my opinion) should be closely "governed" by the School Administration and not the other way around. I

very much trust our educators to do what is best for our children as they are the most educated and experienced with our children in these situations.

Would like Professional Learning Days to move to be a Friday or Monday, vs in the middle of the week.

My son got alot of homework this year , we like that but the 5th grade teacher didn't give out any homework and it was rough getting back in the groove .

Quisiera más información ya que no conozco aún la forma de trabajar de la escuela, quisiera saber cómo va el proceso académico de mi hija

I thank the school for helping my kid specially the office ladies. they are amazing.

N/A

No discipline. My child got caught by principal writing on wall. Only discipline.was given was that I had to pick him up from school.

My student loves Dodge!

For kindergarten, my child complains that school is boring and that she hates school when before she loved school. My child is very active and I had made a suggestion to the teacher about doing interactive learning to engage the child and promote the want to learn with fun. Not sure if my suggestion was offensive to the teacher. I just want to see my child succeed and enjoy going to school like before.

My child's teacher does not provide the level of teaching that I have come to expect. To date, my child has received homework only 3-4 times the entire semester. In addition, the homework that was completed is not marked and returned to the student. Nor are the problems/questions reviewed in class so that the student has the opportunity to learn from their mistakes. In addition, worksheets that are done in class are never reviewed or given back to the students. Students receive no test preparation for any district or State tests. Often times the student is unaware there is a test until the same day of the test. Proper notification should be provided to students so they can adequately prepare/practice for their tests. Ideally, test dates should be established and provided to parents at the beginning of each semester. Sewell received a new principle this year. Overall Ms. Gow has done a good job governing and guiding the school. However, she has made changes that have left the kids upset. She has removed the opportunity for the kids to go outside for a 10:30am break - students must now remain in the class for the break and talk quietly.

I am currently VERY unhappy with my childs teacher. I am unhappy that her 504 plan is not being followed as well as being placed in a behavioral plan without myself, her therapist who works with the school, or even my child being informed!

Great school with regular communication

I want to comment on my students Teacher Ms. Spina, she is a true gem and an asset to this school she has taught my son since he entered this school in Kinder, He will truly miss her next year, I hope we are able to continue to attend this school and that his next teacher is just as great as Ms. Spina

I want to comment on the dissappointment of the Cheer Coach she is a disgrace and should be fired

What I would like is if the school posted more of the school activities on class dojo that involved parent or after school activities like family movie nights trunk or treats book fairs things like that be more involved on class dojo instead of me having to look at their website daily

honestly I do love Marshall for my son I just wish I knew how to help my son in a more effective way with his reading he trys the clever app but if I'm not directly working with him he just kinda scrolls through the pages it's kind of frustrating to watch him struggle so much with his reading because I know how necessary reading is in everyday life and its hindering his other classes because he has a hard time reading the questions but thanks to Marshall for really trying to get him to the grade standard I do really appreciate it

Great teachers and school, very satisfied. Music teachers are superb

Teachers need to be more involved in each student and take time to help them out principal need to be more involved in school

Although this year my son has a great permanent substitute. I would rather teachers would be set before promoting teachers out of the classroom.

We emailed the principal and the counselor and did not receive a response either time from either individual.

Everyone at this school very friendly and always makes me feel welcome

Todos en esta escuela son muy respetuosos y me hacen sentir bienvenida cuanto vengo a visitar

The school itself is great, however we had an incident happen on the bus near the beginning of the school year that was supposed to be handled by the school and still has not been taken care of, so my child does not take the bus anymore so she can remain safe. It was with another child who is also in my child's class at school. The teacher keeps them separated in class for the most part, but it's a shame that my child is not safe on the bus.

The school does provide websites and things to that nature I do get a lot of emails that I don't catch in time.

The School does not provide information or emails about the events happening at the school. I didn't know when Homecoming was, how much it cost and even the time on the tickets was printed incorrectly. The ticket said it would be over at 11:30pm but at 11:15pm all the students were told to leave and my daughter was out in the dark for 15 mins!! This school DOES NOT relay events well but they make sure you get a stupid survey to fill out!!!

I would love it if we had a "Meet the Teacher" where we could just chat about what's going on at the school. I attended the Open House at the beginning of the school year but only had a few minutes in each class and didn't learn much about what my child is studying. Since she's getting good grades we weren't able to have a conference because those are reserved for students/families with concerns. I know it's high school, but it would be nice to feel more like part of the community as a parent. I am hoping as I serve on the UHSPA I'll start to feel more a part of the school because right now, I'm just a taxi for my child.

So long as my child is protected from perversions I will fully support my child's school.

Food boxes and other resources have been very helpful. Thank you Jannette Gastélum for making these resources accessible.

The principal, Mr. Van Schie does an excellent job in being friendly, approachable and communicative. The staff, in general doesn't necessarily follow suit. In some instances it has taken days to receive responses from emails. In the past my daughter has definitely had some struggles in attempting to communicate with the teachers because they seem completely overwhelmed.

WE LOVE SOLENG TOM AND TUSD!

Yay!!

You need someone to proof read your survey. I would like a "neither agree or disagree" option.

More notice of school events would be appreciated. We don't receive notice until the week of

In the communication from the school, there is a lot of emphasis placed on behavioral expectations and none on academic expectations. There is fantastic communication from one of my son's teachers, but nothing else from any school employees. I would love to have conversations about what my son is or should be learning and how to best help him succeed at this age, but the offer is non-existent. We were also not offered a conference because he is not failing his classes.

Thank you Gridley!

My daughter was hoping to start violin this year, missed the opportunity at a different school last year

- now she is going down a clarinet path, which was not her chosen instrument. She has had a turbulent school experience - changing schools every year. I am not sure that her academic records have followed her, - Laramie WY (4) , Anderson elem, Cheyenne WY (3) , Oregon WI forest edge (2), Oregon WI netherwood knolls (1-k)

I enjoyed meeting teachers as the open format conferences. My son has mentioned racial hostility at his school, and has confirmed that there are a lot of fights. I am curious what they are fighting about.

I would like to see English classes for parents too

I know funding is tight but I would like some upgrades to the landscaping of the school.

I wish my child's school had a library that was open to students.

Dodge Middle School provides our child and us with the tools and support we need for success at this grade level.

My child was heard by the person that changes scheduling

Y daughter has a great teacher, as for the principal and office staff I could not say the same not helpful and rude.

This school is not progressive or adaptive at all to the new landscape of college admissions. It's clear that parents are seen as the enemy by teachers and admin and the source of children's problems - so parents are just told to let their children self-advocate and ignored. I will not be returning to this school with my second, gifted child.

Some of the questions do not apply to my child or our family as he is in a self contained class so you should have a box that says does not apply on every question.

No comments

I feel like my child school is disorganized with notifications / lack of communication on activities. I feel liem this is something that needs to be worked on.

The name of the elementary school is misspelled. "Steele" not "Steel"

I receive updates on class dojo when my child misbehaves but I never know when he is having a good day or excelling in a particular area.

Love the school

The school district and preschool/after care need to be responsive to the needs of both children and working families and NOT have mid week in service and training days. While I fully support well trained staff, having these training days on any day mid week (Tuesday through Thursday) is highly disruptive to student learning and to family work and child care schedules. Please consider making in service days attached to existing breaks or weekends, or at the beginning of the school year/quarter. I have heard that teachers/staff were taking Monday/Friday training days off. If that is the case - That is a staff discipline/dedication problem that should be addressed, but not at the expense/not become the problem of families. Tie attendance at those required sessions to bonuses/pay incentives.

Sin comentarios gracias

I feel like the teacher and the majority of the staff are helpful and would just like to see parents asked for our input about what activities can be brought to the school. Additionally, interaction while conducting school activities from leadership would be helpful to encourage the likeliness of parents' asking questions and providing input. Otherwise I feel I receive that from teachers and other support staff.

My Son is in the special program a new student has entered his class and since the new student has gotten there the teacher has to get out of class to be one on one with him. They have to take out all the kids so this student can calm down. I get it every student is different but one the main teacher has to leave and calm down the student is not fair for the other students. They teacher and teacher aids are amazing and go out and beyond to make the rest of the students safe and help them. They do

more then they are suppose too to help my Son and other students to succeed. I am truly blessed for my Son to be in that class with the amazing Teachers.

I would like to take the time to let all staff members know that we appreciate all that they do. We are so proud of our son, he is doing so well. If it wasn't for all the dedication and time everyone takes to be at his side. Thank you all for to help guide him through his growth. Thank you all

More specific procedures should be in place to prevent "fights" and to isolate perpetrators immediately.

The principal is really bad at communicating and I belive hes not the best with students he doesn't help with students that are misbehaving and just give them rewards. And mis patt is sooo rude and she thinks she in charge of everyone at that school

I dont have comments all its great

I

The bottom of this form says it all. I find it amusing that you have not provided a privacy statement as to how you will use my response data. I guess you want to know the identity of the respondents of this questionnaire. Bad idea. Make it anonymous if you truly want to gather honest information about your school district.

This school stopped giving homework a few years ago. Learning at home is not promoted at this school.. Teachers don't believe in giving homework anymore.

I do not feel that there was enough time or chance to sign up for conferences. I also feel that the one and only evening opportunity was not enough. I work as a teacher on the west side of town and my husband travels for work. During the conference week there wasn't enough time to make it.

The engagement level really varies from teacher to teacher; not so much by school. Some teachers are amazingly fantastic and others not so much. For some of the teachers I even wonder what they are trying to teach my child. I am aware though that finding amazingly fantastic teachers is challenging and hence I fully appreciate those that are.

My frustration about teacher conferences is that the TUSD schedule listed Friday Sep22 as the conference day for 9-12 (and it is stil listed as those dates) but yet both UHS and THMS offered conferences on Thursday afternoon/evening. One of my children had a swim meet at CDO and we live on the west side so my choice was either go to the meet to cheer on my child or go to a conference. I can't understand why TUSD would publish a schedule and then allow schools not to follow it. Of course I got no response when I asked for a Friday conference even though that was the scheduled date that I had been planning for since it was on the TUSD website. My guess is I will not hear a response on this oversight but be more considerate of parents who want to participate in their child's academics.

Rincon has been heaven sent! It has been the absolute perfect place for my child. I feel respected and welcomed by EVERYONE at this amazing school. The teachers, admin and staff are INCREDIBLE! It is a gem and I am proud to be a RANGER! Thank you for taking such outstanding care of my daughter! We are so happy to be at Rincon!

My child really enjoys this school is hopeful more activities will be available as a traditional high school. Dances, social events, since there are no sports get creative on how to bring the students together. Such as escape rooms, group games, etc.

I just recently transfered my child. some of these questions dont apply but the school staff has been wounderful and helpful threw the process.

Cool

There's no communication from the principal. She's very unfriendly & there's no spirit at school.

Teachers need to do better at teaching the children

doing a great job.

None
n/a
We love Sam Hughes!
this is our first year at TUSD and has been very welcoming.
Thank You! School staff for all your support.
Our daughter's experience at Tucson High has been valuable and we appreciate the resources and teachers that have touched her life there. Hard to believe it is almost over since she is a senior! Thanks for all you do!
The math curriculum needs improvement. The current strategies are long and drawn out. We should go back to the basics.
The school needs to have access to a bathroom while outside
No homework policy has been detrimental to my child's academic growth
Restroom outside
The staff at the school are often disgruntled, uninformed or don't seem to welcome any comments or suggestions
Teacher is not sending class work home; teacher only discussed weekly benchmark and prodigy work and had no hand done work to show us; rarely responds in dojo; principle not responding to two emails requesting a meeting.
I wish the teachers used Dojo for parent communication, but I won't hold that against them.
Bullying, to much if it, teachers single out a students for pass problems
Why are middle school kids not in different classes? They keep them in the same class with the same teacher. This is not preparing them for high school when they will have different teachers and have to switch classes. This school no longer offers mariachi and other classes that were available. Not satisfied with the quality of the course work being offered. A quarter has already passed and my child hasn't even started learning about ancient civilizations which should be happening according to the state curriculum. I don't want my child falling behind and falling through the cracks.
The Administration is AMAZING at Doolen. They really do Love and care about our kids
Todo bien con la escuela de mi hijo y tusd.
Some of the teachers are very rude and sometimes take my daughters assignments and don't let her finish which leaves her a bad grade and one teacher singles her out being very rude to her
Dodge is the Best! 🐉
We are very Happy with Rincon H.S.
I'm disappointed with my child's 4th grade teacher. She seems to lack motivation to help my kid succeed or helping me to help him succeed.
None
We love Innovation Tech.
I applied for transportation but I never received any documents or emails regarding transportation.
We are not quite sure how PTCs work.
My child is happy at Utterback Middle School
I would have liked a parent teacher conference.
Catalina High School has some of the most amazing teachers. And a very observant and involved principle. Every worker at the school has been so amazing to my child. I do not have any worries about her, while she is at this school. Thank you.
Fruchthendler is an incredible school
El nuevo principal en Cholla se ha esforzado grandemente por dar mejores resultados, estamos

contentos y agradecidos por eso

Would be nice to have school buses for our students instead of having to drive them, several years now without school transportation, it's very inconvenient to a working family that does not live within walking distance.

Thank you for this survey. I think the survey could be improved if there was an option between agree and disagree; such as sometimes/occasionally. I also would like more information from teachers/schools about how classroom management and behavior challenges are managed.

I feel that most of the time when things are happening at the school we are not informed with enough time, to be able to make arrangements to attend (for example Honor Roll assembly).

We would have left TUSD a couple of years ago because we do NOT agree with most of the political decisions the TUSD board, especially Gabriel Trujillo make!!! The ONLY reason we stayed in TUSD was because of the SABINO Principal, Kevin Amidan

At the first conference, some teachers were not there because they were out coaching sports. Didn't know until we read the sign at their classroom door.

Most of the teachers were not there for parents teachers conference, math substitute teacher, not good teaching and low education levels.

Thank you for this! We LOVE Tully!

None

WTF up date your lessons it 2023 not 1923 the information is out making your children fools only hurts you

There needs to be more civics, economics, and history taught. Heavy on the civics, how our government works.

Hola ! Mis hijos se encuentran en un nivel bajo de aprendizaje y me hubiera ayudado mucho que los hubieran puesto en tutoria se que los maestros hacen lo mejor pero cualquier ayuda es excelente gracias

Robins K-8 is the best school. I'm grateful to the principal teachers and staff for helping my kid succeed.

My work schedule keeps me from attending PTO meetings and other work shops.

We had several problems with aids harassing children and general unprofessionalism with a certain teacher. Our complaints fell short as the principal took the side of his teacher rather than a child who had several issues in a class. We had to jump through many hoops to find a fix but there are many issues lingering at Cragin elementary. Examples would be bullying and failure by teachers to report. And failure to take action from the principal. General unprofessionalism with some teachers (bear feet walking around, choosing not to use desks in class)

Responses from UHS principal and vice principal were vague, passed to someone else, or never returned.

Muy satisfecha con esta escuela todos muy atentos y buena educación para nuestros hijos.

Cholla es una excelente escuela!

None

This schools teachers are a complete joke. Miss Ryan the dean of students is the only reason I let my children stay in Alice vail if it wasn't for her I would pull them out but she is wonderful

TUVA has an amazing group of teachers and staff. They have somehow cultivated an environment where we feel like our kid is being taken care of by a whole community. We never felt this in our short brick and mortar experience.

Ms Alvin is a wonderful teacher ❤️ my child needed her so bad and I am so thankful that she is a teacher she is so good with the kids and encourages them she is absolutely wonderful thank you

thank you thank you for her

You have great teachers that truly care.. and Communicate Talking with the children with the utmost respect, giving them advice. My children love their teachers.

None

I wish TUVA had more handwriting for my 4th grader. He has been in TUVA since 2nd grade and he hasn't really been helped with his handwriting (penmanship). Also, TUVA doesn't really inform or encourage parent participation. There is no information given.

Wish it was easier to get in contact with school counselor

Es una oportunidad grandiose porque studs a padres como yo no descuidar el trabajo y tengo un tiempo de checar si estan en sis actividades educativas

Creo que Todo esta bien.

Children should be granted opportunities to be able to call their parents at all times also even if School Nurse doesn't do it. It breaks trust to the parents with the school if our children are denied to a phone call since they take away phones and Apple watches.

Thanks!

My kids attend TUVA but Kellond. Tuva was not in the list

Na

I do not receive the communication desired from my student's teacher, although it has been brought up to her multiple times by myself and other parents. I also do not received information about my student's behavior and academic progress although I have asked the teacher to please do so on a regular basis (agreed to do so during parent/teacher conference). I asked the teacher for specific information and material to help my student prepare for a test since the 1st month of school and I have not heard back from her about it (thankfully another teacher was able to help me with this).I would love for the school to have a better community. We would also love to have family engagement activities (family academic/literacy nights for instance)

Please look into giving working parents pta hours they can attend.

Informed in advance On School schedule

None

Patricia

To be clear I was not offered a conference because my daughter was doing well. However they said if I wanted one I could request one.i didn't feel one was needed either so I didn't. She got straight A's and likes the school. Cross country has been great for her too.

I have a zero access because I am deaf mother of two Sahuaro High School kids.

The principal at White and office manager Lori need more training on how to communicate with parents and how to be nicer to parents. They have an attitude as if they are better then us. Me and other parents know they won't help if we needed them. BUT TEACHERS ARE AMAZING!!!!

I Love Miller, I have two other sons who attended this school and all have been great experiences

I appreciate the involvement that the teachers give of themselves, but it's hard to teach if the student doesn't want to learn. Thank you all for the help and if there are any words of advice, I'd be open to talk thank you again

This caught me at a bad time--I emailed a teacher last weekend and have not heard anything back even acknowledging receipt. It has been a full business week.

none

Thank you for all you do for my child I am truly grateful to have a school like this for my child .

Can the days that the students do not have school due to teacher professional development be planned in such a way that makes sense within the school year. For example, can the Oct/Nov

professional development day be scheduled for the day after Halloween (or the Monday after Halloween if it falls on a Friday or weekend)? I support teachers having the time for professional development, I would just appreciate the days off for students making more sense.

Oyama is the best TUSD school for a child with special needs. The principle, teachers, teachers assistants, nurses and even lunch staff treat me like I'm part of a team. Every member is so supportive and know how to tend to my child whenever he needs assistance. Way to go Oyama!

Lynn Urquides was an exceptional school when I attended it as a child myself but now that one of my kids attends this school I feel like it lacks a lot of structure, communication when my child has gotten severely hurt more than once and when the accident occurs there is never a straight answer of how it happened. I'd hopefully expect much more from this school, especially more professionalism.

Ms. Davis is an asset to this school.

Muchas gracias. me gustaría ser parte del grupo de PTO.

I would like to see assignments posted for easy access when a child forgets or loses their work. It will aide in responsibility if they are able to access it in these situations.

We love miles. Both of my sons have wonderful teachers and with our new principal, I feel comfortable and Confident my children feel loved and welcomed.

We live our school and believe in TUSD!

Needs better communication when kids get into trouble and they have to sit out during recess. I need to know when my kids have issues at school.

The office staff is unfriendly and racist. My kids are scared to go into the office.

Starting out with the class dojo app was a pain. Why does all communication go through this app?

There are some great teachers at Gridley. However the principal does not seem to care about parents concerns or even want to communicate with us unless pushed to do so. I had to go to the superintendent to get help for my daughter being bullied because nothing was being done at school. My daughter expressed a desire to harm herself because of it.

Thank you so much Gridley 6th Grade!!

My child excels in all areas but gets swamped in homework. About an hour and a half EVERY DAY. How can you expect sports participation, and honors classes to work together? It's like they want the students to fail or not participate in school activities.

Love Banks and everyone at the school!

My child's teacher is great but I don't feel comfortable sending my child to school all this week due to Halloween and día de muertos celebrations. I am Mexican myself but don't identify with any of those cultural practices. (What business does a 5 year old have making an "altar de muertos" anyway?) The school does not make a big deal out of Christmas or Easter so I feel that it's very one sided. I don't think I will enroll my child in a TUSD school next year.

Muy buena escuela

We love Banks and their staff!

I love all the teachers my children have had, they are AMAZING but the principle is on another level she's rude, has a problem when we bring up things we are concerned about with it involves our children, she won't even say good morning to parents or children in the morning. I don't understand how you can be a principle at an elementary school and not like the children or even be a positive person for them. White has been a good school but the principle and office staff sure do need better training. Thank you

Very little communication from the school for school-sponsored activities (not PTA) especially sports and clubs

The second grade teachers need to be split up. They also need to have less homework.

I was very disappointed to learn that I couldn't attend the Family Engagement Meeting at Wheeler without being "signed up" to attend. Especially since it was not communicated to the families that you needed to "on a list" to participate.

The combo of Parent Vue and Canvas and the haphazard way different teachers use these tools to record grades makes it extremely challenging to keep up with my son's progress.

La mejor escuela en tucson, estoy tan agradecida y feliz quemis hijos asistan a esta escuela

I wish there was a new to the school packet or special events at the beginning of the school so parents can get connected since it's a new school for the whole family. The Kindergarten potluck was cancelled and never rescheduled. It can be overwhelming for parents at a new school.

na

We Love Gale! It was hard at first but these last year and the beginning of this school year so far have been amazing! My girls teachers are great with them! And the office staff has been very helpful to me and my girls lately.

Gale is a gray school ... my sons teacher Mrs Catalan is so amazing with him and we definitely see the improvements that he has since he's been in this school

I didn't like that the teacher thought my child had ADHD

Wheeler doesn't allow parents to even enter building to participate or encourage parent involvement or even want volunteers

La mejor escuela

N/a

We LOVE LOVE LOVE Gale Elementary. The principal is a DREAM, the Staff, the Teachers are all a dream too! My child loves this school, every year I am so pleased that we decided to send our child here. Everyone is friendly and supportive, they all support a non bully environment and emphasize on kindness and it truly reflects in how the children are at this school (there is a huge difference here at this school) it's just so awesome. The students truly respect each other from what I have gathered over the years. I will be very sad when my child has to move on to middle school lol.

I feel that Dodge is a open welcoming school and am very happy that my grandchild attends this school. I wish there were more ways I could assist with homework? Additional assigned reading or homework would help?

White is the largest elementary school in TUSD. There should be more engagement with the parents & students. I feel like there's no school activities or engagement with the students as a whole.

Best school with the best teachers. My kids look forward to school and the teachers care about them so much.

The school cares about my child

Ninguno

School does a good job with my kids education thank you

Estoy de acuerdo entodo estoy muy contenta con que mis hijos asistan aesta escuela Robert's Naylor  
Thank you to those who chose to teach!

There has been more then one occasion I have tried to get a hold of the vice principal for many different situations just to be ignored even for the hiring process it was very unprofessional.

I would love to see the teachers participate in all school activities. For instance, if there is a spirit week. All teachers should be participating. If there is a after school function, most should be involved. There needs to be more school spirit, kids see that and appreciate it, and will follow their lead!

I love to TUSD. I attended schools there for all 12 years. I'm happy my son is also going there.

I have 3 children that attend Sabino and they're satisfied with the environment and peers

My kid is a 9th grader, new to THMS. He seems happy and has learned his routine well, I think. I unfortunately couldn't make it to conferences, and when I reached out to teachers about it, they did not respond. I'm ok, my kid is doing ok, but I hope they were able to give more time and attention to families that needed help / support more than me...

We attended the freshman orientation and the open house so we did not feel the need to attend the parent teacher conference as they we're scheduled close together. Almost all her teachers have been very responsive via email. I've only reached when she was sick and would be out for a significant amount of time to get assignments. I've wanted to follow up on meeting w college advisors but haven't prioritized that yet.

Id like better access to school work when my child misses class..

Front office staff in attendance and finance are rude

Please make ptc meetings available during times that working parents can attend as well.

LGBTQ ideology has no place in school. There shouldn't be LGBTQ flags in the classroom. School is for academics.

We are loving Alice vail and appreciate all the teachers and staff for all the dedication and support they give to their students. We love being apart of the Falcon family. Thank you. We love this school Ms Welch is a great leader of the school. Rincon does not need block periods. Credit recovery is the bane of high school education

Frutchendler does a fabulous job with family engagement! In the past year, they have also improved in doing more activities at night (such as performances, etc.) instead of the day and providing dates in advance, so that parents who work can plan accordingly.

Some teachers seem very rude to kids in class. I went to conferences but it was hard to talk with so many people around. Also the bathrooms at the school are awful and need to be cleaned and fixed. my kid is very stressed out about having to use the bathroom at school when there are not doors on some stalls and sinks don't work.

Ikinyarwanda

Would like to be more involved don't really feel that welcomed as it's my first year. Maybe a bit more encouragement?

First, school should start later in the morning. At least 8:30am. Second, there should be more resources or more access to available resources for emotional/mental health, especially for high schoolers. Third, virtual/Zoom parent teacher conferences should be the standard. While I was able to contact my child's teachers outside the designated parent/teacher conference timeframe, a Zoom option would be helpful. Thank you!

N/A

The new principal, Mr. E. is doing an outstanding job. The warmth of the school community has improved. He is very approachable and the kids like him.

Most teachers are caring and kind to my child. They genuinely give us the impression that they want her to succeed. The principal and the nurse and nurse assistant on the other hand treat people rudely consistently. Kind, well mannered, good students are getting accusatory attitudes from these sources, even when there is no wrong doings happening.

This school has been nothing but fantastic from kinder to now. Thank you Marshall!

I'm happy with my child services and her teachers at the school.

I like this School.

Gracias por las atenciones para mi estudiante

Gracias as por las atenciones para mi estudiante

We love Marshall!

We could have better grading for our school

The principle does not seem like he wants to be there. I do not hear encouraging redirection or care for students.

I like the friendly staff at THS. They have answered all concerns that I have had. My child has not experienced any problems so I feel he knows what is expected of him.. He is not a straight A student. tn honor r\blems xed any problens with my child

Great School, wonderful staff.

This school provides special care for my son with down syndrome

I would like teachers to respond to emails to better help our students.

PUEBLO NEEDS TO EDUCATION THEIR TEACHERS ON THE LEARNING STYLES OF STUDENTS AND THEIR CULTURE !!!!!

I enjoy taking my child to this school .. they have always been welcoming and respectful to my children and myself . They have amazing staff

We love Davidson Elementary

Pistor es una muy buena escuela y siempre toma en cuenta a toda la comunidad escolar y a padres de familia .. están comprometidos con el aprendizaje y sobre todo con la salud emocional de nuestros hijos

I've had a problem with the school for already 3 years I had to take my little sister out of the school because she was getting sexually assaulted and abused and the teachers were abusing verbally and physically abusing my son

I've consistently heard from my children and their classmates that the school nurse\health aide lacks training and empathy.

We have been so happy with the GATE program at Doolen. Wonderful, caring teachers who encourage learning. Ms. Santin has also been a strong and effective school leader.

The office staff is completely disrespectful and rude when I needed my child's to be out of the classroom they couldn't call the child out due to witching periods which they have access to announcements do that for anything and when my brother went there the beginning of this year we already had several problems and I went to that school multiple times and the teachers were rude disrespectful and nothing was done about it the principal is very very very rude and disrespectful as well as her staff

Love the breath and expertise offered in Tucson, highs, academic and sports programs. Where else could my son be in honors orchestra, the baseball team, and have honors and theater classes.

إفريقي

Teachers need to be more aware and help students out and not give them work that they have not learned yet. School also need to provide more school lunches and not just one thing this school need better leadership

So far the communication has been on point and we are very excited to get started :)

Our Child Attends TUVA via Bloom

I love Davis

There needs to be a better system for elementary pick up. There needs to be a one way in and one way out for the parking lot for pick up. It's to crazy. Almost causing accidents. Not enough room for only on opening. Maybe have staff or security helping with direction and parents speeding through. Danger to kids.

We need more tutoring help for our children

Great teachers and staff !

I have reached out several times to both of my middle school students teachers for clarification about

assignments, questions about grades and how I can best support my student at home and not one teacher has ever replied back to me.

Sports and other events other than PTO have been unorganized

This school is terrible

Our last parent teacher conference, one of our child's teachers couldn't explain what they've done in her class, what their educational plans were and just smiled and laughed at us awkwardly. There's also been an issue with our child being bullied. Once her mother and I confronted the teacher and had her explain everything, and we spoke about the matter in regards to that student and our child. Afterwards our child has informed us that she's worried she might be a target for that teacher since we as parents had spoken to her. Although we had been stern while speaking we were also reasonable and tried to be understanding as we know how children can be but the teacher had seem to take offense to what we had asked. It would be nice to have the teacher looked into a bit further just to insure all students in her class are being treated equally and not being scored for issues that had not been caused by them. It would be nice if she could address the students nicer, and be more patient as well as understanding. Also to keep in mind they are children and their bladders are smaller than us adults. They can't hold it all day like some grown up can. To my understanding not being allowed to use the restroom all day has also been an ongoing problem. Thank you again, sorry not much of a positive comment.

Front office are super rude and unprofessional you walk in and they make you feel like you are bothering them. Shame on them for treating their parents in this manner

Me encanta la escuela el edificio. Y su personal.

Two things: (1) The school recently emailed a notice that they were allowing a church to be give students "snacks". My children did not receive the snacks, but I do NOT think the school (A SECULAR PUBLIC SCHOOL) should be aiding any religious group to indoctrinate students with religious materials in any way and I suspect the "snacks" included literature/messages from the church. (2) The school allows a parent(s) to organize fundraising for an end of year trip for 8th graders and I put my name on a list of parents that may have been able to volunteer. This resulted in me being included in a text message group that the organizer initially sent messages only in Spanish and I do not speak or read Spanish. After receiving MANY phone text message notifications from the group I sent a message asking to be deleted from the group. My request resulted in me receiving a text message (I think was from the organizer) stating that I was being "RUDE". I don't care what they think of me, BUT I believe the school has an obligation to ensure that school sponsored parent groups are operated INCLUSIVELY and not exclude parents based on language.

Bonnillas Principal is Amazing he is always involved with all of us parents and students. He is always there when I need to speak with him about my son.

none

Super tough getting through when mom contradics

La escuela necesita recursos para clases de arte o música ayuda con la limpieza los baños están muy sucios y los maestros no muestran respetos ni por los estudiantes ni por los padres y el principal no está atento a lo que pasa en la escuela aparte no usa los recursos para ayudar en lo que realmente necesitan

the times that i have had to go into the office at pueblo high school the staff at the front desk have been rude. when i walk in i am not greeted or feel welcomed. it seems that i am bothering them. the women that work there their faces are very unwelcoming and seems like they are being disturbed by parents coming into the front office.

Está escuela necesita ser supervisada porque tanto maestros como director no están al pendiente de los problemas y no escuchan a los padres en cuanto resolver algún problema

Love Mary Belle McCorkle! The administration in particular is top-notch!

I love BLOOM elementary school

I have emailed teachers for PT conferences outside of the single evening provided, and while some teachers are willing to make accommodations, others state clearly this is not a requirement of their time and they are not available.

Big Time. Thanks

I would like more after school programs promoted at our school

I feel my son is doing a very good job and his progress is beyond what I had expected.

E visto que hay peleas entre niñas me preocupa por que mi otra hija entrara ahi el proximo ciclo escolar

I would like to have been more involved in my student's course selections these past three years.

My child misses at least 2 classes a day Just recently got caught writing on wall by principal. No consequence.

It would be nice to have a regular substitute when her teacher is out, which has been A LOT!!!!

Cannot communicate with the principal. The principal sees no good in my child, all bad which has made her depressed

I'm only available on Mondays so it's hard to have a parent/teacher conference

Not attending conference was my own fault not the schools fault at all. I wrote down wrong time.

I have a child who has two mental health diagnoses. I have been trying to get him extra help since 3rd grade. TUSD is failing us

Thank you Roberts Naylor, principle R has been amazing and a great support for my childrens education.

My child is new to school in this country the schools hospitality has been verry helpfull for us to adjust and to make us feel a warm welcoming

Thank you Rincon for helping my son through the years to strive to do better

I fear that the standardization of learning and large class sizes are detrimental to my child being able to get the support they need to meet the often high standards for their age (kindergarten, specifically). There is not enough support for neurodivergent children with autism or adhd to help facilitate focus during times of learning, and teaching them how to focus in a classroom environment is left solely to the parent, who isn't in the classroom.

Great teachers

Love Robins! Feels safe and like such great learning environment. Thanks Robins!

Everything is going well.

None

I love my son's preschool teacher

I feel some teachers are not supported by their leadership when dealing with children with bad behaviors. We lost a really good teacher because of this and as a parent we did not get much notice of teacher leaving. My child had to adjust to a new teacher with different teaching methods.

Need security at your schools

Great Staff, all are willing to help.

It's hard to participate my child's learning due too not being in the same city and also I work all day but I do try to read all the emails I recieve

Savibos basketball coach is terrible and lies to kids. Not a good role model.

Thank you!! for helping my child

Having transgender teachers don't help. It makes kids confused on what to called them !!

Teaching is a difficult profession. As well as all positions within a school environment. But seems like the staff and teachers are easily annoyed by the children this year more than ever. The reason I say this is because my two children come home often and tell us what they heard teachers or staff say to other students that was rude or inappropriate. It makes the students not want to go to these professionals for help or guidance when they need it. My children are not happy at Carrillo this year unlike previous years and therefore we have decided to change schools come next year.

None - A huge barrier is no transportation. My son has to wait around for us to pick him up in a bad neighborhood. Only told take the public bus, which is not an option due to homeless population riding the bus. Major safety concerns.

No information provided on standards, curriculum. No way to know if my child is falling behind. Staff aren't proactive to students needs and addressing learning hurdles until a parent asks. Leaves me in the dark. Thought my child was doing great in school. Found out she has been behind both years she attended this school. Even thought I had daily face to face contact with her teacher.

The lady at the front desk often looks unwelcoming and quite bothered by being asked for any sort of help.

I have reached out to a teacher about my daughter being marked absent and she said that it's too early in the morning to remember what happened and never got back to me! The Teachers need to update parent view with students progress weekly not whenever it's convenient! You are teacher's because the career you chose, take the time to keep us up-to-date

We've always been offered all the information and resources we need at UHS. Our son is a self-confident, conscientious student. We send emails asking each teacher if we need a conference, but so far, they have sent kind emails back saying there is nothing more required of him. We love UHS!

Sam Hughes Elementary is a wonderful school! I am so grateful my kids attending this school.

STUDENTS AT THIS SCHOOL NEED MORE SUPERVISION, MORE MONITORS, VICE PRINCIPALS MORE INVOLVED IN STUDENTS SUPERVICION TO CONTROL VAPING, DRUGS, TAKE DOWN VALENCIA HATERS WEB PAGE, AND SEARCH SOCIAL MEDIA TO PREVENT PROBLEMS FOR STUDENTS AT VALENCIA MIDDLE SCHOOL

Big bully problem at the school from the top to the bottom, from the principal Sarah Andricopoulos down the front desk office staff

Hate this school

All good!

In most case that I answered "agree" it was because of 1 maybe 2 times. Certainly not an equal representation of the staff. Some are good in reaching out. Others are invisible. In the worst case one was just outright rude. I look forward to everyone into TUSD to truly enjoy their job. Then, hopefully everyone can be equally engaged and accessible.

Pueblo H.S is a great school and my children enjoy their school days as well as athletics.

All the staff at Naylor care about my kids. They go above and beyond for students.

Wonderful school experience so far :-)

I want more info in resources for families that have neurodivergent children

Principal and reading coordinator difficult to work with respect is earned not given the way these toxic people in authority roles speak and behave towards children is so degrading it's inexcusable. there's no after school program at this school my daughter comes home every day telling me how she is spoken to but because my daughter teacher is amazing I keep her here but I'm reconsidering it for next year . It's really sad how her reading coordinator speaks to her demands the oddest request of what she feels respect is and is living in the past . TUSD needs to train people to let go of toxic behaviors just because you're in a position of authority.

I would like my child's teacher to communicate more regularly with updates regarding his learning strategies after the 1st parent-teacher conference to ensure that my child is learning at an appropriate level based on the results from his assessments discussed at the 1st parent-teacher conference or discuss way to help his learn at the appropriate level.

When it says "the staff" or "school" I'm really answering based just on the teacher. Mr Manjarre is amazing, dedicated to my child's success, and keeps me very well informed as well as offers guidance and support as well as he is open to hearing my suggestions to help my child succeed.

Muy satisfecha con todos los BONILLAS muy buenos maestros.

Bonillas is a wonderful school that has a great community we're proud to be part of!

Time is not being used by the school in a way that aligns with state and national laws. Children are not given proper instruction nor does the staff re teach subjects over the year. We have over 39 free days in English with not one essay completed. I've had to fight to get teachers to follow the law. The teacher conference was BEFORE the benchmark tests. Benchmark tests were not aligned by state standards. Children can't speak English in class and sit in tablet watching YouTube instead of getting help. Creating a culture that respects math and language arts makes learning at home after school a lot easier for parents. Rubrics given are not used by teachers. Low quality instructions and low expectations lead to problems at home and society as a whole, that's not internalized by the school as externalities, so it can't be managed. Teacher unions have an illegal Stakeholder position that harms teacher culture that trickles down to students. It's not babysitting, it's supposed to be a school from 9am to 4 pm. Lots of blame on households when the staff flat out refuses to actually teach and have children practice in class from 9-4. Overall the system is set up to fail 1/4 to 3/4 of the students. They like talking about sex with the students - not writing essays, yet don't want to parent everyone's child? Despite the Contradiction and hypocrisy of the principal and staff, my child would still attend the school. What choice does she have? They're all like this, too comfy for too long doing diabolical things while maintaining a good reputation based on being a teacher that can't get fired is the problem. I didn't get an invitation for a meeting and by the time they had meetings, I had counted 22 free days in ELA, 13 in social studies, 17 in science, so what could they be meeting about, nobody did the work but lied about it. Teachers show the students that class instruction does not matter so they come home with that attitude. The ELA teacher needs help, the OE teacher is passive aggressive and two weeks of no science, to do sex education, in addition to several free days. The school advertising one thing, but they're doing another. Totally lawless staff getting away with too much for too long - gleefully and vindictive in nature, the kids are captive Audience where teachers feel they can do whatever they want with our kids despite educational laws. Always saying the kids and households are the problem while ignoring the absolute fact it's the staff. My child is 12 years old and the school system has done one essay, the rest were done at home. Why? Affirmative action is gone, meaning those essays are more important than ever. Can I ask why an educator paid from 9-4 can't teach, but parents that work a hard shift are expected to teach it all after work when the children have been sitting in school all day? How about schools with an 11 percent average test scores? It's a humanitarian crisis created by the staff at the school that spills over into homes and decreases the marketability of over half our youth while hiding behind natural high achievers. You're all lying about what's actually being taught while blaming parents for not being able to literally tell teach material at home or teach stuff that was never taught, but we're supposed to. It's a mess, the teachers are not teaching and doing guided practices and repeated calls to get the teachers to stop making kids sit doing nothing for free days have slowly been answered but, the staff wasted at least a month so far. Please get it together so kids' lives can improve, I suggest a workshop for the teachers held by educational lawyers to discuss how children learn and what parents expect our children to learn in class by a tax payer funded licensed educator. Alice Vail was worse. But there's a culture of placing

blame on students that runs deep and wide throughout the public schools nationwide such that you'd need the national guard to take over to fully achieve the true mission.

I am concern about the lack of planning on the North Gym and Auditorium. Most kids in fine arts are negatively impacted by closing these buildings. I appreciate the safety guidance, but it's frustrating to know the district neglected two key buildings. We need to hear more about what the plan is.

My child is a senior. She is doing very well.

My boys are mix

My son misses a lot of school do to my health problems and when I'm sick I have no way to get him home from school only a ride 2 school

Our child's teacher is amazing!!! She deserves a high recognition. She is the reason our school received a "B+" grade! However, the rest of the issues at this school need to be addressed. Code of conduct issues, parents ideas are not welcome. Some of the same people who are on our Booster Club are also on Site council and do not make it very welcoming to parents and or guardians. The lunches have improved a lot, but at times they run out of food/choices by the last lunch. There are other issues at this school that will most likely never be addressed

The best school

Mansfield tiene algunas maestras con un carácter no apto para tratar con estudiantes adolescentes no están preparadas para evitar o controlar conflictos entre estudiantes a mi hijo lo agredieron me lo insultaron por creer que era mexicano por no saber inglés y la culpa es de mi hijo y siento que me lo menosprecian por no saber inglés. Y ahora el es el chico malo y me lo quieren estar suspendiendo por cada cosa yo como madre le pido que se defienda por que desde que entro a esa escuela cambio su forma de ser por ser mal recibido el era un niño feliz ahora siempre está ala defensiva por el bullying causado.

Manzo es una escuela espectacular mis hijos están feliz asistiendo a Manzo, los maestros hacen sentir cómodos a mis hijos y son muy comprensibles con ellos por no saber inglés y les pone. Más ayuda para que aprendan y vayan en sintonía con los demás estudiantes.

I would like to attend the cafecitos but the time does not allow me to attend. Not sure if there is a zoom link that I could use.

Thanks for letting me know when you're available

Gracias por todo

I am comfortable emailing my child's teachers. Most of the time they respond within a day. I have had communication with my child's counselor as well. But not all teachers respond in a timely manner. That is the best way to communicate about my child's education, for me. I am always working or can't always be as involved as I would like to be. I hope that doesn't translate as "I don't care about my child and I am not doing my part". Feeding my kiddo and providing basic needs is a priority sometimes. I appreciate everything teachers do. I know it is a very hard job.

when i go to the school to take my son out of school the staff at the front desk are always rude. they dismiss me like I'm not standing in front of them waiting to be called on. the other lady at mcccorkle that is always at the front desk is very rude. she seems to cater to the mexican people who come into the office. i don't know if she doesn't like native Americans but it sure feels like it when i go into the office. i dont like going in the office because of this behavior these school employees have towards me.

I know that I cannot state my honest opinions to this school and it's administration because my son got retaliated against that just happened.

When (PTO) meetings are held during the workday, you are excluding working families from participation and decision making..

We love our school!!

We are new to this school and we love it so far!!

I am not an active member of any organization in school but, I always participate in any event in school if it's not conflicting to my schedule.

Me gustaría poder tener más comunicación con los maestros , y poder apoyar a mi hijo y buscar un tutor gratuito por que no puedo pagar uno , pero en la escuela me dijeron que no tenían !! Y pues mi hijo está batallando mucho con sus clases

This school is lacked of parents participation in many ways.

The front office needs to be more respectful.

Very happy with Mr Amidan's voice memos and emails. This keeps me well informed. Please keep it up!

My child gets resource but many times he doesn't go to see teacher n when asked why teacher says she's busy with students worse off than mine or she has other things to do to help in other areas of school this is unacceptable!

I absolutely hate that my student brings home nothing concrete from teachers and parentvue messages and emails are never sent either. The occasional robocall from the principal is the only communication I receive from the school or teachers unless there is something seriously wrong. Which, on one hand, it gives my child independence and responsibility to take care of her own matters. But, on the other hand, she has expressed that she feels as though she's "on her own" with no help, which is hard to give when all her work and any type of syllabus or newsletter is on her personal iPad .

Blenman used to be very good at informing parents/guardians about assemblies, days off from school (holiday breaks/professional development days). For some reason this school year things have been announced very last minute or not at all. The messages Ms. Mack used to send out were very helpful in informing families in a timely manner.

It's been always an issue with attendance at the school, my son is reported absent when he really isn't, not even tardy, I'm always finding myself calling the school so they can correct it.

I have been pleased with the school and feedback the teachers give my children. Thank you!

I have in the past emailed one of my sons teachers and until today have yet to receive a response. As a new parent to this school, I was not made aware of how to sign up for parent teacher conferences. Overall I think some teachers communicate better than other. Mr Ruhf is the perfect example of great communication with parents and also is on top of grading school work. This shows us parents what our kids true grades are. Thank you!

Me parece bien como me ayudan y ayudan ami hijas muy excelente todo 😊

We need more resources for Hispanic.

The principal is the worst

Arab

Tengo muchas ganas de apoyar a la escuela como también a mis hijos pero mi idioma español no me lo permite.pero estoy totalmente contenta con los maestros son de lo mejor !

Dodge is a wonderful school !

We love Ford

We love Ford staff is awesome.

I wish we were allowed in the school, at least just to walk my child to the playground in the morning, then I would leave.

Make parent drop off/pick up more efficient. Too much time waiting to pick up.

We have had a great experience with Ford and the staff from day 1 when enrolling, being new from Texas. We appreciate all the help and Kindness.

Love all the new changes with the new building. Looking forward to being completed.

Our Family Engagement has slowly removed CTE from the narrative. They have even taken the CTE logo off the banner in the front of the school ever since they merged CTE with IB. Two very different programs.

none

I am completely satisfied and engaged with the education my child is receiving at University High School

Gracias por ayudar a mi hijo

white race / hispanic born ethnicity

Gracias por la ayuda para nuestros no estudiantes

Mansfeld has been a great school for my son. He is in STEM ambassadors and is doing great in his classes.

Always feel safe when my kids are in the school area because I know it's a safe place for them when they're not home, teachers are awesome along with all staff, able to understand our feelings and situations also children's feeling, easy to communicate with the school staffs and teachers, I think the school is the best Lynn Urquides Elementary school you rock this year hopelly it will stay that way all these years near future. Thank you Lynn Urquides Elementary School

The pandemic and the school's handling of academics during and following the pandemic were sub-standard. The district took no accountability for helping students improve grades (other than F) that may have been placed on their high school records during the periods of shutdown, and made what feels like a covert decision to limit the Apex program. The last we heard it was not disclosed how this decision was made or precisely who made the decision at the district level. It would seem, that the district is more interested in simply graduating students than actually helping students with their academic futures. Those classes of students and teachers who were suddenly moved from the classroom into an entirely foreign online learning environment with no planning or proven template suffered greatly during this period. This students will carry any tainted grades into the college admissions process. Again, the district seems more interested in simply graduating students than helping assure their academic futures. A huge failure on the part of the district.

Awesome Principal. Much improved over prior Principal.

Mr. Amidan has made a lot of positive changes to Sabino. His interaction with his students and his staff is one of a kind. Always has a positive attitude and makes the best out of ever situation.

Muy contenta con la escuela de mis hijos siempre hay alguien ayudando a los padres y siempre la directora y el personal están dispuestos a escuchar.

Mis hijas mi esposo y yo estamos muy contentos con su escuela

Q 18: The conferences were set up by periods (ex. 1st then 2nd etc) I have 2 kids so had to pick for each period which teacher to see.

Thank you for the support.

I was recently added as temporary guardian for my granddaughter and was told I would be able to access ParentVUE. However, I was not provided with an activation code.

We have been very happy with our school choice of Carrillo. Ms. Bittel is a fantastic leader and principal.

We LOVE Whitmore and the community environment that the staff and leadership (Ms Fig) nurture across all grade levels.

Half of the cores subject teachers do not update grades regularly and we are unaware of due dates. It's been a major challenge.

Overall this is a great school and I love it kids fit right in.

We Love Tully & Staff! Excited to see our school continuing to improve!

Rampant bullying is still a problem. Students not being disciplined for poor behavior. Smaller class sizes necessary.

My grand child has been expressing that she is not happy with her teacher and she does not want to go to school. This has never been an issue all of her years at Vesey. She is a great kid who loved school and now hates it because of her teacher. Her teachers name Ms. Hana and a fifth grade teacher.

Lineweaver staff has been absolutely amazing. The personal care they have given my family is above and beyond ! We are so lucky to have sent our kids to Lineweaver.

We'll ask questions

Great school

Buena escuela y atento el personal

None.

Parent-teacher conferences are so short that times get filled fast. Conferences should be extended to give parents more options to attend.

The Principal at Sabino is very active and our son has a 4.0 and likes going to school there.

My daughter is a freshman at Sabino and I have been incredibly impressed with the staff and how they take interest in my daughter's education. The principal is absolutely fantastic

We love the school. We strongly dislike TUSD and the way they make policies that affect our students abilities to retake courses.

Since I've already responded, this is a duplicate, therefore the data is inaccurate. Once the survey is complete, I shouldn't be able to complete it multiple times. Kind of like stuffing the ballot box, skews the outcome. Nevertheless, this survey does include comments on the failure to have staff agree to use a common source for informing parents/guardians. This is an easily solved problem. Overall, love our student being at Sabino.

shortage of laptops as had to be sent to other schools in the district

The questions that I put disagree on were because I don't know of any programs offered to support learning at home.

I'd like to see healthier lunch options since our country has the highest rate of childhood obesity than any other. I want you to put more emphasis on classes with practical knowledge that will actually help our kids survive; Home Ec, Shop, Sex Ed, Drivers Ed, Finances, Health. I want teachers and the district to leave all political opinions outside the classroom. Kids have become extremely disrespectful in the classroom, there needs to be more discipline.

Happy Thanksgiving!

Equitable recognition of sports would be a nice addition to your successful school

We love Sabino HS! The staff is wonderful and works so hard to help every student succeed!

We are new to Sabino so we haven't had very much time to experience how the school runs out communicates with parents. The packet of info given to new people should include instructions for what apps are used by teachers, how to get the most out of parent view. Our daughter is a very good student so I'm not as involved as I might be if she was struggling.

We transferred to Sabino this year. Best decision we have made for our son. Great school!

The school does not communicate about what programs they are putting our children in and what the program is supposed to accomplish. Some programs should require parent approval, such as the behavioral chart program. There has to be a better way to encourage kids instead of punishment programs.

Thank you to our ITHS leadership Mrs. Hurley, to our teachers and staff for all you do.

My negative feelings about TUSD are definitely a factor in my answers on this survey.

I feel like there are none negative consequences for misbehaving students and it is getting out of control. Students need to understand what is expected of them and that otherwise they would have a negative consequence which doesn't happen in this school.

The conference periods on Tuesday and Thursday leave too much unsupervised time for students. It's becoming a safety issue.

El horario me impide ser parte del consejo escolar, pero estoy super feliz con la escuela, maravillosas personas en caveet. GRACIAS.

This survey offers the questions in English and Spanish but the answer choices are only in English so it's not truly bilingual. If you want Spanish speakers to participate in this survey make sure the answer choices are also translated.

University High School teachers and administration are exceptional.

No thank you

Shout out to all staff at Anna Henry Elementary!! My daughter loves school!!
