Council

Mission & Vision Statements

The **mission** of our Student Advisory Council is to empower and amplify the voices of African and African American high school students, fostering a community of leaders who are deeply engaged in representing and addressing the unique issues and challenges faced by their peers. We provide a dynamic platform for advocacy, mentorship, and leadership development. Through collaborative efforts, mentor-guided initiatives, and community involvement, our council strives to create impactful solutions and foster a culture of positive change and resilience within our schools and broader community.

Our **vision** is to cultivate a generation of confident, informed, and proactive young leaders from the African and African American student community. We aspire to create an inclusive and supportive environment where these students can freely express their concerns, ideas, and aspirations. Through our comprehensive leadership development programs, mentorship of middle school students, and meaningful summer internships, we aim to equip our council members with the skills, knowledge, and experience necessary to lead effectively and make a lasting positive impact. We envision a future where these young leaders not only advocate for themselves and their community but also serve as catalysts for systemic change, promoting equality, understanding, and unity in all spheres of society.

Program

Welcome

Black National Anthem

Invocation - Rev. Dr. Amos Lewis

Breakfast

SAC Mission and Vision Statement

Recap from SAC Members

Reflections

The page features decorative geometric patterns in the corners. The top-left and bottom-left corners have patterns of concentric arcs and dots. The top-right and bottom-right corners have patterns of triangles and lines. A large, irregular, golden-yellow watercolor splash is centered behind the title.
